 - b. Based on a risk assessment of potential surplus property needs, the Commission shall target its education and outreach efforts of the State Surplus Property Program to select state agencies to ensure state agencies are actively identifying surplus property eligible for disposition.
 - c. The Commission shall develop and track performance benchmarks and targets necessary to evaluate the State Surplus Property Program activities for timeliness, cost, and profitability. The Commission shall report to the Legislative Budget Board and the Governor, no later than August 31, 2008, on the following:

The system shall be accessible through a web-based interface, provide forms for efficient entry of data required by the State Vehicle Fleet Management Plan, allow agencies to batch load relevant data from internal legacy systems, provide fiscal and managerial reports for both direct asset management and oversight needs, and be flexible enough to accommodate future agency or legislative needs. All funds collected through interagency agreements for the statewide vehicle fleet data management system shall be expended solely on the fleet system. Any unexpended balances of these funds remaining as of August 31, 2008, are hereby appropriated to the Commission for the fiscal year beginning September 1, 2008, for the development or maintenance of the system.

3. Appropriation of Local Funds. All funds received by the department from counties, cities, and from any other local source and all balances from such sources as of August 31, 2007, are hereby appropriated for the biennium ending August 31, 2009, for the purpose of carrying out the provisions of this Act.

4. Nursing Home Program Provisions.

- a. Nursing Home Income Eligibility Cap. It is the intent of the Legislature that the income eligibility cap for nursing home care shall be maintained at the federal maximum level of 300 percent of Supplemental Security Income (SSI).
- b. Limitation of Per Day Cost of Alternate Care.
 - (1) The department may not disallow or jeopardize community services for individuals currently receiving services under Medicaid waivers if those services are required for that individual to live in the most integrated setting, the reimbursement rate paid for needed services does not exceed 133.3 percent of the reimbursement rate that would have been paid for that same individual to receive comparable services

in an institution over a twelve month period, and the department continues to comply with cost-effectiveness requirements from the Centers for Medicare and Medicaid Service.

- (2) The department shall "grandfather" on September 1, 2003 those individuals receiving services in a medical assistance waiver program, under authority granted in the Department of Human Services' budget rider 7 in the 2004-05 General Appropriations Act, Seventy-eighth Legislature, when continuation of these services is necessary for the individual to live in the most integrated setting appropriate to his/her needs and the department continues to comply with the cost-effectiveness requirements from the Centers for Medicare and Medicaid Service.
- c. Establishment of a Swing-bed Program. Out of the funds appropriated above for nursing home vendor payments, the department shall maintain a "swing-bed" program, in accordance with federal regulations, to provide reimbursement for skilled nursing patients who are served in hospital settings in counties with a population of 100,000 or less. If the swing beds are used for more than one 30-day length of stay per year per patient, the hospital must comply with the regulations and standards required for nursing home facilities.
- d. Nursing Home Bed Capacity Planning. It is the intent of the Legislature that the department shall establish by rule procedures for controlling the number of Medicaid beds and for the decertification of unused Medicaid beds and for reallocating some or all of the decertified Medicaid beds. The procedures shall take into account a facility's occupancy rate.
- e. Nursing Facility Competition. It is the intent of the Legislature that the department encourage competition among contracted nursing facilities.
- 5. **Appropriations Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for the Nursing Facility Administrator program in Strategy B.1.2, Credentialing/Certification, and the Home Health and Community Support Services Agencies program in Strategy B.1.1, Facility & Community-Based Regulation, as well as the "other direct and indirect costs" associated with this program, appropriated elsewhere in this Act. Direct costs for the Nursing Facility Administrator program are estimated to be \$348,929 for fiscal year 2008 and \$348,929 for fiscal year 2009. Direct costs for the Home and Community Support Services Agencies program are estimated to be \$1,547,260 for fiscal year 2008 and \$1,547,260 for fiscal year 2009. "Other direct and indirect costs" for the Nursing Facility Administrator program are estimated to be \$88,528 for fiscal year 2008 and \$88,500 for fiscal year 2009. "Other direct and indirect costs" for the Home and Community Support Services Agencies program are estimated to be \$418,905 for fiscal year 2008 and \$418,771 for fiscal year 2009. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
- 6. **Accounting of Support Costs.** The State Comptroller shall establish separate accounts from which certain support costs shall be paid. The Department of Aging and Disability Services is hereby authorized to make transfers into these separate accounts from line item strategies in order to pay for these expenses in an efficient and effective manner. Only costs not directly attributable to a single program may be budgeted in or paid from these accounts. Items to be budgeted in and paid from these accounts include, but are not limited to: postage, occupancy costs, equipment repair, telephones, office printing costs, supplies, freight and transport costs, telephone system costs, and salary and travel costs of staff whose function supports several programs. The department shall be responsible for quarterly allocations of these costs to the original strategies.
- 7. **Fund Transfers for Funds Consolidation.** For the purpose of funds consolidation, federal and other funds may be transferred into the General Revenue Fund from the Department of Aging and Disability Services Fund No. 117. The initial deposit of federal funds shall be made into Fund No. 117 and no direct expenditures shall be made from this fund.

8. **Pediatric Care in Nursing Facilities.** In determining the appropriate placement for children who currently receive care in nursing facilities, the department shall, within the requirements of federal law, consider the requests of parents concerning either a continued stay in a nursing facility providing skilled pediatric care or an alternate placement.
9. **Limitation: Medicaid Transfer Authority.** Notwithstanding the transfer provisions in the general provisions (general transfer provisions) of this Act, none of the funds appropriated by this Act to the Department of Aging and Disability Services for the following Medicaid Strategies:
- a. A.1.1. Intake, Access and Eligibility;
 - b. A.2.1. Primary Home Care;

 - p. A.6.4. Promoting Independence Services;
 - q. A.7.1. Intermediate Care Facilities - Mental Retardation (ICF/MR); and
 - r. B.1.1. Facility and Community-Based Regulation

may be transferred to any other item of appropriation or expended for any purpose other than the specific purpose for which the funds are appropriated without the prior written approval of the Legislative Budget Board and the Governor.

However, transfers may be made between Medicaid Strategies in accordance with other provisions in this Act, including the general transfer provisions, and transfers may be made from Medicaid strategies to separate accounts authorized by agency rider and established by the State Comptroller for payment of certain support costs not directly attributable to a single program.

10. **Other Reporting Requirements.**

- a. **Federal Reports.** The Department of Aging and Disability Services shall submit the following information to the Legislative Budget Board and the Governor no later than the date the respective report is submitted to the federal government:

The monthly financial reports shall be prepared in a format specified by the Legislative Budget Board.

11. Appropriation Transfer Between Fiscal Years. In addition to the transfer authority provided elsewhere in this Act, the Department of Aging and Disability Services may transfer appropriations made for fiscal year ending August 31, 2009 to fiscal year ending August 31, 2008, subject to the following conditions provided by this section:

- a. Transfers under this section may be made only:
 - (1) If costs associated with providing Long Term Care Medicaid services exceed the funds appropriated for these services for fiscal year 2008, or
 - (2) for any other emergency expenditure requirements, including expenditures necessitated by public calamity.
 - (3) if appropriated receipts generated through the MR related programs required to fund appropriations contained in this Act for fiscal year 2008 are less than those contained in the method of finance for the department for fiscal year 2008.
- b. Transfers may not exceed \$50,000,000 in General Revenue.
- c. A transfer authorized by this section must receive the prior approval of the Governor and the Legislative Budget Board.
- d. The Comptroller of Public Accounts shall cooperate as necessary to assist the completion of a transfer and spending made under this section.

12. Reimbursement of Advisory Committees. Pursuant to Government Code § 2110.004, reimbursement of expenses for advisory committee members, out of funds appropriated above, not to exceed \$8,000 per fiscal year is limited to the following advisory committee:

Nursing Facility Administrators Advisory Committee

To the maximum extent possible, the department shall encourage the use of videoconferencing and teleconferencing and shall schedule meetings and locations to facilitate the travel of participants so that they may return the same day and reduce the need to reimburse members for overnight stays.

13. Survey of Nursing Facility Residents. Out of funds appropriated above, the Department of Aging and Disability Services is allocated

- a. Up to \$360,000 in All Funds, of which up to \$180,000 is General Revenue Funds, in fiscal year 2006 to conduct surveys of nursing facility residents and individuals receiving other long-term services and supports. The surveys shall assess how satisfied individuals are with their quality of care and quality of life. Not later than January 15, 2009, the department shall submit a written report on the survey to the Legislature, Governor, and Health and Human Services Commissioner; and
- b. Up to \$1,000,000 in All Funds, of which up to \$500,000 is General Revenue Funds, to perform on-site case reviews of the care of nursing home residents and individuals receiving other long-term care services and supports. These reviews will identify preventable occurrences of adverse outcomes. The result of these reviews will be

DEPARTMENT OF AGING AND DISABILITY SERVICES

included in the report to the Legislature, Governor and Health and Human Services Commissioner described in (a) above.

14. **Promoting Independence-Client Services.** It is the intent of the Legislature that as clients relocate from nursing facilities to community care services, funds will be transferred from Nursing Facilities to Community Care Services to cover the cost of the shift in services.
15. **Nursing Facility Beds for Medicaid Eligible Veterans.** Contingent upon a request from the Texas Veterans Land Board, it is the intent of the Legislature that the Department of Aging and Disability Services maintain a program for Medicaid-eligible veterans that will enable those individuals to be placed in State Veterans Homes. It is further the intent of the Legislature that the department amend its nursing facility bed allocation rules to create sufficient certified beds to accommodate the requirements of such a program.
16. **Centers of Excellence.** It is the intent of the Legislature that out of amounts appropriated above to Strategy B.1.1, Facility and Community-based Regulation, and funds obtained through a grant from a national foundation, the Department of Aging and Disability Services shall allocate funds for a Centers for Excellence program. The department shall partner with an institution of higher education to promote positive outcomes for the residents of Long-Term Care facilities, identify best practices and improve service delivery. Not later than January 15, 2009, the department shall submit to the Legislature and the Governor a report which identifies progress made towards achieving these goals.
17. **Limitation on MR State School Strategy Transfers.** The transfer of appropriations from Strategy A.8.1, MR State Schools Services, to any other strategy is limited to 5 percent without the prior approval of the Legislative Budget Board and the Governor.
18. **State School Medicaid Revenues.**
 - a. **Proportionality of Funds.** Pursuant to Article IX, Sec 6.11, Salaries to Be Proportionate By Funds, payment for salaries, wages, and benefits for ICF/MR state school employees shall be proportional to the source of funds. The department shall develop a plan for the 2008-09 biennium which identifies the appropriate portion of state and federal funds for salaries, wages, and benefits for ICF/MR state school employees. This plan is subject to review by the Comptroller of Public Accounts and the Legislative Budget Board and shall be certified by the CFO of the department by October 1, 2007 prior to submission to the Legislative Budget Board.

The Department of Aging and Disability Services shall report quarterly to the Legislative Budget Board and the Governor on the distribution of ICF/MR state school revenues to other state agencies. This report shall be submitted no later than 25 days after the close of each quarter. The format and content of the report shall be prescribed by the Legislative Budget Board.
 - b. **Quality Assurance Fee Funds - Informational Item.** Appropriations from the Quality Assurance Fee Funds in this Act total \$60,276,196 in fiscal year 2008 (including a UB from fiscal year 2007 estimated to be \$8,136,705) and \$58,672,618 in fiscal year 2009. Out of funds appropriated above in Strategy A.1.7, ICF/MR and A.8.1, State Schools Services, \$54,921,479 in fiscal year 2008 and \$53,284,905 in fiscal year 2009 in Quality Assurance Fee Funds are provided for mental retardation services. Estimated amounts of \$5,354,717 in fiscal year 2008 and \$5,387,713 in fiscal year 2009 are appropriated elsewhere in this Act for employee benefits for State School employees. Pursuant to Article IX, Sec. 6.11, Benefits Paid Proportional by Funds, benefits for State School Employees reflect the proportion by fund type as used for salaries.
19. **Home and Community-Based Services (HCS) Waiver Program.** The department shall ensure the cost-effectiveness of the HCS program by limiting the average annual HCS expenditure per client to 80 percent of the average annual per client ICF-MR expenditure. Expenditures for individual clients may exceed this cap as long as the overall average expenditure for HCS clients remains below 80 percent of the ICF-MR annual average. Furthermore, it is the intent of the Legislature that, in order to increase the number of clients served, the overall average monthly expenditure per client may not exceed \$3,308 per month in fiscal year 2008 and \$3,299 per month in fiscal year 2009. The Department of Aging and Disability Services and the Health and Human Services Commission shall report to the

DEPARTMENT OF AGING AND DISABILITY SERVICES
(Continued)

Legislative Budget Board and Governor by October 1 of each year of the biennium, on the measures taken to decrease the average cost per person and to increase the number of clients served in the HCS program.

20. **MR Residential Services Funded by General Revenue.** The Department of Aging and Disability Services shall refinance, with Medicaid funding, mental retardation residential services to Medicaid-eligible clients that are currently funded with general revenue. This refinancing effort shall include both public and private general revenue-funded programs. The department shall accomplish this refinancing through the use of Medicaid waiver programs, or, if necessary, the Intermediate Care Facility for the Mentally Retarded program. The department shall submit a report by October 1 of each year of the biennium to the Legislative Budget Board and the Governor that documents the number of persons and residential sites converted to Medicaid funding. The format of this report shall be prescribed by the Legislative Budget Board.
21. **State School Funding.** It is the intent of the Legislature that the department implement a single funding methodology for state schools which funds all state schools equitably and at a level which is adequate to maintain compliance with applicable federal standards. The methodology should be based on the number of residents in each school and the needs of those residents.
22. **Use of Timber Receipts for Capital Projects.** The Department of Aging and Disability Service is hereby authorized to sell timber located on department land. Revenues generated from the sale of timber, estimated at zero for the biennium, shall be deposited into the Texas Capital Trust Fund Account No. 543.
23. **State School Funding and Staffing Levels.** It is the intent of the Legislature that funding for state schools shall be based on the number of residents in each state school at the beginning of the fiscal year and the needs of those residents. Staffing patterns at state schools shall not reflect a census decline until a campus has realized a decline in census.
24. **Disposition of Construction Appropriation Related to Mental Retardation.** Construction appropriations may be used to pay salaries and travel expenses of department engineers and architects and administrative expenses of construction projects (but shall not exceed \$300,000 in a fiscal year that are paid out of G.O. Bonds); architect's and engineer's fees; and the actual travel expenses incurred by them or their representatives in making trips of inspection at the discretion of the department during construction, renovation, or repair of buildings and systems or the installation of fixed equipment. Job titles and rates of pay for such salaried positions of department personnel paid from construction appropriations shall conform with the Position Classification Plan and Classification Salary Schedule.
25. **Unexpended Construction Balances.** Any unexpended construction, repair, or renovation balances from previous appropriations, estimated to be \$7,412,004 from fiscal year 2007 to fiscal year 2008 and included in the method of finance above as General Obligation Bond proceeds and in Strategy A.9.1, Capital Repairs and Renovations, are hereby appropriated to the Department of Aging and Disability Services for the same purposes. At least 45 days prior to budgeting such appropriated funds, the Department of Aging and Disability Services shall report on the appropriated fund sources, amounts and year of appropriation and on the proposed use of these funds to the Legislative Budget Board and the Governor.
26. **Unexpended Balances: ICF/MR Standards.** Except as otherwise provided, unexpended and unobligated balances, not to exceed \$5 million in General Revenue, remaining from appropriations for the first year of the biennium to the Department of Aging and Disability Services are appropriated to the department for the purpose of complying with Intermediate Care Facilities for the Mentally Retarded (ICF-MR) standards dealing with residential, non-residential, and community based mental retardation services. This paragraph does not apply to those unexpended and unobligated balances remaining from appropriations for the first year of the biennium that the department is authorized by this Act to retain for specific purposes in the second year of the biennium. The department shall notify the Legislative Budget Board and the Governor as to when the appropriation originated, why it is not needed, and how it will be used prior to budgeting and expending these balances.
27. **MR Residential Placement Options.** Pursuant to § 533.038 of the Health and Safety Code, an individual with mental retardation or an individual's legally authorized representative seeking residential services shall receive a clear explanation of programs and services for which the individual is determined to be eligible, including state schools, community ICFs-

MR, 1915(c) waiver services or other services, in order to ensure consumer choice. The programs and services that are explained shall be documented in the individual's record and acknowledged in writing by the individual or the individual's legally authorized representative. If the chosen programs or services are not available, the individual or the individual's legally authorized representative shall be given assistance in gaining access to alternative services and the selected waiting lists.

The department shall keep a central list of the number of openings available for each type of residential service. The department shall honor the program and services preferences of the person or the person's legally authorized representative to the maximum extent openings are available in a residential program or service for which the individual meets program criteria.

- 28. Appropriation and Unexpended Balances of Funds Recouped from Local Authorities.** Notwithstanding other provisions of this Act, any state funds appropriated for fiscal year 2008 recouped by the Department of Aging and Disability Services from a local mental retardation authority for failing to fulfill its performance contract with the State, are hereby appropriated to the department to reallocate to other local mental retardation authorities to use for a related purpose in fiscal year 2009. In conjunction with the reallocation of funds, the department shall provide a report to the Legislative Budget Board and the Governor on the amount of funds, the reasons for the recoupment, the local authorities involved, any performance contract requirements that were not met, and the purposes of the reallocation.
- 29. Expenditures on Bond Homes.** Expenditures made for the provision of client services in bond homes operated by the Department of Aging and Disability Services shall not exceed the approved reimbursement rates.
- 30. Appropriation and Unexpended Balances: Affordable Housing for the Elderly.** General Revenue Funds appropriated above include fees collected pursuant to § 394.902, Local Government Code, and § 101.022, Human Resources Code, as amended, for the purpose of promoting affordable housing for the elderly (\$500,000 for the biennium).
- Any unexpended balances in fees collected to promote affordable housing for the elderly for the fiscal year ending August 31, 2008, may be carried forward into fiscal year 2009, and such balances are hereby appropriated.
- In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
- 31. Reimbursement of Advisory Council Members.** Pursuant to Human Resources Code § 161.027, reimbursement of travel expenses for Aging and Disability Services Council members, out of funds appropriated above, is hereby authorized such that the sum total of all reimbursements for members of the council shall not exceed \$10,825 per fiscal year, at the rates specified in the general provisions of this Act.
- 32. Notwithstanding the General Provisions of this Act, the Health and Human Services Commission is hereby authorized to receive and disburse in accordance with plans acceptable to the responsible federal agency, all federal moneys that are made available (including grants, allotments, and reimbursements) to the state and retain their character as Federal Funds for such purposes, and to receive, administer, and disburse Federal Funds for federal regional programs in accordance with plans agreed upon by the Health and Human Services Commission and the responsible federal agency, and such other activities as come under the authority of the Commissioner of Health and Human Services, and such moneys are hereby appropriated to the specific purpose or purposes for which they are granted or otherwise made available. Any amounts of such transferred funds not required for these payments shall be deposited by the Health and Human Services Commission to the General Revenue Fund as unappropriated revenue. By October 1 of each fiscal year, the Health and Human Services Commission shall present a schedule of projected transfers and payments to the Comptroller of Public Accounts, the Governor, and the Legislative Budget Board. The Comptroller of Public Accounts shall process all payments and transfers, unless disapproved or modified by the Legislative Budget Board or the Governor.

- 13. Transfers: Authority and Limitations.**

21. **Child Support Supplemental Payments.** Out of the funds appropriated above in Strategy D.1.1, TANF Grants, and child support collections from the Child Support Trust Fund (No. 994), the commission shall make supplemental payments to families receiving welfare who would be eligible to receive child support "pass through" and "first excess" payments under the Social Security Act Title IV-D child support distribution requirements prior to passage of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996. These payments shall equal the amount of the "pass through" and "first excess" payment the family would have received under prior law. Child support collections shall comprise a portion of each total payment. The portion of the total payment funded with child support collections shall equal the state share of the Federal Medical Assistance Percentage (FMAP) for the fiscal year. The commission shall report any change to child support supplemental payments that occur on or before September 30, 2008 to the Governor and Legislative Budget Board. However, general revenue appropriated for TANF maintenance of effort may be transferred to Strategy A.1.2, Integrated Eligibility and Enrollment, subject to the following limitations:
- a. Declines or shifts in TANF caseloads prevent the Health and Human Services Commission from expending all general revenue appropriated for TANF maintenance of effort in Strategy D.1.1, TANF Grants, within the appropriate fiscal year;
 - b. The amount of general revenue transferred from Strategy D.1.1, TANF Grants, shall be expended within Strategy A.1.2, Integrated Eligibility and Enrollment, for TANF program operating costs, within the appropriate fiscal year; and
 - c. At least 45 days prior to transferring general revenue funds between Strategy D.1.1, TANF Grants, and Strategy A.1.2, Integrated Eligibility and Enrollment, the Health and Human Services Commission shall notify the Legislative Budget Board and the Governor.

From any funds appropriated to the Health and Human Services Commission for the purpose of implementing the project, an amount not to exceed \$8,871,929 (amounts needed for Master Lease Purchase Program) for the biennium in all funds may be transferred to the Texas Public Finance Authority for lease payments to the Texas Public Finance Authority to pay debt service on the obligations issued by the Texas Public Finance Authority on behalf of the commission for the above-mentioned project.

36. **Appropriation of Unexpended Balances - Revenue Bonds.** Any unexpended balances of Bond Proceeds - Revenue Bonds for the TIERS project from previous appropriations, estimated to be \$0, from fiscal year 2007 to fiscal year 2008 are hereby appropriated to the Health and Human Services Commission for the same purposes, contingent upon the commission providing to the Legislative Budget Board and the Governor a detailed description of the project and cost at least 45 days prior to the expenditure of such funds.
37. **CHIP Enrollment.** In the event that appropriations are insufficient to sustain enrollment at authorized eligibility and benefit levels in CHIP, it is the intent of the legislature that the Executive Commissioner transfer necessary funds to Goal C, CHIP Services, pursuant to the notification and approval requirements contained in other provisions, and request additional appropriation authority from the Legislative Budget Board prior to establishing a waiting list and suspending enrollment pursuant to Health and Safety Code § 62.101.
38. **Medicaid Reimbursement for Immunizations.** The Health and Human Services Commission, in conjunction with the Department of State Health Services, shall develop and implement a reimbursement fee schedule for its immunization program that compensates providers based on the number of antigens delivered to the patient. In no event shall the reimbursement for administering immunizations be less than the current program if it were based on an antigen delivered fee schedule. The Commission shall ensure that the change to an antigen-based fee schedule will not require higher overall reimbursement.
39. **Unexpended Balance Authority for Eligibility Determination Services.** Any unexpended balances remaining from appropriations made in Strategy A.1.2, Integrated Eligibility and Enrollment, for fiscal year 2008 may be carried over to fiscal year 2009.

This coverage is limited to only those categories of excluded Medicare Part D drugs that continue to be eligible for federal Medicaid matching funds and that are currently covered under the Medicaid Vendor Drug Program (e.g., prescribed over-the-counter medications, barbiturates, and benzodiazepines).
41. **Dual Diagnosis Pilot.** From funds appropriated by this Act, the Health and Human Services Commission is authorized to utilize up to \$75,000 per year to provide a grant to a non-profit organization to maintain a pilot project directed at enhancing the well being and care of citizens who are dually diagnosed with mental retardation and mental illness.

The Health and Human Services Commission shall implement Medicaid upper payment limit reimbursement to cover the actual costs incurred in providing Medicaid inpatient and outpatient services and Graduate Medical Education at children's hospitals. In the event that appropriations are insufficient to cover these Medicaid costs in all children's hospitals, the Health and Human Services Commission shall prioritize this Medicaid upper payment limit reimbursement to reduce the Medicaid losses in any children's hospital with a Medicaid patient load that exceeds 60 percent of the hospital's total inpatient days.
43. **Health Insurance Premium Payment (HIPP) Program.**

44. Medicaid Reform Waiver. Contingent on findings that a Medicaid reform waiver is cost effective and feasible, the Health and Human Services Commission shall seek a Medicaid reform waiver or waivers from the Centers for Medicare and Medicaid Services that protect the interests of Texas Medicaid recipients and taxpayers by incorporating the following principles:

- a. efficiently leverage state, local, federal and other funding to:
 - (1) increase state flexibility in its use of Medicaid funding by authorizing tailored benefit plans designed to manage health conditions, not reduce plan benefits for any Medicaid recipient population;
 - (2) allow the state to be a more prudent purchaser and payer of health care ensuring positive health outcomes while pursuing value-conscious pricing;
 - (3) build on private market approaches and insurance-based premiums by establishing multi-share programs and/or low income pools that create more private coverage;
 - (4) reduce the state's uninsured through market-based solutions coupled with best state practices to maximize federal funds; and
 - (5) promote the transition of consumers from public insurance to private insurance by guaranteeing that any pooling of disproportionate share hospital (DSH) and upper payment limit (UPL) funds will include inflation and population growth factors.

HEALTH AND HUMAN SERVICES COMMISSION

(Continued)

- b. support the increased personal planning and investments in long term care needs;
- c. support consumer empowerment and choice by authorizing Health Savings Accounts, Premium Assistance, Health Insurance Premium Payment (HIPP) programs, or "Opt-out" programs that:
 - (1) include a provision requiring that the Health and Human Services Commission first determine that it is cost effective;
 - (2) either exempt recipients under age 21 or explicitly require that the program be designed to protect and promote children's access to preventive care and medical treatments; and
 - (3) guarantee that recipient participation is voluntary, and guarantee that a prompt return to regular Medicaid coverage is allowed on request by the recipient.
- d. create incentives for healthier behaviors by establishing programs that provide positive rewards for healthy behaviors, and not punitive incentives;
- e. align state policy and financial incentives by creating a more transparent, systematic, and efficient approach for allocating available funding within the health care system; and
- f. solicit broad-based stakeholder input.

Further it is the intent of the Legislature that Medicaid reform waiver(s) sought from the federal government will not include a waiver of children's comprehensive health care under Early and Periodic Screening, Diagnosis and Treatment (EPSDT). The authority of the Health and Human Services Commission to impose any cost-sharing policies on Medicaid recipients is limited to non-emergent ER use co-payments. The Legislature also recognizes the unique needs of the state's rural providers, trauma centers, and primary care residency programs.

- 45. **Alberto N. - 46. **Hospital Uncompensated Care.** No funds appropriated under this Article for medical assistance payments may be paid to a hospital if the Health and Human Services Commission determines that the hospital has not complied with the Commission's reporting requirements. The Commission shall ensure that the reporting of uncompensated care (defined to include bad debt, charity care and unreimbursed care) by Texas hospitals is consistent for all hospitals and subjected to a standard set of adjustments that account for payments to hospitals that are intended to reimburse uncompensated care. These adjustments are to be made in such a way that a reliable determination of the actual cost of uncompensated care in Texas is produced. In pursuing this objective, the Commission, in coordination with the Attorney General, and with advice from representatives from the hospital industry, will:
 - a. review the current instruments for reporting uncompensated care by Texas hospitals to ensure that accounting for uncompensated care as well as its reporting is consistent across hospitals;
 - b. coordinate the different instruments for reporting uncompensated care in Texas, e.g., Statement of Community Benefits, Annual Hospital Survey, and DSH Survey, so that there is consistency in reporting among these instruments while maintaining the integrity of each instruments' purpose;
 - c. identify the sources of funding to hospitals that are intended to offset uncompensated care;

HEALTH AND HUMAN SERVICES COMMISSION

(Continued)

- d. develop a standard set of adjustments that apply the funding sources to reported uncompensated care in such a manner that a reliable determination of the actual cost to a hospital for uncompensated care can be made; and
- e. identify a standard ratio of cost to charges (RCC) to standardize the conversion of reported charges to costs.

The Commission shall conduct an appropriate number of audits to assure the accurate reporting of the cost of uncompensated hospital care.

47. **Hospital Reimbursement.** Contingent upon the appropriation of funding for increasing hospital rates and on federal approval, and to the extent allowed by law, no funds appropriated under this Article for the payment of inpatient hospital fees and charges under the medical assistance program may be expended on or after September 1, 2008, except under a prospective payment methodology for all Medicaid inpatient claims developed by September 1, 2008 or as soon thereafter as practical that employs sound cost reimbursement principles and:
- a. enhances the Health and Human Services Commission's ability to be a prudent purchaser of health care;
 - b. reflects costs that are allowable, reasonable and medically necessary to deliver health care services to the state's Medicaid population;
 - c. reduces the variability in the Medicaid reimbursement rates paid to hospitals for treating patients with the same diagnoses;
 - d. promotes and rewards increased efficiency in the operation of hospitals;
 - e. emphasizes and rewards quality of outcomes and improves the treatment of Medicaid patients through pay-for-performance principles;
 - f. recognizes, through add-on payments or other methods, the unique needs of rural hospitals; and
 - g. reformulates the Disproportionate Share Hospital (DSH) supplemental payment methodology to increase its focus on paying hospitals for uncompensated care and reduces the existence of the inpatient Medicaid shortfall that prevents the State from achieving this objective.
48. **Healthy Marriage Development Program.** Out of funds appropriated above in Strategy A.1.2, Integrated Eligibility and Enrollment, the Health and Human Services Commission shall devote \$9,725,136 in fiscal year 2008 and \$9,725,136 in fiscal year 2009 of TANF Federal Funds to a Healthy Marriage Development Program and similar activities that strengthen families.
49. **Children's Health Insurance Program Priority.** In the event that the Health and Human Services Commission receives less CHIP Federal Funds than are anticipated above in Goal C, CHIP Services, the Commission is authorized to prioritize services to recipients of the traditional CHIP program. Serving those eligible for the CHIP Perinatal program may be a secondary priority.
50. **Payments to Health Centers for Medicaid Family Planning.** It is the intent of the Legislature that the Health and Human Services Commission shall, to the extent allowed by federal law, reimburse Federally Qualified Health Centers for family planning services under Medicaid, including the Women's Health Program, using a prospective payment system at a per visit rate, not to exceed three payments during a calendar year.
51. **Freestanding Psychiatric Facilities.** To determine Medicaid payment for inpatient services in freestanding psychiatric facilities, it is the intent of the Legislature that the Health and Human Services Commission adopt a reimbursement methodology based on the prospective payment system currently used by the Centers for Medicare and Medicaid Services to reimburse inpatient psychiatric services, to the extent the Commission finds that the increase in reimbursement is cost-effective.

HEALTH AND HUMAN SERVICES COMMISSION

(Continued)

52. **Deficit Reduction Act Pharmacy Savings.** Out of funds appropriated above, the Health and Human Services Commission shall provide to participating pharmacies a share of any savings that are achieved through the provisions of the federal Deficit Reduction Act that relate to drug costs, to the extent allowed by state and federal law. Until such waiver is approved, the Commission shall continue to provide a share of any savings on the drugs to pharmacists.

Hospitals reimbursed under TEFRA cost principles shall be paid without the imposition of the TEFRA cap. Hospitals that meet the criteria as of September 1, 2007, retain this reimbursement for FFS and PCCM inpatient services.
56. **Payments to Health Centers under Medicaid Managed Care.** The Health and Human Services Commission shall require contracted Medicaid managed care organizations to make prompt payments and cost settlements with Federally Qualified Health Centers within their network. The Commission shall incorporate performance standards with these requirements in the contracts with the Medicaid managed care organizations.
57. **Staffing and Capital Authorization in Lieu of Contracted Responsibilities.**
- a. Notwithstanding any other provision in this Act, if the executive commissioner of the Health and Human Services Commission determines that a service performed as of the effective date of this Act under a contract would be more effectively performed by state personnel, the executive commissioner is authorized to adjust the agency's FTE limitation to the extent necessary to ensure the successful assumption of such contracted duties. reduce time required for those determinations and to reduce error rates. The Health and Human Services Commission shall determine the feasibility of utilizing proven technology for that purpose, and shall implement any such procedures found to be beneficial no later than January 1, 2008.

For re-certification of eligibility-based programs, no later than January 1, 2008 the Commission shall implement procedures to determine the need for a personal interview, based on a system of objective, risk-based factors and conditions. Such procedures shall apply to all re-certifications on a regular and continuous basis, and shall comply with and apply all current federal mandates and guidelines concerning Payment Error Rate Measure (PERM). Such procedures shall measure and control PERM within Medicaid and CHIP to within a 4% error rate, or within any other lower established federal guideline, and shall be designed to permit continuous enrollment for qualified recipients.

The Health and Human Services Commission shall also compile information on this subject from each public hospital district within the state and include this information in the report and shall not enforce Title 8 of the United States Code when compiling information on this subject.

The report must be produced using aggregated statistical data that does not contain personally identifiable information. The purpose of compiling this information is to perform analysis to assist the United States Congress and this state in making future health care and budgetary decisions. Information sought for the preparation of this report may not violate any federal or state laws, including rules, regarding privacy.

This report shall be provided to the United States Congress by December 1, 2008 and may be used as supporting materials by the State of Texas in requests for additional federal appropriations to assist with these costs.

The Health and Human Services Commission or a public hospital district may compile and report the information required by this rider only in a manner the attorney general of this state certifies as consistent with federal law.

If the commission determines that the child is eligible, the commission shall enroll the child in the Medicaid program without further application or qualification, unless the child's parent objects to enrollment. The commission shall notify a parent of the child's eligibility for the Medicaid program and automatic enrollment in that program as soon as practicable after eligibility has been determined.
- d. Further,
 - (1) To the extent allowed by federal law, the executive commissioner of the Health and Human Services Commission shall create a program under which a child who is ineligible for the health benefits coverage under the child health plan solely because the child's net family income exceeds the income eligibility requirements otherwise applicable for that coverage may be enrolled in the plan if:

 - (1) In accordance with federal regulations, the commissioner shall work to provide that children are screened simultaneously for eligibility for the Medicaid program and the state child health plan using a consolidated application; and
 - (2) once the eligibility procedures are complete, all children identified as eligible for the Medicaid program should be automatically enrolled without further application or qualification.

The written agreement shall include provisions for monitoring that require community mental health and mental retardation centers to account for state funds separately from other sources of funds.

Sec. 50. Provision of Services for Individuals with Traumatic Brain Injury and Spinal Cord Injury through Medicaid.

- a. Out of funds appropriated above in Strategy B.3.4 Comprehensive Rehabilitation, the Department of Assistive and Rehabilitative Services, in conjunction with the Health and Human Services Commission, the Department of Aging and Disability Services, and the Texas Traumatic Brain Injury Advisory Council, shall determine whether services provided under the Comprehensive Rehabilitation Services Program could be provided in a more cost-effective manner through the Medicaid program, and evaluate cost-effectiveness of such inclusion by using one of the following methods:

 - (3) through a Medicaid State Plan Amendment.

The agencies shall include the following components in the evaluation:

 - (2) **Targeted Services.** The agencies shall determine which services provided by the Comprehensive Rehabilitation Program can be provided through Medicaid to maximize Federal Funds.
- b. If it is determined to be cost-effective to provide services for Medicaid eligible individuals with traumatic brain and spinal cord injuries through Medicaid, the Health and Human Services Commission shall maximize Medicaid financing for home and community-based services for individuals with traumatic brain injury and other groups as identified in the analysis per subsection (a) by requesting federal approval to amend or implement a new Medicaid 1915(c) Home and Community-Based Services Waiver and/or to amend the Medicaid State Plan.

- a. the total cost of the basic life and health coverage for all active and retired employees; and

2. The University of Texas System Group Health Insurance Contributions. Funds identified above for group insurance are intended to fund the same portion of the costs of basic health coverage for all active and retired employees and their dependents as is provided above for higher education active and retired employees and dependents participating in the Employees Retirement System's Group Benefit Program.

1. **Administration of Appropriated Funds.** Funds appropriated above shall be administered by the Texas Higher Education Coordinating Board.
2. **Appropriation Eligibility.** To be eligible for and to receive an appropriation a public community/junior college must be certified as required by Education Code, Chapter 61, § 61.063, and comply with the following provisions:
 - a. The Texas Higher Education Coordinating Board shall 1) determine whether each eligible public community/junior college has complied with all the provisions of this section; 2) determine each college's list of approved courses; and 3) certify its findings and such lists to the State Auditor not later than October 1 of each fiscal year. Each public community/junior college shall make such reports to the Texas Higher Education Coordinating Board as may be required, classified in accordance with the rules and regulations issued by the Board.
 - b. On or before the dates for reporting official enrollments each semester to the Texas Higher Education Coordinating Board, each college will collect in full from each student that is to be counted for state aid purposes the amounts set as tuition by the respective governing boards. Valid contracts with the United States government for instruction of eligible military personnel, and valid contracts with private business and public service-type organizations or institutions such as hospitals, may be considered as collections thereunder, but subject to adjustments after final payment thereof. Financial aid awards processed by the financial aid office but not yet issued to the student shall be considered as collections thereunder but subject to adjustments after final payment thereof.
 - c. Each community/junior college must use a registration and financial reporting system which is sufficient to satisfy the audit requirements of the State Auditor and furnish any reports and information as the auditor may require.
 - d. Each community/junior college must file by December 1 of each fiscal year directly with the Governor, Legislative Budget Board, the Legislative Reference Library, and the Texas Higher Education Coordinating Board, a copy of an annual operating budget, and subsequent amendments thereto, approved by the community/junior college governing board. The operating budget shall be in such form and manner as may be prescribed by the board and/or agency with the advice of the State Auditor providing, however, that each report include departmental operating budgets by function and salaries and emoluments for faculty and staff listed by position.
3. **Approved Special Item Expenditures.** The funds appropriated above for special items may be expended for salaries, wages, travel, capital outlay and other necessary operating expenses. It is specifically provided that funds appropriated above may not be used for the operation of intercollegiate athletics.
4. **Audit of Compliance.** The compliance of each public community/junior college with the requirements set forth in the paragraphs above shall be ascertained by the State Auditor who shall also audit the pertinent books and records of each college as necessary.
5. **Vouchers for Disbursement of Appropriated Funds.** Vouchers for disbursement of the sums appropriated hereinabove shall be prepared by the Texas Higher Education Coordinating Board on the basis of the provisions in the paragraphs above and the warrants issued in payment thereof shall be issued in compliance with Education Code, § 130.0031.

Funds appropriated above to Howard County College for the operation of the Southwest Collegiate Institute for the Deaf shall be distributed in accordance with the installment schedule for Category 1 junior colleges.

PUBLIC COMMUNITY/JUNIOR COLLEGES

(Continued)

The total amount of funds appropriated above in each year of the biennium to Midland College in Strategy AA.1.1, American Airpower Heritage Museum, should be distributed on September 1 of the year funds are appropriated.

In submitting vouchers for disbursement of the funds herein appropriated, the Texas Higher Education Coordinating Board, shall certify to the State Comptroller of Public Accounts that each school listed has qualified and is entitled to receive such funds under the provisions set forth in this Act under the heading "Public Community/Junior Colleges."

6. **Unobligated Balances.** At the close of each fiscal year each community/junior college shall report to the Coordinating Board the amount of state allocations which have not been obligated within each line item and shall return that amount to the State Treasury for deposit in the General Revenue Fund.
7. **Adjustment of Contact Hours.** The hours used in the contact hour base period are subject to audit for accuracy by the State Auditor according to an audit plan developed in consultation with the Texas Higher Education Coordinating Board, the Legislative Budget Board and community, technical, and state colleges, and the dollar amounts adjusted accordingly by the Texas Higher Education Coordinating Board at the direction of the Legislative Budget Board. The amounts appropriated separately to each of the two-year institutions' contact hour formulas shall be redistributed using the formula amounts appropriated to community colleges, Texas State Technical Colleges and two-year Lamar institutions based on certified contact hours as calculated separately for community colleges, Texas State Technical Colleges and the two-year Lamar institutions. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the total contact hour formula appropriations to that institution for the biennium. Adjustments shall be made to appropriated amounts in accordance with adjustments of estimated contact hours to actual contact hours, even if the total error rate is less than 2 percent of the total contact hour formula amount appropriated to that institution for the biennium. No college shall have its dollar allocation adjusted to a level below its 2006-07 formula base. Institutions where sampling errors are identified may request a comprehensive institutional audit at institutional expense.
8. **Separation of Funds.** The funds appropriated by the State shall be maintained separately by community/junior colleges from other sources of income.
9. **Supplanting of Federal Funds Prohibited.** State funds shall not be used to supplant federal funds for the Workforce Investment Act programs conducted by community/junior colleges.
10. **Residency of Texas Department of Criminal Justice Inmates.** All inmates of the Texas Department of Criminal Justice are, for educational funding purposes in this Act only, residents of the State of Texas.
11. **Regional Import/Export Training Center.** Appropriations of \$43,750 each year made above are contingent upon certification by the Comptroller of Public Accounts that increased economic activity associated with the Regional Import/Export Training Center and the Laredo Community College will generate at least \$87,500 for the biennium in additional revenue to the General Revenue Fund. It is the intent of the Legislature that state funds provided to the Regional Import/Export Training Center be used by the center to attract federal funds on a dollar-for-dollar basis.
12. **Informational Listing of Other Appropriations.** In addition to the funds appropriated above, general revenue is appropriated elsewhere in this Act for the use of the Public Community/Junior Colleges as follows:
 - a. Out of the general revenue funds appropriated to the Higher Education Employees Group Insurance Contributions, \$306,756,792 is intended for the use of public community colleges, subject to the provisions associated with that appropriation.
 - b. Out of the general revenue funds appropriated to the Teacher's Retirement System, an estimated \$109,937,460 is appropriated for the state matching contribution for public community college employees.
 - c. Out of the general revenue funds appropriated to the Optional Retirement Program, an estimated \$73,291,640 is appropriated for the state matching contribution for public community college employees.

Appropriations to all institutions of higher education and systems, except funds identified exclusively for salaries, may be used to reimburse any revolving fund operated for the benefit of one or more parts or component units of an institution or system, such as a motor pool for managing automotive vehicles authorized by this Act, a feed supply center, an office supply or laboratory supply center, a computer center, or any other operations of a similar nature established by authority of the governing board of said institution or system.

4. **Local Depositories.** The governing boards of the respective institutions for which appropriations are made in this Article are hereby authorized to select depository banks for the safekeeping of funds which are authorized, by statute, to be maintained outside the state treasury. The boards shall require depository banks to furnish adequate surety bonds or securities to be posted for the assurance of safety of such deposits. The depository bank or banks so selected are hereby authorized to pledge their securities for assurance of safety for such funds. All such local funds shall be deposited in these depositories within seven (7) days from date of collection. The governing boards may require the depository so designated and selected to pay interest on deposits at a rate to be agreed upon by said depositories and said boards.

5. Investment Reports.

- a. The governing board of each of the educational institutions named in this Article shall file with the State Auditor, Comptroller of Public Accounts, Legislative Budget Board, and the Governor an annual report of all investment transactions involving endowment funds, short-term and long-term investment funds, and all other securities transactions, in a method prescribed by the State Auditor's Office. Copies of such reports shall be available for public inspection. In addition to the annual report, each institution shall publish on its website quarterly investment reports in any format it deems appropriate.
- b. The governing boards of each educational institution named in this Article must adopt formal investment policies. Each governing board shall submit to the Legislative Budget Board and State Auditor's Office a copy of their investment policy by December 31 of each year.

6. Central Services Accounts.

- a. Out of funds appropriated in this Article, the governing boards of the university systems and their component units, and institutions of higher education may employ persons to serve two or more parts or component units of the system or institution and

may pay their salaries in whole or in part from the informational items of appropriation made herein to any component unit. The governing boards are authorized to establish accounts from which salaries and expenses for the administration and supervision of the units of the system or institution may be paid and to require the units, including any other agency the administration of which it may be charged with by law, to pay into this account from any general revenue, local, or institutional funds their proportionate share as determined by the board for the expense of such administration and supervision. The Comptroller of Public Accounts is authorized to set up an account for each of the systems or institutions and to deposit in the account funds to the amount authorized by the governing boards and executive heads of the respective units, from funds appropriated by the Legislature to the units for noninstructional salaries and general operating expenses. The Comptroller is authorized to draw warrants against such accounts based on vouchers submitted by the systems or institutions in payment of salaries, maintenance, equipment, or travel incidental to the administration and supervision of the respective units.

- b. The systems and institutions whose governing boards and component units are subject to the above are authorized to establish the following accounts:

Texas A&M University System Central Services Account
The University of Texas System Central Services Account
University of Houston System Central Services Account
Texas Tech University System Central Services Account
University of North Texas System Central Services Account
Texas State University System Central Services Account

- c. Travel expense incurred by a person employed by one unit of an above system or institution in connection with service to the other units may be reimbursed by the unit for which such services are performed or proportionately if more than one such unit is involved.

7. **Utility Revolving Funds.** The governing boards of Texas Woman's University, West Texas A&M University, all components of the University of Houston System, Texas State University System, Texas Tech University System, University of North Texas System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any building or facility of the college or university, in accordance with the general principles established in Education Code, § 55.11, and the creation and maintenance of any such revolving fund is hereby authorized.

8. **Appropriation Expenditure Authorization.**

- a. The educational and general appropriations made in this Act to the general academic teaching institutions, health related institutions, and Texas State Technical College may be expended for the following purposes, including, but not limited to: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support; Operation and Maintenance of Plant; Scholarships; Staff Benefits; Organized Activities; and Patient Care. Major repairs and rehabilitation of buildings and facilities may be purchased from appropriated funds, but may not be purchased from general revenue funds that are not expressly identified or allocated for such purposes.
- b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises, unless specifically authorized in this Act.

9. **Tuition Revenue Bonds and Revenue Bonds.** Funds clearly identified in separate informational strategies to the general academic teaching institutions and health sciences centers for revenue or tuition revenue bond retirement may be expended only to reimburse institutions or centers for debt retirement authorized by Education Code § 55.17 through § 55.17592 and § 55.19 and any additional authorization enacted by the Eightieth

Legislature. Any funds in excess of the amount expended for debt retirement shall be reverted to the General Revenue Fund at the end of each fiscal year.

Sec. 7. Recruitment of Students. No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.

Sec. 8. Television Stations Prohibited. None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction, or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.

Sec. 9. Intercollegiate Athletics. The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall use the appropriations in this Act to make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution; and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.

Sec. 10. Prohibition Against Additional Museums. None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher education, it is specifically provided that an institution which receives such gifts, grants, or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use educational and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance or operations of institutional facilities.

Sec. 11. Method of Financing Scholarships.

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of Education Code § 56.031 to § 56.039, cited as the Texas Public Educational Grants Program.
2. Copies of such approved allocations together with copies of rules and regulations adopted by the respective governing boards concerning the award of such scholarships shall be filed with the Coordinating Board and with the Comptroller prior to the disbursement of any moneys for scholarships. Copies of any subsequent changes in such allocations or rules shall be similarly filed with the Coordinating Board and with the Comptroller.
3. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.
4. Out of the additional funds appropriated for the 2008-09 biennium for the informational strategy described as "Scholarships," the respective governing boards shall allocate and expend such funds for need-based student scholarships regardless of the race, sex, color, or ethnicity of the student recipient.

Sec. 12. Use of Educational and General Funds for Alumni Activities Prohibited. None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

Sec. 13. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10 percent of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 35 percent of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10 percent of their classes with non-resident students in the case of medical and dental schools, and 35 percent in the case of The University of Texas Law School, Texas Tech University Law School, and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.
2. In addition, The University of Texas Southwestern Medical Center at Dallas may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.
3. Texas medical schools may enroll up to 6 competitively recruited medical students, who already possess the DDS degree, in each second year medical school class for a specialized six year program in oral and maxillofacial surgery comprised of the last three years of medical school and a three year residency program irrespective of whether those students are Texas residents.

Sec. 14. Off-campus Instruction. General academic institutions may use the funds appropriated in this Act to teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Governor and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.
2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M University's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston, are not considered to be off-campus.
3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

Sec. 15. Medical School Enrollment. None of the funds appropriated above to The University of Texas system medical colleges, the University of North Texas Health Science Center at Fort Worth, or the Texas Tech University Health Sciences Center College of Medicine may be used for the education of first year medical students unless the first year class enrollment of undergraduate medical students in the fiscal years ending August 31, 2008, and August 31, 2009, is no less than 200 students at The University of Texas System medical colleges and 100 students at the University of North Texas Health

Science Center at Fort Worth and the Texas Tech University Health Sciences Center College of Medicine. This provision shall not be construed as requiring any school of medicine to accept an unqualified applicant. In the event that a school of medicine falls below the required first year class enrollment of undergraduate medical students by more than 5 percent for fiscal years 2008 and 2009,

the school shall report to the Legislative Budget Board the reasons for failing to meet the required enrollment. This information should be taken into account when preparing the appropriation recommendations for the Eighty-first Legislature.

Sec. 16. Tuition and Other Educational and General Local Fee Collection. No institution of higher education shall receive appropriations through formula funding in this Act unless it collects from each student whose semester credit hours are to be included in formula funding calculations all tuition and all fees in accordance with the installment tuition and fee payment plan provided for by the Education Code, (Chapter 54, as amended) on or before the end of the 20th class day for each regular semester and the 15th class day for each summer session. Valid contracts with the United States Government for instruction of eligible military personnel and valid contracts with private business and public service-type organizations or institutions such as hospitals may be considered as collections thereunder but subject to adjustments after final payment thereof. Financial aid awards processed by the financial aid office but not yet issued to the student may be considered as collections thereunder but subject to adjustments after final payment thereof.

Sec. 17. Compliance with Uniform Recruitment and Retention Strategy. Institutions of higher education shall use the appropriations in this Act to give top priority and consideration to compliance with the spirit and mandates of the Uniform Recruitment and Retention Strategy.

Sec. 18. Formula Variable and Educational and General Income Audits. The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board shall clearly define all variables used by the Eightieth Legislature in arriving at formula appropriations for 2008 and 2009. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Board, all variables of selected formulas used in making 2008 and 2009 formula appropriations are subject to audit by the State Auditor. The State Auditor shall report any differences from data submitted by the institutions to the Coordinating Board, the Legislative Budget Board, and the Governor. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Auditor. These calculations shall then be reported to the Legislative Budget Board, Governor, and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the biennial appropriations related to the variables audited at that institution.

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 2008 and 2009 are subject to audit by the State Auditor.

The State Auditor may request the assistance of an institution's internal auditor in performing the audits described in this section.

Sec. 19. System Offices Funding Authorized. Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas Tech University, University of North Texas, Texas State University System, and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.

Sec. 20. Annual Reports of Health Related Institutions Practice Plans. As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of 120 days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library, and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.

Sec. 21. Self-insurance Funds. Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by Government Code § 2259.001 for a risk otherwise insurable by the institution of higher education shall be treated by the Comptroller of Public Accounts as an

expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in § 51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

Sec. 22. Unsponsored Charity Care Reporting Requirement. The public health-related institutions listed in Sec. 22, 1. Financially Indigent, shall use the appropriations in this Act to include in their biennial legislative appropriations request information including the actual amount of uncompensated charity care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the definition of unsponsored charity care set forth in the following sub-sections.

1. **Financially Indigent.** Unsponsored charity care shall include unreimbursed services to the financially indigent. Financially indigent shall mean uninsured or underinsured patients accepted for care with no obligation or a discounted obligation to pay for services rendered based on a teaching hospital's or clinic's formal eligibility system which may include: (a) income levels and means testing or other criteria for determining a patient's inability to pay; or (b) other criteria for determining a patient's inability to pay that are consistent with the hospital's or clinic's mission and established policy. The federal poverty level shall serve as an index for the threshold below which patients receiving care at The University of Texas Southwestern Medical Center at Dallas, The University of Texas Medical Branch at Galveston, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, The University of Texas M.D. Anderson Cancer Center, The University of Texas Health Center at Tyler, Texas A&M University System Health Science Center, The Texas Tech Health Sciences Center, and The University of North Texas Health Science Center are deemed financially indigent. Financially indigent services include both noncovered services and contractual allowances for patients eligible for the Medicaid program and for the Children with Special Health Care Needs program, services provided under county indigent care contracts (Sec. 23), and services provided under other state or local government programs with eligibility indexed to the federal poverty level.
2. **Medically Indigent.** Unsponsored charity care shall include unreimbursed services to the medically indigent. Medically indigent shall mean patients who are responsible for their living expenses, but whose medical and hospital bills, after payment by third-party payers, where applicable, exceed: (a) a specified percentage of the patient's annual gross income (i.e., catastrophic medical expenses) in accordance with a teaching hospital or clinic's formal eligibility system in such instances where payment would require liquidation of assets critical to living or earning a living; or (b) the criteria for determining a patient's inability to pay as established by the public health-related institutions listed in Sec. 22, 1. Financially Indigent.
3. **Charity Care Determination.** The determination that a patient is financially or medically indigent shall occur within 120 days of the patient's discharge from the hospital or clinic setting or within 120 days of the third party payor settlement.
4. **Contractual Adjustments.** The contractual adjustments to commercial contracts, managed care contracts, and Medicare for the public health-related institutions listed in Sec. 22, 1. Financially Indigent, shall not be counted as unsponsored charity care.
5. **Bad Debt.** Bad debts shall not be counted as unsponsored charity costs. Bad debts shall include the uncollected billed charges for services rendered to patients who do not qualify under the definition of unsponsored charity care.
6. **Patient Income Eligibility Guidelines.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall use the federal poverty level indexed at an agreed-upon level as the guideline for determining indigent patient status, and those institutions' eligibility guidelines regarding copayment by patients deemed financially or medically indigent shall be the same.

The University of Texas Southwestern Medical Center at Dallas, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San

Antonio, Texas A&M University System Health Science Center, the Texas Tech Health Sciences Center, and The University of North Texas Health Science Center may use as a basis for reporting indigent care statistical samples derived from indigent care determinations made by their affiliated teaching hospitals and designed to estimate the amounts of charity care provided using the definitions established by The University of Texas hospitals noted above.

7. **Physician Practice Plan UPL.** Any amounts received by the Physician Practice Plan from UPL shall be counted as payments received for unsponsored charity care.

Sec. 23. County Indigent Care Contracts.

1. **Contracts Required.** None of the funds appropriated in this Act to institutions of higher education may be used to provide indigent health care unless the institutions of higher education contracts with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.
2. **County Indigent Care Contracts Reporting.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall use the funds appropriated in this Act to submit to the Legislative Budget Board and the Governor at the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually to the Legislative Budget Board and Governor on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

Sec. 24. Ethics Policy.

1. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board an ethics policy which has been adopted by the board of regents. The ethics policy shall apply to the board of regents and its staff, the administration, staff, and faculty of the institutions under the board's governance.
2. The ethics policy adopted by each board of regents shall include specific provisions regarding sexual harassment.

Sec. 25. Driscoll Children's Hospital. No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases, or in assuming the direct care of those children. This rider language shall not restrict the traditional referral patterns utilized by physicians to refer patients to health-related institutions.

Sec. 26. Participation in Drug Development Research Projects. A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. This rider is not intended to limit or prohibit provisions for treatment established under § 576.022, Health and Safety Code.

Sec. 27. Post Tenure Review. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board policies and procedures regarding post tenure review which have been adopted by the board of regents. Post tenure policies shall include review procedures to determine that a tenured faculty member is performing consistently at an acceptable, professional level and a mechanism whereby a faculty member is informed of any deficiencies and provided opportunities to effectively improve his or her performance.

Sec. 28. General Academic Funding. Appropriations made in this Act for formula funding for general academic institutions will consist of four formulas and supplemental items.

SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION
(Continued)

1. **Instruction and Operations Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2008-09 biennium is \$59.01.

Weighting is determined by the following matrix:

	Lower Div.	Upper Div.	Masters	Doctoral	Special Professional

2. **Teaching Experience Supplement.** For the 2008-09 biennium, an additional weight of 10 percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.
3. **Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy. The average rate per square foot is \$6.28.
4. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, organized activities, scholarships, tuition revenue bond payments, Skiles Act bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2008.

5. The General Academic Instruction and Operations and Infrastructure formulas shall incorporate the Texas Higher Education Coordinating Board's October, 2006 recommendations for mission-specific formula funding for Texas A&M University at Galveston.

**SPECIAL PROVISIONS RELATING ONLY TO
STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

Sec. 29. Health Related Institutions Funding. Appropriations made in this Act for formula funding for health related institutions shall consist of three formulas plus supplemental non-formula items.

1. **Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of \$10,627:

<u>Program</u>	<u>Weight Per Student</u>
Allied Health	1.000
Biomedical Science	1.292
Nursing	1.138
Nursing-Graduate	1.252
Pharmacy	1.670
Public Health	1.721
Dental	4.601
Medical	4.753

Instructional programs with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health-related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is \$8.10 for all health related institutions, excluding The University of Texas M. D. Anderson Cancer Center and The University of Texas Health Center at Tyler. For these two institutions, the per square foot rate is \$7.63.

Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M. D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall be included in the total funding for hospital and patient care activities.

3. **Research Funding.** The health-related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of \$1,412,500 plus 1.60 percent of its research expenditures as reported to the Texas Higher Education Coordinating Board.
4. **Graduate Medical Education Formula.** The Graduate Medical Education Formula shall provide funding on a per medical resident basis. Funding is based on a base value of \$13,228 per medical resident in an accredited program. Appropriations for Graduate Medical Education for fiscal year 2008 are \$6,614 per resident and appropriations for fiscal year 2009 are \$6,614 per resident.
5. **Health Related Institution Graduate Medical Education.** The funds appropriated above in each of the health-related institutions bill pattern titled Graduate Medical Education (GME) shall be spent to increase the number of resident slots in the State of Texas as well as faculty costs relating to GME. In addition, each health-related institution shall work with the Higher Education Coordinating Board to develop new performance measures relating to increasing the number of resident slots in the State of Texas.
6. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Hospital and clinic operations shall be funded through a combination of hospital and clinic revenue and general revenue.

STATE AGENCIES OF HIGHER EDUCATION**
(Continued)

7. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor by June 1, 2008.
8. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:
 - a. **Pilot program.** It is the intent of the Eightieth Legislature the funding provided to The University of Texas M.D. Anderson Cancer Center General Revenue Funding in newly created Strategy A.4.1., Cancer Center Operations is part of a Pilot Program and be consider funding the mission specific formula in the follow manner. The University of Texas M.D. Anderson Cancer Center has a statutory mission to eliminate cancer through patient care, research, education, and prevention. General Revenue funds appropriated to The University of Texas M. D. Anderson Cancer Center in Strategy A.4.1, Cancer Center Operations, shall be based on the number of total Texas patients served at The University of Texas M.D. Anderson Cancer Center. General Revenue appropriations for fiscal years 2008 and 2009 shall be based on the number of total Texas patients served in 2004. The rate per patient shall be \$2,260.59 in fiscal year 2008 and \$2,260.57 in fiscal year 2009 for Strategy A.4.1, Cancer Center Operations. For formula funding purposes, the amount of growth in total Texas patients served from one biennium to another may not exceed the average growth in funding for Health Related Institutions in the Instruction and Operations formula for the current biennium. The Higher Education Coordinating Board shall monitor and report the validity in funding The University of Texas M.D. Anderson Cancer Center in this manner by December 1, 2008. In the event the report indicates that this new methodology of funding The University of Texas M.D. Anderson Cancer Center's mission specific funding is not appropriate, then it is the intent of the Eightieth Legislature to return funding its educational program as part of the Instruction and Operation formula.
 - b. The University of Texas Health Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with respiratory diseases. SPECIAL PROVISIONS - JUDICIARY

Sec. 2. Judicial Salary Enforcement. Each District Court Judge and Justice of the Courts of Appeals shall file a sworn statement with the Comptroller of Public Accounts setting forth the yearly amounts to be received from state and county as salary payments during the ensuing fiscal year. Amended statements shall be filed setting forth any change in the salary rate which occurs during a fiscal year.

For the purpose of salary payments by the state, the Comptroller of Public Accounts shall determine from the filed statements that the required salary differential set out in Government Code § 659.012 is maintained, unless otherwise provided by law. In the event a salary is in excess of the differential provided by law, the Comptroller is directed to reduce the state's portion of that salary by the amount of excess.

The appropriations for salaries of District Court Judges and Justices of Courts of Appeals are made contingent upon strict compliance with the provisions of this section and the Comptroller shall have no authority to issue a warrant for salaries which violate these provisions.

Sec. 3. Public Integrity Unit. In Strategy D.1.4, Public Integrity Unit, Judiciary Section, Comptroller's Department, warrants shall be drawn as necessary to reimburse the District Attorney of

the 53rd Judicial District for salary and expenses previously incurred. The District Attorney shall submit a voucher containing an itemized statement of expenses to substantiate each claim. This appropriation shall be allocated in three equal installments over the fiscal year. Any unencumbered, unexpended balance existing in a previous allocation period may be used in a subsequent period provided that period occurs within the same biennium.

Sec. 4. Restriction, New District Courts. No new district court may be funded until it has been approved by the commissioner's court of the county or a majority of the counties in that district.

Sec. 5. Transfer of Cases. The Chief Justices of the 14 Courts of Appeals are encouraged to cooperate with the Chief Justice of the Supreme Court to transfer cases between appellate courts which are in neighboring jurisdictions in order to equalize the disparity between the workloads of the various courts of appeals.

Sec. 6. Voice Recording. It is the intent of the Legislature that the Supreme Court and Court of Criminal Appeals will promulgate rules authorizing the use of voice or video recording technology, including CD ROM, to make a record of court proceedings. The Legislature does not intend that the recording be a substitute for the written transcript.

Sec. 7. Systems Compatibility. No funds shall be utilized to purchase information technology unless it interfaces with other courts and with the Office of Court Administration and complies with the plans filed with the Legislative Budget Board.

Sec. 8. Judicial Internship Program. It is the intent of the Legislature that the Judicial Branch cooperate with law schools to establish a judicial internship program for Texas appellate and trial courts. The Judicial Branch is encouraged to work with the Texas Judicial Council in the development of the judicial internship program.

Sec. 9. Appellate Court Exemptions. The following provisions of Article IX of this Act do not apply to the appellate courts:

- a. Article IX, § 5.08, Limitation on Travel Expenditures
- b. Article IX, § 6.10, Limitation on State Employment Levels
- c. Article IX, § 6.15, Performance Rewards and Penalties
- d. Article IX, §14.03, Limit on Expenditures-Capital Budget

Sec. 10. Appropriation: Unexpended Balances Between Fiscal Years within the Biennium. Any unexpended balances from appropriations made to the appellate courts for fiscal year 2008 are hereby appropriated to the same court for fiscal year 2009 for the same purposes.

Sec. 11. Intermediate Appellate Court Local Funding Information. The Office of Court Administration shall assist the appellate courts in the submission of a report for local funding information each January 1 to the Legislative Budget Board and the Governor for the preceding fiscal year ending August 31. The report must be in a format prescribed by the Legislative Budget Board and the Governor.

Sec. 12. Appellate Court Salary Limits. It is the intent of the Legislature that no intermediate appellate court may pay more than one chief staff attorney promoted or hired after September 1, 2005, more than \$84,000 annually under this provision. Further, it is the intent of the Legislature that no intermediate appellate court may pay other permanent legal staff hired or promoted after September 1, 2005 more than \$72,500 annually. This provision does not apply to law clerk positions at any appellate court.

Sec. 13. Interagency Contracts for Assigned Judges for Appellate Courts. Out of funds appropriated in this article to Strategies A.1.1, Appellate Court Operations, the Supreme Court of Texas, the Court of Criminal Appeals, or any of the 14 Courts of Appeals may enter into a contract with the Office of the Comptroller for fiscal years 2008 and 2009, for the purpose of reimbursing the Comptroller for amounts expended for judges assigned under Chapter 74, Government Code to hear cases of the appellate courts. It is the intent of the Legislature that any amounts reimbursed under this contract for judges assigned to the appellate courts are in addition to amounts appropriated for the use of assigned judges in Strategy A.1.3, Visiting Judges - Appellate in the Judiciary Section, Comptroller's Department.

SPECIAL PROVISIONS - JUDICIARY

Sec. 14. Appellate Court Transfer Authority. The Chief Justice of the Supreme Court of Texas, the Presiding Judge of the Court of Criminal Appeals, or the Chair of the Council of Chief Justices is authorized to transfer funds between appellate courts, notwithstanding any other provision in this Act and subject to prior approval of any transfer of funds by the Legislative Budget Board and the Governor. Any such transfer shall be made for the purpose of efficient and effective appellate court operations and management of court caseloads. It is the intent of the Legislature that transfers made under this provision are addressed by the Legislative Budget Board and the Governor in reviewing amounts requested in the appellate courts' Legislative Appropriations Request for the 2010-2011 biennium.

Sec. 15. Schedule of Exempt Positions. Notwithstanding other provisions of this bill, including Article IX, § 3.05 setting maximum salaries for exempt positions, the chief justice of the Supreme Court of Texas may set the rate of compensation for the Administrative Director of the Office of Court Administration in an amount not to exceed the Maximum Salary but no less than the Minimum Salary for the appropriate salary group for the Administrative Director as listed in the bill pattern for the Office of Court Administration, Schedule of Exempt Positions. Any salary increase from appropriated funds within the limits provided by this provision must be in writing; signed by the chief justice of the Supreme Court of Texas; and submitted to the Governor, the Legislative Budget Board and the Comptroller.

3. **Appropriation of Federal Title IV-E Receipts.** The provisions of Title IV-E of the Social Security Act shall be used in order to increase funds available for juvenile justice services. The Juvenile Probation Commission shall certify or transfer state funds to the Texas Department of Family and Protective Services so that federal financial participation can be claimed for Title IV-E services provided by counties. The Juvenile Probation Commission shall direct necessary general revenue funding to ensure that the federal match for the Title IV-E Social Security Act is maximized for use by participating counties. Such federal receipts are appropriated to the Juvenile Probation Commission for the purpose of reimbursing counties for services provided to eligible children.
4. **Juvenile Boot Camp Funding.** Out of the funds appropriated above in Strategy B.1.2, Harris County Boot Camp, the amount of \$1,000,000 annually may be expended only for the purpose of providing a juvenile boot camp in Harris County.
5. **Residential Facilities.** Juvenile Boards may use funds appropriated in Goal A, Basic Probation, and Goal B, Community Corrections, to lease, contract for, or reserve bed space with public and private residential facilities for the purpose of diverting juveniles from commitment to the Youth Commission.
6. **Funding for Progressive Sanctions.**
- a. Out of the funds appropriated above in Strategy A.1.2, Progressive Sanctions Levels 1-3, \$10,200,000 in fiscal year 2008 and \$10,200,000 in fiscal year 2009 can be distributed only to local probation departments for funding juvenile probation services associated with sanction levels described in §§ 59.003(a)(1), 59.003(a)(2), and 59.003(a)(3) of the Family Code, or for salaries of juvenile probation officers hired after the effective date of this Act. These funds may not be used by local juvenile probation departments for salary increases, employee benefits, or other costs (except salaries) associated with the employment of juvenile probation officers hired after the effective date of this Act.
- b. Out of the funds appropriated above in Strategy B.1.3, Level 5 Post-adjudication Facilities, \$6,177,936 in fiscal year 2008 and \$6,177,936 in fiscal year 2009 can be used only for the purpose of funding secure post-adjudication placements for (1) juveniles who have a progressive sanction guideline level of 5 or higher as described by §§ 59.003(a)(5), 59.003(a)(6), and 59.003(a)(7); (2) are adjudicated for a felony offense that includes as an element of the offense the possession, carrying, using, or exhibiting of a deadly weapon; (3) the juvenile court's order of adjudication contains a finding that the child committed a felony offense and the child used or exhibited a deadly weapon during the commission of the conduct or during immediate flight from commission of the conduct; or (4) are adjudicated for a sex offense of the grade of felony that requires registration under the Texas Sexual Offender Registration Program.

JUVENILE PROBATION COMMISSION

7. **County Funding Levels.** To receive the full amount of state aid funds for which a juvenile board may be eligible, a juvenile board must demonstrate to the commission's satisfaction that the amount of local or county funds budgeted for juvenile services is at least equal to the amount spent for those services, excluding construction and capital outlay expenses, in the 1994 county fiscal year. This requirement shall not be waived by the commission unless the juvenile board demonstrates to the satisfaction of the commission that unusual, catastrophic, or exceptional circumstances existed during the year in question to adversely affect the level of county fiscal effort. If the required local funding level is not met and no waiver is granted by the commission, the commission shall reduce the allocation of state aid funds to the juvenile board by the amount equal to the amount that the county funding is below the required funding.
8. **Local Post-adjudication Facilities.** Out of the funds appropriated above in Strategy B.1.4, Local Post-Adjudication Facilities, the amount of \$ 4,147,038 in fiscal year 2008 and \$4,147,038 in fiscal year 2009 may be used only for the purpose of funding local post-adjudication facilities. The agency shall fund these facilities based on historical occupancy rates, rather than the number of beds in the facility.
9. **Juvenile Justice Alternative Education Programs (JJAEP).** Out of the funds transferred to the Juvenile Probation Commission pursuant to Texas Education Agency (TEA) Rider 35 and appropriated above in Strategy D.1.1, Juvenile Justice Alternative Education Programs, the Juvenile Probation Commission shall allocate \$1,500,000 at the beginning of each fiscal year to be distributed on the basis of juvenile age population among the mandated counties identified in Chapter 37, Texas Education Code, and those counties with populations between 72,000 and 125,000 which choose to participate under the requirements of Chapter 37.

An additional \$500,000 shall be set aside in a reserve fund for each fiscal year of the biennium to allow mandated and non-mandated counties to apply for additional funds on a grant basis.

The remaining funds shall be allocated for distribution to the counties mandated by § 37.011(a) Texas Education Code, at the rate of \$69 per student per day of attendance in the JJAEP for students who are required to be expelled as provided under § 37.007, Texas Education Code, and are intended to cover the full cost of providing education services to such students. Counties are not eligible to receive these funds until the funds initially allocated at the beginning of each fiscal year have been expended at the rate of \$69 per student per day of attendance. Counties in which populations exceed 72,000 but are 125,000 or less, may participate in the JJAEP and are eligible for state reimbursement at the rate of \$69 per student per day.

The Juvenile Probation Commission may expend any remaining funds for summer school programs in counties with a population over 72,000 which are funded as mandated counties in Chapter 37. Funds may be used for any student assigned to a JJAEP. Summer school expenditures may not exceed \$3.0 million in any fiscal year.

Unspent balances in fiscal year 2008 shall be appropriated to fiscal year 2009 for the same purposes in Strategy D.1.1.

The amount of \$69 per student day for the JJAEP is an estimated amount and not intended to be an entitlement. Appropriations for JJAEP are limited to the amounts transferred from the Foundation School Program pursuant to TEA Rider 35. The amount of \$69 per student per day may vary depending on the total number of students actually attending the JJAEPs. Any unexpended or unobligated appropriations shall lapse at the end of fiscal year 2009 to the Foundation School Fund No. 193.

The Juvenile Probation Commission may reduce, suspend, or withhold Juvenile Justice Alternative Education Program funds to counties that do not comply with standards, accountability measures, or Texas Education Code Chapter 37.

10. **Funding for Additional Eligible Students in JJAEPs.** Out of funds appropriated above in Strategy D.1.1, Juvenile Justice Alternative Education Programs, a maximum of \$500,000 in each fiscal year (for a maximum of 90 attendance days per child), is allocated for counties with a population of at least 72,000 which operate a JJAEP under the standards of Chapter 37, Texas Education Code. The county is eligible to receive funding from the Juvenile Probation Commission at the rate of \$69 per day per student for students who are required to be expelled

under § 37.007, Texas Education Code, and who are expelled from a school district in a county that does not operate a JJAEP.

11. **Use of JJAEP Funds.** None of the funds appropriated above for the support of JJAEPs shall be used to hire a person or entity to do lobbying.
12. **JJAEP Accountability.** Out of funds appropriated above in Strategy D.1.1, Juvenile Justice Alternative Education Programs (JJAEP), the Juvenile Probation Commission shall ensure that Juvenile Justice Alternative Education Programs are held accountable for student academic and behavioral success. The Juvenile Probation Commission shall submit a performance assessment report to the Legislative Budget Board and the Governor by May 1, 2008. The report shall include, but is not limited to, the following:
 - a. an assessment of the degree to which each JJAEP enhanced the academic performance and behavioral improvement of attending students;
 - b. a detailed discussion on the use of standard measures used to compare program formats and to identify those JJAEPs most successful with attending students;
 - c. the percent of eligible JJAEP students statewide and by program demonstrating academic growth in the Texas Assessment of Knowledge and Skills (TAKS);
 - d. standardized cost reports from each JJAEP and their contracting independent school district(s) to determine differing cost factors and actual costs per each JJAEP by school year;
 - e. average cost per student attendance day for JJAEP students. The cost per day information shall include an itemization of the costs of providing educational services mandated in the Texas Education Code § 37.011. This itemization shall separate the costs of mandated educational services from the cost of all other services provided in JJAEPs. Mandated educational services include facilities, staff and instructional materials specifically related to the services mandated in Texas Education Code, § 37.011. All other services include, but are not limited to, programs such as family, group, and individual counseling, military style training, substance abuse counseling, and parenting programs for parents of program youth; and
 - f. inclusion of a comprehensive five-year strategic plan for the continuing evaluation of JJAEPs which shall include oversight guidelines to improve: school district compliance with minimum program and accountability standards, attendance reporting, consistent collection of costs and program data, training, and technical assistance needs.
13. **Training.** From funds appropriated above in Strategy C.1.1, Probation Assistance, the Juvenile Probation Commission shall provide training to local juvenile probation personnel and to local Juvenile Judges to maximize the appropriate placement of juveniles according to the progressive sanction guidelines.
14. **Unexpended Balances - Hold Harmless Provision.** Any unexpended balances as of August 31, 2008, in Strategy A.1.1, Basic Probation Services (estimated to be \$200,000), and in Strategy B.1.1, Community Corrections Services (estimated to be \$200,000), above are hereby appropriated to the Juvenile Probation Commission in fiscal year 2009 for the purpose of providing funding for juvenile probation departments whose allocation would otherwise be affected as a result of reallocations related to population shifts.
15. **Appropriation: Refunds of Unexpended Balances from Local Juvenile Probation Departments.** The Juvenile Probation Commission (JPC) shall maintain procedures to ensure that the state is refunded all unexpended and unencumbered balances of state funds held as of the close of each fiscal year by local juvenile probation departments. All fiscal year 2008 and fiscal year 2009 refunds received from local juvenile probation departments by JPC are appropriated above in Strategy B.1.1, Community Corrections Services. Any Basic Probation refunds received in excess of \$650,000 in fiscal year 2008 and \$650,000 in fiscal year 2009 are hereby appropriated to JPC for the Level 5 Secure Correction Placement Program. Any Community Corrections refunds received in excess of \$500,000 in fiscal year 2008 and \$500,000 in fiscal year 2009 are hereby appropriated to JPC for the Level 5 Secure Correction Placement Program.

End of fiscal year data shall be submitted indicating each reporting county to the LBB no later than two months after the close of each fiscal year.

Appropriations included above in Strategy A.1.3, Contracted Capacity, may be used to contract for beds in excess of 350 beds in fiscal years 2008 and 2009 only if the agency's residential population is over 97.5 percent of total capacity or if beds are needed due to an emergency situation that causes a reduction in the number of youth that can be safely housed in TYC-operated facilities and agreements can be reached that are beneficial to the State. Any General Revenue Funds in Strategy A.1.3, Contracted Capacity, which are not used for this purpose shall lapse to the General Revenue Fund.
22. **Appropriations Prohibited for Purposes of Payment to Employee Convicted of a Felony.** None of the appropriations made by this Act to the Youth Commission may be distributed to or used to pay an employee of the Youth Commission who has been convicted of a felony offense.

3. **Contingency Cash Flow.** If the Legislative Budget Board and Governor determine after review of relevant information that cash flow difficulties will occur as a result of the appropriations made above, the board and Governor may authorize the Texas Commission on Environmental Quality (TCEQ) to temporarily expend General Revenue Funds for the purpose of meeting the temporary cash flow needs of the TCEQ, limited to the amounts appropriated above. The transfer of funds shall be repaid to the General Revenue Fund by the end of the fiscal year in which the funds were transferred under procedures and standards established by the Comptroller of Public Accounts.
4. **Authorization: Aircraft Chartering.** Notwithstanding any other provision of this Act, the Texas Commission on Environmental Quality is authorized to spend appropriated funds for the chartering of aircraft for the purposes of monitoring environmental quality, and the enforcement of environmental and water rights laws of the State.

amount not less than \$2,800,000 in each year of the biennium shall be utilized to fund grants or cooperative agreements with eligible local air pollution programs under Health and Safety Code, § 382.0622. It is provided, however, that the combined federal and state share of the funding for any such local air pollution programs shall not exceed 67 percent of the total allocation to the programs, with the local share being based on the local dollars allocated pursuant to maintenance-of-effort requirements for federal air pollution grants.

6. **Fee Revenue: Pollution Control Equipment Exemptions.** Pursuant to Tax Code, § 11.31, included in amounts appropriated above out of the General Revenue Fund in Strategy C.1.3, Pollution Prevention, Recycling, and Innovative Programs, is \$133,600 each fiscal year from fee revenue collected beginning with the effective date of this Act for the purpose of determining whether pollution control equipment is exempt from taxation.

In addition to amounts appropriated above, any amounts collected by the Texas Commission on Environmental Quality pursuant to Tax Code, § 11.31 on or after September 1, 2007, in excess of \$133,600 in each fiscal year of the biennium are hereby appropriated to the agency.

7. **Authorization: Operating Fund.** The Texas Commission on Environmental Quality (TCEQ) is hereby authorized to make transfers from any appropriation made to TCEQ into a single account in the General Revenue Fund known as the "Texas Commission on Environmental Quality Operating Fund" for the purpose of making expenditures for which appropriations were made in this Act. After the expenditures have been made from the fund and as soon as the proper strategies have been identified, TCEQ shall process adjustments to the Comptroller in summary accounts to facilitate accurate cost allocations; provided, however, that each special account and fund shall be used for the purposes as now described by law and nothing shall be done to jeopardize or divert the special accounts and funds or any portion thereof including federal aid.
8. **Appropriation: Air Quality Planning.** Included in amounts appropriated above out of the Clean Air Account No. 151 in Strategy A.1.1, Air Quality Assessment and Planning, is \$5,075,000 for the biennium for air quality planning activities to reduce ozone and other federally designated criteria pollutants as approved by the Texas Commission on Environmental Quality (TCEQ) in areas including Austin, Corpus Christi, Longview-Tyler-Marshall, San Antonio, and Victoria. These activities may include identifying, inventorying, and monitoring of current pollution levels; modeling future pollution levels; and the identification, quantification, and implementation of potential pollution reduction through appropriate controls. The areas receiving funds shall coordinate with the TCEQ to ensure that these activities are consistent with agency monitoring, inventory and modeling approaches and infrastructure.
9. **Appropriations Limited to Revenue Collections: Occupational Licensing.** It is the intent of the Legislature that fees, fines and other miscellaneous revenues deposited to the Occupational Licensing Account No. 468 as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for strategy item A.2.4, Occupational Licensing, as well as the "Other direct and indirect costs" associated with this strategy, appropriated elsewhere in this Act. "Other direct and indirect costs" for strategy A.2.4, Occupational Licensing, are estimated to be \$335,846 for fiscal year 2008 and \$336,184 for fiscal year 2009. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct the Comptroller of Public Accounts to reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
10. **Contract with the State Office of Administrative Hearings.** Included in the amounts appropriated above is \$938,860 in fiscal year 2008 and \$938,860 in fiscal year 2009 to cover the cost of contracting with the State Office of Administrative Hearings for funding the Natural Resources Division for the purpose of conducting administrative hearings and for related expenses. The Texas Commission on Environmental Quality (TCEQ) and the State Office of Administrative Hearings may not enter into a contract for an amount less than the amounts specified herein. If the State Office of Administrative Hearings determines, at the end of each fiscal year, that the amount paid under the contract exceeds the necessary funding, it shall refund the difference to TCEQ. If the State Office of Administrative Hearings determines that the amounts are insufficient to fund the Natural Resources Division, the State Office of Administrative Hearings may enter into negotiations with TCEQ in order to renegotiate the interagency contract to provide additional funds for administrative hearings. The State Office of Administrative Hearings is not appropriated any state funds from such renegotiated

(Continued)

30. **Appropriation: Contracting for Debt Collection.** Included in amounts appropriated above, there is hereby appropriated to the Texas Commission on Environmental Quality (TCEQ) for the biennium beginning on September 1, 2007, all proceeds from overdue and delinquent penalties and fees collected by a contractor working on behalf of the TCEQ to collect such funds. This appropriation shall be limited to the amount necessary to pay the contractor collecting such fees for its services and shall not exceed 18 percent of fine and fee proceeds collected by the contractor (estimated to be \$293,388 for the 2008-09 biennium). All other amounts collected shall be deposited to the General Revenue Fund or to a General Revenue-Dedicated Account, based on the applicable statutory provisions.
31. **Authorization: Water and Air Program Fee Rates.** To provide for the recovery of costs of processing certain water and air applications, the following fee rates are established pursuant to Government Code, Chapter 316, Subchapter E, to be effective during the biennium beginning on September 1, 2007.

This provision does not exempt the TPWD from capital budget rider provisions for state land acquisition.

Amounts expended from these funding sources shall not count towards the limitation imposed by capital budget provisions elsewhere in this Act. The TPWD shall notify the Legislative Budget Board and the Governor upon receipt of such funds, of the amount received and the items to be purchased.

21. **Headquarters-based Vehicles.** It is the intent of the Legislature that at any given point and time during the 2008-09 biennium, no more than 60 vehicles be assigned to the Texas Parks and Wildlife Department (TPWD) headquarters facility located in Austin, Texas. However, contingent on the TPWD relocating approximately 70 staff from Austin lease space to the headquarters facility, the number of vehicles that may be assigned to the headquarters facility is increased to 90 vehicles.
22. **Appropriation: Land Sale Proceeds.** Included in amounts appropriated above in Strategy D.1.1. Improvements and Major Repairs, and D.1.2. Land Acquisition, are all balances (including balances from the sale of the Game Warden Academy) as of August 31, 2007, and all proceeds collected on or after September 1, 2007 (balances and revenues estimated to be \$12,900,000 in Appropriated Receipts) from the sale of Texas Parks and Wildlife Department (TPWD) lands, including the sale of land identified as underutilized and sold by the General Land Office. In accordance with Parks and Wildlife Code § 13.009, the balances and proceeds from the sale of these lands may be used only to improve or acquire other real property dedicated to the same purpose for which the land sold was dedicated. Excluding balances from the sale of the Game Warden Academy (estimated to be \$1,200,000) and Eagle Mountain Lake (estimated to be \$9,600,000), land sale proceeds (estimated to be \$2,100,000) may only be used to acquire adjacent tracts, in-holdings of TPWD lands, or improvements and repairs at existing parks. Balances in proceeds from the sale of the Game Warden Academy are restricted to constructing and equipping the new Game Warden Academy. Any unexpended balances and revenue remaining as of August 31, 2008 are appropriated for the same purpose for the fiscal year beginning September 1, 2008.
23. **State Park Facilities and Operations Management.** Using the funds appropriated above to the various strategies that are specified in the following provisions, or to any relevant strategy, the Texas Parks and Wildlife Department shall:
 - a. Require state park employees to use a standard definition to identify or flag health and safety-related repair needs in its facility management information system; and require the Infrastructure Division to monitor and set priorities to address new health and safety-related facility problems on a weekly basis.
 - b. Redirect \$107,161 each fiscal year and three full-time equivalent employees to Strategy B.1.3, Parks Support, from Strategy E.1.1, Central Administration, so that the Budget Management section can perform critical budget analyses, and so that public safety staff, such as the Law Enforcement Division, can produce reports on the number of accidents, injuries, as well as property damage and crime incidents in each state park.
 - c. From Strategies B.1.1, State Park Operations and B.1.3, State Park Support, develop and implement an annual state park performance review process that evaluates visitor satisfaction, safety, staff performance, occupancy rates, park and concession profitability, and the facility maintenance of each state park and historic site.
 - d. From Strategies B.1.1, State Park Operations and B.1.3, State Park Support, ensure that all park managers conduct a thorough competitive analysis that shows their

competitors' fee levels (e.g., private campgrounds such as KOA), visitor capacity, services, and amenities. These analyses should accompany the manager's annual fee proposals, and the entire package should be submitted electronically.

24. **Contingency Relating to Transfer of Historic Sites.** It is the intent of the Legislature that additional sporting goods sales tax collections be allocated to the Texas Parks and Wildlife Department and the Texas Historical Commission for the purpose of supporting the state park system, including historical sites, contingent on the transfer of certain historical sites from the Texas Parks and Wildlife Department to the Texas Historical Commission through legislation or agency transfer.
25. **Collection and Reporting of Major Equipment Usage Statistics.** Out of funds appropriated above, the Texas Parks and Wildlife Department shall collect usage statistics on all major equipment maintained and operated by the Department. Major equipment includes such items as dump trucks, mowers, tractors, graders, or other, non-personal transportation, major construction or grounds maintenance equipment used in the operation of the state parks system. The Department shall collect, at minimum, the actual hours of operation of each piece of equipment and the geographical distribution of the equipment during the fiscal year studied, but shall also include other usage statistics necessary to determine the actual major equipment needs of the state parks system, including explicit justification for idle equipment. The Department shall report the findings of major equipment usage to the Legislative Budget Board and the Governor no later than October 1 of each fiscal year for the proceeding fiscal year, beginning on October 1, 2008.
26. **Battleship TEXAS.** Included in amounts appropriated above is \$12,400,000 from General Obligation Bonds and \$410,000 from Appropriated Receipts in fiscal year 2008 and \$3,590,000 from Appropriated Receipts in fiscal year 2009 for repairs to the Battleship TEXAS. The Texas Parks and Wildlife Department (TPWD) shall file a report with the Legislative Budget Board, the Governor, and the Battleship TEXAS Foundation within 30 days following November 30, February 28, May 31, and August 31 of each fiscal year showing the progress and costs of the project, including a repair schedule and the purpose for each expenditure. Any unexpended balances for this purpose remaining as of August 31, 2008 are hereby appropriated for the fiscal year beginning September 1, 2008 for the same purposes.
27. **Appropriation of Receipts out of General Revenue-Dedicated Accounts.** For the biennium beginning September 1, 2007, the Texas Parks and Wildlife Department (TPWD) is hereby appropriated any additional revenues that are certified by the Comptroller's finding of fact and are in excess of the amounts reflected in the Comptroller's Biennial Revenue Estimate for each year of the biennium (estimated to be \$1,000,000 for the biennium in the General Revenue-Dedicated Game Fish and Water Safety Account No. 9 and \$2,000,000 for the biennium in the General Revenue-Dedicated State Parks Account No. 64) Any fiscal year 2008 unexpended balances from additional revenue collections in excess of the Biennial Revenue Estimate as of August 31, 2008 are hereby appropriated for the fiscal year beginning September 1, 2008. The TPWD is specifically authorized to expend these funds for purposes authorized by the Parks and Wildlife Code, including capital budget purposes. Such expenditures must comply with limitations established for salary, travel, and capital expenditures, employment levels, and other provisions contained in Article IX of this Act.
- Each year, the TPWD shall notify the Comptroller of Public Accounts, the Legislative Budget Board, and the Governor of the amount that the department projects will be received in excess of the amount contained in the Comptroller's Biennial Revenue Estimate for each of the department's General Revenue-Dedicated accounts along with sufficient information to reflect how that estimate was determined. If the Comptroller finds the information sufficient to support the projection of additional revenues, a finding of fact to that effect shall be issued to reflect the additional revenue available for each General Revenue-Dedicated account. In the event the Comptroller issues a finding of fact that additional revenue is available, the TPWD shall notify the Legislative Budget Board, the Governor, and the Comptroller of Public Accounts the purposes for which the additional revenue is budgeted.
28. **Fish and Shellfish Consumption Advisories.** Out of the amounts appropriated above in Strategies A.2.1, Inland Fisheries Management and A.2.3, Coastal Fisheries Management the Texas Parks and Wildlife Department shall use \$20,000 each fiscal year from the General Revenue-Dedicated Game, Fish and Water Safety Account No. 9, to post signs at those water

bodies for which the Seafood and Aquatic Life Group of Texas Department of State Health Services has advisories and bans from consumption of contaminated fish or shellfish.

29. Implementation of State Auditor's Recommendations.

- a. It is the intent of the Legislature that the Texas Parks and Wildlife Department (department) use funds appropriated above to implement the recommendations contained in the State Auditor's *An Audit Report on Financial Processes at the Parks and Wildlife Department* Report No. 07-021.
- b. Additionally, the department shall use funds appropriated above:
 - (1) To prepare a comprehensive plan and timeline to implement the recommendations set out in Report No. 07-021, and submit the plan and timeline to the Legislative Budget Board and the Governor no later than August 31, 2007;
 - (2) To submit quarterly and biennial reports to the Legislative Budget Board and the Governor that indicate the extent to which each recommendation contained in the aforementioned plan and timeline has been implemented, information about significant costs, and any factors that may impede full implementation. Quarterly reports must be submitted 30 days after each quarter ends; the biennial report must be submitted by November 30, 2008;
 - (3) To annually report to the State Auditor's Office on the status of the implementation of the recommendations, pursuant to Section 321.014(f) of the Texas Government Code;
 - (4) To submit monthly reports to the Legislative Budget Board and the Governor that identify all facility repair and constructions projects for which actual costs have varied from original cost estimates by 10 percent or more at any point during a project's lifespan; and any related changes in cost estimate; and
 - (5) To notify the Governor and Legislative Budget Board at least six months before closing or transferring any state park.
- c. Out of funds appropriated above, the department shall redirect agency resources to add 16.0 auditor positions in the Internal Audit Division in order to implement the recommendations contained in the State Auditor's *An Audit Report on Financial Processes at the Parks and Wildlife Department* Report No. 07-021. The department shall maintain an internal auditing program in compliance with the provisions of the Texas Internal Auditing Act, which shall incorporate, at a minimum, the assignment of an internal auditor at each regional park office. Each internal auditor assigned pursuant to this provision shall report either directly to the members of the Texas Parks and Wildlife Commission or to the internal auditor appointed pursuant to Government Code § 2102.006.

An internal auditor whose duty station is assigned pursuant to this provision may consider suggestions from a Parks Regional Director in developing proposals for the department's annual audit plan.
- d. The Comptroller may not release \$17,294,992 for the 2008-09 biennium (\$8,940,845 in fiscal year 2008 and \$8,354,147 in fiscal year 2009) without prior written notification from the Legislative Budget Board and the Governor that the department has satisfactorily implemented the recommendations contained in the State Auditor's Office *An Audit Report on Financial Processes at the Parks and Wildlife Department* Report No. 07-021. The department should report its progress in implementing the recommendations to the Legislative Budget Board and the Governor no later than July 1, 2007 and July 1, 2008 before appropriations may be released and available by September 1 of each fiscal year in the 2008-09 biennium.
- e. Contingent on the enactment of House Bill 6 or similar legislation by the Eightieth Legislature, Regular Session, \$6,054,087 in fiscal year 2008 and \$7,131,720 in fiscal year 2009 from an increase in the Sporting Goods Sales Tax allocation to the State Parks Account No. 64 and \$19,568,570 in fiscal year 2009 from an increase in the Sporting

Appropriation for Pipeline Safety Fees.** Included in the amounts appropriated above are revenues from fees assessed on pipelines and pipeline facilities and deposited to Revenue Object Code 3553 in the General Revenue Fund pursuant to Utilities Code, § 121.211 in an amount not to exceed \$1,382,762 in fiscal year 2008 and \$1,378,979 in fiscal year 2009. These funds shall be used to operate programs in Strategy B.1.1, Pipeline and LP Gas Safety, and the geographic information systems mapping program in Strategy D.1.1, Geographic Information Systems and Well Mapping. The Railroad Commission is hereby authorized to transfer appropriations made pursuant to this provision to the appropriate strategy items.

These appropriations are contingent upon the Railroad Commission assessing fees sufficient to generate, during the 2008-09 biennium, revenue to cover, at a minimum the General Revenue appropriations for the Pipeline Safety program as well as "Other direct and indirect costs" for the program, appropriated elsewhere in this Act. "Other direct and indirect costs" are estimated to be \$490,751 in fiscal year 2008 and \$492,005 in fiscal year 2009. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct the Comptroller of Public Accounts to reduce the appropriation authority provided above to be within the amount of revenue expected to be available.

In addition to amounts appropriated above, there is hereby appropriated for the biennium beginning on September 1, 2007, any revenues received from pipeline safety fee revenues deposited to the credit of Revenue Object Code No. 3553 in the General Revenue Fund in excess of the Comptroller's Biennial Revenue Estimate for 2008-09.

- 12. Federal Funds and Capital Budget Expenditures.** To comply with the legislative intent to maximize the use of federal funds and to fulfill grant requirements required for the receipt and expenditure of federal funds, the Railroad Commission (RRC) is hereby exempted from the Capital Budget Rider Provisions contained in Article IX of this Act, "Limitations on Expenditures - Capital Budget," when federal funds are received in excess of amounts identified in the agency's Capital Budget Rider and such funds are federally designated solely for the purchase of specific capital items. The RRC shall notify the Legislative Budget Board and the Governor upon receipt of such federal funds, of the amount received and items to be purchased.

No part of any amounts based on an initial transfer from the federal government that occurred prior to fiscal year 2000 or after fiscal year 2002, herein appropriated out of amounts credited to Texas' account in the Federal Unemployment Trust Fund under § 903 of the Social Security Act, shall be expended after the close of the period covered by this act and any unused portion of such amounts shall, at such close, revert to Texas' said account in the Federal Unemployment Trust Fund. The amount obligated pursuant to this act shall not exceed at any time the amount by which (a) the aggregate of the amounts transferred to the account of this state pursuant to § 903 of the Social Security Act exceeds (b) the aggregate of the amounts obligated for administration and paid out for benefits and required by law to be charged against the amounts transferred to the account of this State.
 - d. Should federal requirements concerning amounts made available under Section 903 of the Social Security Act change after passage of this Act, the appropriation made in this rider shall be subject to such conditions and limitations as required by the changed federal law.
5. **Authorization: Sale of Agency-owned Buildings and Land.** In order to ensure effective facility management in coordination with the local workforce development boards, the Texas Workforce Commission (TWC) is hereby authorized to sell agency-owned buildings and land. Any such sale must be based on a finding by the commission that no other economically viable alternative exists, and specifically that operation within agency-owned or leased buildings would not be feasible. Furthermore, in order to accommodate sudden and unexpected fluctuations in federal funding, TWC is hereby authorized to sell agency-owned buildings and land as it deems necessary. The authority granted in this provision is contingent upon the filing of a written notice with the Governor and the Legislative Budget Board at least 90 days prior to the planned date of sale and is subject to the disapproval of either office within 90 days after notification.
6. **Payment of Unemployment Benefits - State Agencies.** It is the intent of the Legislature that the Texas Workforce Commission charge the Comptroller of Public Accounts only for unemployment benefits paid based on wages earned from agencies appropriated funds under the General Appropriations Act, and that agencies outside the General Appropriations Act be maintained as individual reimbursing employers. For the purposes of this rider, 'agency' includes a state agency as defined under § 2151.002, Government Code, which includes an institution of higher education (except a public junior college) as defined under § 61.003, Education Code.
7. **Federal Funds Appropriated.** The Texas Workforce Commission (TWC) is hereby authorized to receive and disburse in accordance with plans acceptable to the responsible federal agency, all federal moneys that are made available (including grants, allotments, and reimbursements) to the state and retain their character as federal funds for such purposes and all fees authorized by federal law, and to receive, administer, and disburse federal funds for federal programs in accordance with plans agreed upon by the TWC and the responsible federal agency, and such other activities as come under the authority of the TWC, and such moneys are appropriated to the specific purpose or purposes for which they are granted or otherwise made available. Earned federal funds are not considered to be federal funds for the purpose of this section.
8. **Reappropriation of Federal and Local Funds.** All funds received by the Texas Workforce Commission from counties, cities, federal agencies, and from any other local source during the 2008-09 biennium, and all balances from such sources as of August 31, 2007, are hereby appropriated for the biennium ending August 31, 2009, for the purpose of carrying out the provisions of this Act. Earned federal funds are not considered to be federal funds for the purpose of this section.
9. **Unexpended Balances for Child Care Funds.** It is the intent of the Legislature that any additional federal funds received as a result of current efforts to obtain child care funds, be

used for child care. Except as otherwise provided, all unexpended and unobligated balances in the area of child care remaining from appropriations for the first year of the biennium to the Texas Workforce Commission (TWC) are appropriated to TWC for the purpose of drawing down all available federal funds for child care. The TWC may transfer unexpended and unobligated balances of General Revenue appropriations to Strategy A.3.3, At-Risk Child Care, in order to match available federal child care funds, which are appropriated to TWC. TWC is subject to the requirements of the Additional Federal Funds rider in this agency's bill pattern for federal child care funds matched with available General Revenue, and TWC shall notify the Legislative Budget Board and the Governor of the amounts of additional General Revenue used as match and the federal child care funds matched in each year of the 2008-09 biennium not later than:

- a. the 10th day after the date the staff of the Legislative Budget Board concludes its review of the findings of fact and forwards those findings of fact along with the conclusions or comments of the Legislative Budget Board staff to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor; and
- b. within 10 business days by the Governor,

prior to drawing down the additional federal funds.

10. **Maximization of Child Care and Development Funds.** It is the intent of the Legislature that the Texas Workforce Commission cooperate with cities, non-profit organizations, the Texas Education Agency and local school districts to obtain local match necessary to maximize federal funds for child care. In order to maximize the availability of state matching funds for federal child care funds and to encourage local child care planning and match participation, the commission shall use donated purchase agreements and other funding mechanisms, to the extent allowed by federal law and regulations.
11. **Project RIO.** It is the intent of the Legislature that the Texas Workforce Commission (TWC), the Texas Department of Criminal Justice, and the Texas Youth Commission together enhance the effectiveness of Project RIO by improving cohesive program delivery among the three agencies. The agencies shall together develop and implement a biennial strategic plan for the implementation of a more cohesive and effective Project RIO program which will emphasize necessary skill development, rehabilitation and appropriate assessment of the offender prior to inmate release. Not later than March 1, 2008, the biennial strategic plan, jointly prepared by the three agencies, and including specific strategies, measures, timeframes for program improvement, and a methodology for program evaluation, shall be submitted to the Legislative Budget Board and the Governor. For performance measures included in the biennial strategic plan, TWC will set targets for local work force development boards and collect reports on actual performance. TWC shall maintain funding at \$3,259,735 in each fiscal year of the 2008-09 biennium to the Texas Department of Criminal Justice and \$446,250 in each fiscal year of the 2008-09 biennium to the Texas Youth Commission to fund Project RIO. The agencies shall enter into interagency contracts, to include reporting of performance levels, for the 2008-09 biennium.
12. **Earned Income Tax Credit Assistance.** Out of funds appropriated above, the Texas Workforce Commission and local workforce development boards shall assist recipients of Temporary Assistance for Needy Families who become employed, and other low-income workers who may qualify for the credit under federal income and other requirements, to apply for the federal Earned Income Tax Credit.
13. **Employment and Child Care Programs in Rural Areas.** It is the intent of the Legislature that the Texas Workforce Commission and local workforce development boards cost-effectively continue to expand the availability of employment and child care programs into rural areas.
14. **Job Training Courses.** It is the intent of the Legislature that the primary objective of job training courses offered by the Texas Workforce Commission and local workforce development boards is to prepare individuals for high-skill, high-wage jobs with health benefits that result in long-term employability. Whenever possible, strategies should focus on incorporating industry sectors and/or regional industry clusters in order to promote high quality jobs. While English as a Second Language (ESL) may provide additional benefit to trainees, it may not be substituted for job training classes.

19. **Additional Federal Funds.** No appropriation of federal funds in addition to the estimated amounts above may be expended by the Texas Workforce Commission (TWC) unless:
 - a. TWC files a finding of fact along with a written plan outlining the use and projected impact of the funds on performance measures with the Legislative Budget Board and the Governor and indicating that additional appropriations are required to maintain adequate levels of program performance; and
 - b. neither the Legislative Budget Board nor the Governor issues a written disapproval not later than:
 1. the 10th day after the date the staff of the Legislative Budget Board concludes its review of the findings of fact and forwards those findings of fact along with the conclusions or comments of the Legislative Budget Board staff to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor; and

Information Resource Technologies" may be used to lease information resources hardware and/or software versus the purchase of information resources hardware and/or software, if determined by agency management to be in the best interest of the State of Texas.

Out of the Interagency Contracts:		
a. Acquisition of Information Resource Technologies		
(1) Electronic Filing System	\$ 30,000	\$ 30,000
Total, Capital Budget	<u>\$ 30,000</u>	<u>\$ 30,000</u>
3.	Renegotiation of Lump Sum Contract. Appropriations made above in Strategy A.1.1, Conduct Hearings, include \$938,860 in fiscal year 2008 and \$938,860 in fiscal year 2009 in Interagency Contracts to fund the Natural Resources Division for the purpose of conducting hearings for the Texas Commission on Environmental Quality (TCEQ). The State Office of Administrative Hearings (SOAH) and TCEQ may not enter into a contract for an amount less than the specified amounts herein above. If SOAH determines, at the end of each fiscal year, that the amount paid under the contract exceeds the funding necessary for the Natural Resources Division, it shall refund the difference. If SOAH determines that these amounts are insufficient to fund the Natural Resources Division it may enter into negotiations with the TCEQ in order to renegotiate an interagency contract in a manner which will provide it with additional funds, provided that SOAH shall not be appropriated any state funds from such renegotiated interagency contract until it gives prior written notice to the Legislative Budget Board and the Governor, accompanied by written permission of the TCEQ.	
4.	Benefit Collection. Agencies that enter into contracts with the State Office of Administrative Hearings (SOAH), for the purpose of performing the hearings function, and make payments to SOAH from funding sources other than General Revenue, must reimburse SOAH for employee benefit costs for salaries and wages. These reimbursements to SOAH will then be paid to the General Revenue Fund in proportion to the source of funds from which the respective salary or wage is paid.	
5.	Contingency Appropriation for Expanded Jurisdiction. Contingent on the enactment of legislation by the Eightieth Legislature transferring the hearings functions of other state agencies to the State Office of Administrative Hearings (SOAH), or otherwise expanding the jurisdiction of the office, SOAH is hereby authorized to expend funds transferred to the office from those agencies or funds appropriated for the purpose of handling the expanded jurisdiction, pursuant to provisions elsewhere in this Act. Appropriations authorized pursuant to this provision may be expended only to implement the transferred functions or expanded jurisdiction. All funds collected by SOAH as payment for, or reimbursement of, the office's costs of providing services to other state agencies or governmental entities, or others as directed by the Legislature, are appropriated to SOAH for its use during the biennium.	
6.	Hearings Activity Report. By May 1st and November 1st of each fiscal year, the State Office of Administrative Hearings (SOAH) shall submit to the Legislative Budget Board and the Governor a report detailing hearings activity conducted during the prior two fiscal year quarters. The report shall indicate, for each agency served, the person hours allocated to the agency's cases and the cost, both direct and indirect, of conducting the hearings. The report shall also indicate, for each agency served, the number of cases received, the number of cases disposed of, the number of administrative fine cases disposed of and the median number of days between the date a case is received by SOAH and the date the case is finally disposed of, during the reporting period.	
7.	Interagency Contract for Administrative Law Judge Training. Out of funds appropriated above, the State Office of Administrative Hearings shall contract in the amount of \$25,000 for training of Administrative Law Judges. Any amounts not expended as of August 31, 2008, are appropriated for the fiscal year beginning September 1, 2008. The State Office of Administrative Hearings' travel expenses, including travel expenses incurred by staff for out-of-state travel related to Administrative Law Judge training, are limited to the amount as established in this rider.

8. Contingency for Additional Self-directed Semi-independent Agency Pilot Projects.

Contingent upon additional agencies added as a self-directed semi-independent (SDSI) agency pilot project by the Legislature during the 2008-09 biennium, any agency added as a SDSI pilot project that is listed in Rider 8 shall be removed from the exemption granted in Rider 8 below.

9. Billing Rate for Workload.

- a. Unless otherwise provided, amounts appropriated above and elsewhere in this Act for funding for the payment of costs associated with administrative hearings conducted by the State Office of Administrative Hearings (SOAH) are based on an hourly rate of \$100 per hour for each hour of work performed during each fiscal year as reflected by the SOAH's Legislative Appropriation Request and Hearings Activity Report to the Eightieth Legislature.
- b. Notwithstanding other provisions in this act, amounts for the payment of costs associated with administrative hearings conducted by SOAH for the Comptroller of Public Accounts shall be established through an interagency contract between the two agencies. The contract shall provide funding for hearings on tax issues conducted by Master Administrative Law Judge IIs in a separate tax division within SOAH that have expertise in state tax and shall specify the salaries of the judges within the division.
- c. Amounts appropriated above in Strategy A.1.1, Conduct Hearings, to SOAH from the General Revenue Fund include funding in each year of the biennium for billable casework hours performed by SOAH for conducting administrative hearings at the rate determined by SOAH and approved by the Legislature for the following agencies that do not have appropriations for paying SOAH costs for administrative hearings and are not subject to subsection (a) of this Section:

4. **Contingency Appropriation: State Regulatory Response.**

- a. Amounts appropriated above to the Department of Banking not to exceed \$5,550,432 each fiscal year in General Revenue in Strategy D.1.1, Contingency Regulatory Response, and 56.5 Full-Time-Equivalents (FTE) positions each fiscal year included above in the "Number of Full-Time-Equivalents (FTE)" are contingent upon a finding of fact by the Finance Commission that additional resources are needed by the Department of Banking because:
- (1) the number of exams required for the state-chartered commercial banking industry under the jurisdiction of the Department of Banking, determined either as a function of assets, number of institutions, expanded specialty areas, or relative proportion of problem banks or problem bank assets in the state system, increases to a point where additional appropriations are required to maintain adequate regulation of the industry;
 - (2) federal regulatory resources applied to the Texas state-chartered commercial banking industry, determined as a function of assets, have been reduced; or
 - (3) the Department of Banking is unable to maintain adequate supervision of the industry and is unable to meet its examination frequency performance measures due to reductions in the quality or quantity of its examination staff, resulting either from examiner turnover, or an inability to recruit adequately qualified examiners because of salary levels.
- b. None of the funds appropriated above in Strategy D.1.1, Contingency Regulatory Response, above may be expended and none of the 56.5 Full-Time-Equivalents (FTE) positions each fiscal year included above in the "Number of Full-Time-Equivalents (FTE)" may be used by the Department of Banking unless the Finance Commission files a finding of fact with the Governor and the Legislative Budget Board and neither the Governor nor the Legislative Budget Board issues a written disapproval. The Governor and the staff of the Legislative Budget Board shall process the original request within 30 days of receipt and if additional information is required from the Department of Banking, to make a decision on the original request, such requests for additional information shall be made within 30 days of receipt of the original request. Within 10 days of receipt of all additional information from Department of Banking, or within 30 days of receipt of the original request, whichever is greater:
- (1) the staff of the Legislative Budget Board must conclude its review of the findings of fact and forwards those findings of fact along with the conclusions or comments of the Legislative Budget Board staff to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor. The Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor shall have 20 days upon receipt of the Legislative Budget Board conclusions to issue a written disapproval, otherwise the request is deemed approved by the Legislative Budget Board; and

DEPARTMENT OF BANKING

- (2) the Governor must issue a written disapproval, otherwise the request is deemed approved by the Governor.
- c. The appropriations above in Strategy D.1.1, Contingency Regulatory Response, and 56.5 Full-Time-Equivalents (FTE) positions each fiscal year included above in the "Number of Full-Time-Equivalents (FTE)" are also contingent upon the Department of Banking generating sufficient additional fee revenues to cover these contingency appropriations and related employee benefits, and providing such information as may be deemed necessary by the Comptroller of Public Accounts to issue a finding of fact that the increased revenues will be available to fund the increased appropriation. These increased revenues must exceed \$12,151,000 for fiscal year 2008 and \$12,076,000 for fiscal year 2009 (Object Code 3172) contained in the Comptroller of Public Accounts' Biennial Revenue Estimate.
- d. Funds appropriated above in Strategy D.1.1, Contingency Regulatory Response, and 56.5 Full-Time-Equivalents (FTE) positions each fiscal year included above in the "Number of Full-Time-Equivalents (FTE)" may only be used to address issues included in the finding of fact submitted to the Governor and the Legislative Budget Board pursuant to subsection (b) above, and apply only to the 2008-09 biennium unless otherwise appropriated. It is the intent of the Legislature that these funds not be included in base level funding requests for the 2010-11 biennium.

The definitions established by § 660.002, Government Code, apply to Part 5 of this Article, unless another meaning is clearly provided. In Part 5 of this Article:

- (1) "Council of governments" includes:
 - (A) a council of governments created under Chapter 391, Local Government Code;
 - (B) a regional planning commission created under Chapter 391, Local Government Code; or
 - (C) a regional planning agency created under Chapter 391, Local Government Code.
- (2) "State agency" includes the entities within the definition of § 660.002(19), Government Code, and also includes a council of governments, a local workforce development board, or a MHMR community center, that uses funds appropriated by this Act to pay for the transportation, meals, lodging, or other travel expenses of its employees.

Sec. 5.02. **General Travel Provisions.** The funds appropriated by this Act to a state agency for the payment of transportation, meals, lodging, or incidental expenses is the maximum amount that may be expended by the agency. The funds appropriated by this Act may not be expended for those expenses unless the travel and the resulting requests for payment or reimbursement comply with the conditions and limitations in this Act, Chapter 660, Government Code, and the Comptroller's Rules.

Sec. 5.03. **Failure to Comply.**

- (a) If the State Auditor determines that the travel for which payment was made out of appropriated funds is not in compliance with Chapter 660, Government Code, the State Auditor shall so certify to the Comptroller. The Comptroller shall reduce the appropriation of the state agency that paid

TRAVEL REGULATIONS (Continued)

the travel expenses by an amount equal to the entire amount paid by the state agency for that individual for that travel occurrence.

- (b) The Comptroller shall prepare an annual report indicating the appropriation reductions, by state agency, made pursuant to this section for the previous fiscal year. The Comptroller shall submit the report to the Legislative Budget Board not later than December 1.

Sec. 5.04. Transportation Expenses. For a state employee's use of a personally owned or leased motor vehicle, the mileage reimbursement rate for travel equals the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations as announced by the Comptroller.

Sec. 5.05. Transportation in Personally Owned or Leased Aircraft.

- (a) The rate of reimbursement to be paid to a key official, member of a board, commission, or a member of the Legislature for travel in the person's personally owned or leased aircraft, either within or without the boundaries of this state, is the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under the federal income tax regulations or alternatively as determined by the Comptroller the rates adopted by the United States Administrator of General Services as announced by the Comptroller.
- (b) The rate of reimbursement for a state employee when the employee travels in the employee's personally owned or leased aircraft, either within or without the boundaries of this state, is:
 - (1) 40 cents per highway mile when traveling in single-engine aircraft; or
 - (2) 50 cents per highway mile when traveling in twin-engine, turbine-powered, or other aircraft.

Sec. 5.06. Travel Meals and Lodging Expenses.

- (a) A state employee who travels within this state shall be reimbursed for the actual cost of lodging and meals. However, the reimbursements may not exceed \$85 per day per location for lodging and \$36 per day for meals.
- (b) At the discretion of each chief administrator of a state agency, a state employee whose duties require the employee to travel outside the employee's designated headquarters without an overnight stay away from the employee's headquarters may be reimbursed for the actual cost of the employee's meals not to exceed \$36.
- (c) A state employee who travels outside of this state but within the continental United States shall be reimbursed for the employee's actual expenses for lodging and meals. However, the reimbursement may not exceed the maximum out-of-state meals and lodging rates, based on the federal travel regulations, issued by the Comptroller unless the agency head or the designee of the agency head determines that local conditions necessitate a change in the lodging rate for a particular location. If an employee travels to a location where an allowance has not been set by the Comptroller, the Comptroller shall establish a rate for that location.
- (d) A state employee may receive reimbursements for the employee's actual expenses for meals and lodging when traveling outside the continental United States.
- (e) A state agency or institution may reimburse a state employee for a meal expense the employee incurs while traveling outside the employee's designated headquarters for less than six consecutive hours if the reimbursement:
 - (1) receives the written approval by the chief administrator of the state agency or institution;
 - (2) meets the rules adopted by the Comptroller regarding reimbursement for traveling outside the employee's designated headquarters for less than six consecutive hours; and
 - (3) complies with § 660.206, Government Code.

Sec. 5.07. Special Provisions Regarding Travel Expenses. Reimbursement for meals and lodging as authorized by Subchapter H, Chapter 660, Government Code, on an "actual expenses" or "actual amount of" basis may not exceed twice the maximum rates specified in § 5.06 of this Article.

TRAVEL REGULATIONS (Continued)

Sec. 5.08. **Limitation on Travel Expenditures.**

- (a) In this section “travel” refers only to travel outside the state of Texas, except as provided by Subsection (k) of this section.
- (b)
 - (1) None of the funds appropriated by this Act may be expended, without the prior approval of the Legislative Budget Board, for travel purposes if such expenditure would cause the agency’s or institution’s travel expenditures for that fiscal year to exceed the greatest of:
 - (A) 125 percent of that agency’s or institution’s fiscal year 2000 amount of travel expenditures; or
 - (B) 100 percent of that agency’s or institution’s fiscal year 2000 amount of travel expenditures plus \$10,000; or
 - (C) 100 percent of that agency’s or institution’s fiscal year 2000 amount of travel expenditures plus any excess travel expenditure amounts approved by waiver.
 - (2) The general limitations provided by this subsection apply in addition to the limits of any additional agency specific limitation.
 - (3) In the event that a state agency or institution had, as determined by the Comptroller, no expenditures for travel outside the state of Texas during fiscal year 2000, the general limitations provided by Subsection (b)(1) shall not apply, but out-of-state travel spending may not exceed in either year of the biennium the amount spent for that purpose in the last state fiscal year in which out-of-state travel occurred.
- (c) The Legislative Budget Board may consider requests from agencies which demonstrate circumstances which would make such reductions in actual travel impractical or inefficient in accomplishing the goals and strategies contained in their appropriations pattern. Such circumstances may include: new or expanded programs, law enforcement, tax collection activities, statutorily mandated travel, or other pressing public purposes.
- (d) The Comptroller shall prescribe accounting procedures and reporting requirements to administer this section and to ensure that expenditures for travel by all state agencies and institutions of higher education are properly reported and monitored.
- (e)
 - (1) Upon notification by the Comptroller that a state agency or institution of higher education has exceeded the travel cap limit as specified in Subsection (b) of this section for two consecutive fiscal years without the written approval of the Legislative Budget Board, the state agency or institution of higher education may not pay or reimburse with funds appropriated by this Act, a travel expense for travel to conventions, conferences, or seminars except as provided by this Subsection (e).
 - (2) The Comptroller may allow a state agency or institution of higher education to reimburse or pay a travel expense incurred by an employee on or after the date the agency or institution receives notice of its exceeding the limits if:
 - (A) the expense is incurred while the employee is returning to the employee’s designated headquarters;
 - (B) the reimbursement or payment is necessary to prevent unreasonable hardship to the employee; or
 - (C) the expense is incurred while the employee is completing official state business that the agency or institution deems critical to fulfillment of the agency’s or institution’s constitutional or statutory duties.
 - (3) The Comptroller shall notify the Legislative Budget Board if the Comptroller allows such a payment or reimbursement. The notification must include the reason that the payment or reimbursement is allowed. The Legislative Budget Board may then direct the Comptroller to reduce the agency’s or institution’s appropriation by the amount of the payment or

reimbursement if in the Legislative Budget Board's opinion the payment was the result of an agency failing to comply with the notification by the Comptroller.

- (f) All documents filed by an appointed officer under this section are public information. In this section, the term "public information" has the meaning provided by Chapter 552, Government Code.
- (g) In this section "appointed officer" includes all persons included under the definition provided by Chapter 572, Government Code, except that for the purposes of the definition of "appointed officer," the term "state agency" also includes a council of governments, a local workforce development board, or a mental health mental retardation community center that uses funds appropriated by this Act to pay for the transportation, meals, lodging, or other travel expenses of its employees or officials. For the purpose of this provision, the term "council of governments" shall include a council of governments, a regional planning commission, or similar regional planning agency created under Chapter 391, Local Government Code.
- (h) An appointed officer may not receive reimbursement from funds appropriated by this Act for expenses related to travel before filing with the Texas Ethics Commission copies of all documents that will be submitted to the Comptroller and Legislative Budget Board in support of the travel expense claim.
- (i) Funds appropriated by this Act may not be used to pay expenses for a trip to foreign countries, except for Canada or Mexico, unless the board or commission of each state agency and institution of higher education has approved the travel before departure. A copy of the approval must be attached to each travel voucher submitted to the Comptroller. By October 1 of each year, each agency and institution of higher education must submit a report on all foreign travel with required approvals to the Governor and the Legislative Budget Board.
- (j) In implementing this rider, state agencies shall review their travel policies in order to ensure that travel which is critical to the delivery of services consistent with the mission of the agency is not affected.
- (k) Travel expenses incurred within the Washington, D.C. area by the Office of State-Federal Relations (OSFR) and by state agencies and institutions of higher education that are represented by their employees in the Washington, D.C. office of OSFR shall be considered in-state travel for the purpose of calculating the agencies' compliance with out-of-state travel limitation provisions.

Sec. 5.09. **Travel and Per Diem of Board or Commission Members.**

- (a) As authorized by § 659.032, Government Code, the per diem of state board and commission members consists of:
 - (1) compensatory per diem, if specifically authorized by law, at \$30 per day; and
 - (2) at the rates provided by this Act for state employees, expense per diem, which includes:
 - (A) reimbursement of actual expenses for meals, at the rates provided by this Act for state employees;
 - (B) lodging at the rates provided by this Act for state employees;
 - (C) transportation at the rates provided by this Act for state employees; and
 - (D) incidental expenses.
- (b) If a law enacted after former Article 6813f, VTCS, (September 1, 1983), authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem is the amount provided by Subsection (a).
- (c) A full-time employee paid from funds appropriated by this Act may not be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.

Sec. 5.10. Travel of Advisory Committee Members.

- (a) For the purpose of this section, the term “advisory committee” has the meaning assigned by § 2110.001, Government Code.
- (b) In addition to the limits placed on reimbursement of advisory committee member expenses by this section and to the extent not otherwise limited by this Act or other law, a member of a state agency advisory committee may be reimbursed, at the rates specified in this Act for a state employee, for actual expenses for meals, lodging, transportation, and incidental expenses.
- (c) The funds appropriated by this Act may not be expended to reimburse a member of a state agency advisory committee for expenses associated with conducting committee business, including travel expenses, unless the expenditures for an advisory committee are within the limits provided by this section and other law and are:
 - (1) specifically authorized by this Act; or
 - (2) approved by the Governor and the Legislative Budget Board subsequent to the effective date of this Act.
- (d) The limitations provided by this section do not apply to an advisory committee established by the governing board of a retirement system trust fund.
- (e) The limitations provided by this section apply only to an advisory committee that is subject to Chapter 2110, Government Code.
- (f) Unless otherwise specifically provided for in this Act or by the written authorization of the Legislative Budget Board and Governor, and pursuant to Government Code, § 2110.004, total amounts expended in each fiscal year of the biennium for reimbursement of expenses for an advisory committee authorized to be reimbursed elsewhere in this Act by agencies and institutions, out of funds appropriated to those entities, may not exceed one hundred and twenty-five percent (125%) of total expenditures for reimbursement of the same advisory committee by the agency or institution in fiscal year 2003.

PART 6. GENERAL LIMITATIONS ON EXPENDITURES

Sec. 6.01. Definitions.

In this Act “unexpended balance” or the abbreviation “UB” means the unobligated balance remaining in an appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to “unexpended balance” or “UB” is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 2008, unless another meaning is clearly indicated.

Sec. 6.02. Interpretation of Estimates. In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act may not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the language of this Act appropriates all receipts or balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

Sec. 6.03. Excess Obligations Prohibited.

- (a) An agency specified in this Act may not incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named.
- (b) As a specific exception to Subsection (a) the Texas Building and Procurement Commission may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request.

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

- (c) A determination made by the Texas Building and Procurement Commission under Subsection (b) may be made for obligations incurred for the purchase or lease of automated information system equipment only if the agency has on file with the Legislative Budget Board a Biennial Operating Plan, including any amendments to the Biennial Operating Plan, and the plan has been approved by the Legislative Budget Board.
- (d) If this section is violated, the State Auditor shall certify the fact of the violation and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount equivalent to the over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation.
- (e) This provision is specified pursuant to § 10, Article XVI, Texas Constitution.

Sec. 6.04. **Interpretation of Legislative Intent.** Funds appropriated by this Act shall be expended, as nearly as practicable, for the purposes for which appropriated. In the event an agency cannot determine legislative purpose from the pattern of appropriations, the agency shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for this state.

Sec. 6.05. **Comptroller's Duty to Pay.** The Comptroller may not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

Sec. 6.06. **Last Quarter Expenditures.**

- (a) A state agency or other governmental unit using funds appropriated by this Act may not expend during the last quarter of a fiscal year more than one-third of the funds appropriated for that fiscal year.
- (b) Specifically exempted from Subsection (a) are:
 - (1) expenditures contracted for in previous quarters;
 - (2) funds required by statute, rule or regulation to be expended on a different time frame;
 - (3) seasonal employment of personnel;
 - (4) construction contracts;
 - (5) contracts dealing with purchases of food, medicines, or drugs;
 - (6) expenditures related to the Children with Special Health Care Needs program operated by the Department of State Health Services; and
 - (7) expenditures occasioned by disaster or other Act of God.
- (c) The funds exempted, under Subsection (b) may not be considered in the computation of the total funds appropriated in a fiscal year for the purpose of applying Subsection (a).

Sec. 6.07. **Employee Benefit and Debt Service Items.**

- (a) Funds appropriated in the various Articles of this Act for "Employees Retirement System," "Social Security State Match," "Benefit Replacement Pay," "Texas Public Finance Authority-G.O. Bond Debt Service Payments," and "Lease-Payments to the Texas Public Finance Authority" may be transferred between Articles to a like appropriation item without limitation as to the amount of such transfer.
- (b) An agency to which an appropriation listed under Subsection (a) is made may pool such appropriations, made in the various Articles for a common purpose, into a single cost pool for the purpose of administering the appropriation.

Sec. 6.08. **Benefits Paid Proportional by Fund.**

- (a) Unless otherwise provided, in order to maximize balances in the General Revenue Fund, payment for benefits paid from appropriated funds, including "local funds" and "education and general

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

funds” as defined in § 51.009 (a) and (c), Education Code, shall be proportional to the source of funds.

- (b) Unless otherwise specifically authorized by this Act, the funds appropriated by this Act out of the General Revenue Fund may not be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries or wages, if the salaries or wages are paid from a source other than the General Revenue Fund. Payments for employee benefit costs for salaries and wages paid from sources, including payments received pursuant to interagency agreements or as contract receipts, other than the General Revenue Fund shall be made in proportion to the source of funds from which the respective salary or wage is paid or, if the Comptroller determines that achieving proportionality at the time the payment is made would be impractical or inefficient, then the General Revenue Fund shall be reimbursed for any such payment made out of the General Revenue Fund.
- (c) The Comptroller, after consulting with the Legislative Budget Board and the State Auditor’s Office, shall develop rules to provide for the administration of this section.
- (d) Each agency or institution of higher education (including a community or junior college) having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller and the State Auditor a report demonstrating proportionality. The report shall be filed before November 20th following the close of the fiscal year for the salaries, wages, and benefits of the preceding year ended August 31. The report shall be in a format prescribed by the Comptroller in collaboration with the Legislative Budget Board and the State Auditor’s Office. The State Auditor shall at least biennially review agency and institution (including a community or junior college) compliance with the requirements of this section if the agency or institution (including a community or junior college) receives funds appropriated under Articles II, III, or VI of this Act. The Comptroller, on receipt of notification from the State Auditor of amounts disproportionately paid from General Revenue Fund appropriations, shall reduce current year General Revenue Fund appropriations of the agency or institution until such time as such amounts are repaid from sources other than the General Revenue Fund.

Sec. 6.09. **Appropriations from Special Funds.** Notwithstanding other provisions of this Act, appropriation amounts from special funds or special accounts in the General Revenue Fund are specifically limited to amounts not to exceed the actual balances and revenues available to each such fund or account.

Sec. 6.10. **Limitation on State Employment Levels.**

- (a) Without the written approval of the Governor and the Legislative Budget Board, a state agency or institution of higher education may not use funds appropriated by this Act to pay all or part of the salaries or benefits of a number of employees which would cause the number of full-time equivalent employees (FTEs) paid from funds appropriated by this Act by the state agency or institution of higher education for a fiscal quarter to exceed the figure indicated by this Act for that state agency or institution.
- (b) A request by a state agency or institution of higher education to exceed or reduce the FTE limitations established by this section must be submitted by the governing board of the state agency or institution of higher education and must include at a minimum:
 - (1) the date on which the board approved the request;
 - (2) a statement justifying the need to exceed or reduce the limitation;
 - (3) the source of funds to be used to pay any additional salaries; and
 - (4) an explanation as to why the functions of any proposed additional FTEs cannot be performed within current staffing levels.
- (c) For the purpose of Subsection (a), the number of FTEs employed by a state agency (not including an institution of higher education or an affiliated entity, the State Preservation Board, Parks and Wildlife Department, Texas School for the Blind and Visually Impaired, Texas School for the Deaf, and Texas Commission on Environmental Quality) for a fiscal quarter:

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

- (1) shall be determined in accordance with the report filed pursuant to § 2052.103, Government Code;
 - (2) shall include only employees paid with funds appropriated through this Act;
 - (3) shall not include overtime hours; and
 - (4) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.
- (d) For the purpose of Subsection (a), the number of FTEs employed by the State Preservation Board, Texas Commission on Environmental Quality, the Parks and Wildlife Department, the Texas School for the Blind and Visually Impaired, the Texas School for the Deaf, or an institution of higher education or an affiliated entity, for a fiscal year:
- (1) shall be determined in accordance with the reports filed pursuant to § 2052.103, Government Code;
 - (2) shall be an average of the four reports filed for that fiscal year;
 - (3) shall include only employees paid with funds appropriated through this Act;
 - (4) shall not include overtime hours; and
 - (5) shall include a position filled by temporary or contract workers for more than half of the work days of the year preceding the final day of the reporting period. Temporary or contract workers shall include workers employed under contract to fill specific positions customarily filled by state employees. The State Auditor is authorized to provide interpretations of this provision.
- (e) This section shall not apply to appropriations made by this Act to the:
- (1) Office of the Governor; or
 - (2) Comptroller when that agency has determined by a cost/benefit analysis that an outsourcing or contracting arrangement provides savings to this State.
- (f) The limitations on FTEs under this section do not apply to a state agency or institution in instances of employment, including employment of temporary or contract workers, directly associated with events declared disasters by the Governor. Each state agency or institution shall annually notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this section.
- (g) (1) The limitations on FTEs under this section do not apply to a state agency or institution in an instance of employment, including employment of a temporary or contract worker, if the FTEs associated with that project are not included in the number of FTEs allowed in the agency's bill pattern and the employees are associated with:
- (A) implementation of a new, unanticipated project that is 100 percent federally funded; or
 - (B) the unanticipated expansion of an existing project that is 100 percent federally funded.
- (2) With regard to the exemption from the FTE limitations provided by this Subsection (g), a state agency or institution is exempt from the FTE limitations only for the duration of the federal funding for the employment related to the project and all salaries, benefits, and other expenses incurred related to employment must be paid from federal funds.

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

- (3) This Subsection (g) does not exempt any employees associated with existing projects that are 100 percent federally funded and included in the number of FTEs allowed in the agency's bill pattern.
- (4) Each state agency or institution shall notify the State Auditor, Comptroller, Legislative Budget Board, and Governor of FTEs exempted under this Subsection (g).
- (h) If a program is transferred from a state agency or institution of higher education, then at any time during the biennium, the Legislative Budget Board and the Governor may agree to reduce the number of FTEs paid from funds appropriated by this Act by the state agency or institution of higher education for one or more fiscal quarters to a figure below that indicated by this Act for that agency or institution.

Sec. 6.11. **Purchases of Postage.**

- (a) If the expenditures for postage by an agency, other than the Legislature or an institution of higher education, exceed \$4,000 for a fiscal year, the agency shall purchase postage only in accordance with § 2113.103(c), Government Code.
- (b) The amount received by an agency as a refund of postage used by the agency shall be deposited in the fund to the credit of the appropriation from which postage for the agency is paid and is hereby appropriated to the agency for postage use.

Sec. 6.12. **Construction Policy.** A state entity receiving an appropriation under this Act may not establish a rule or policy that is inconsistent with the legislative intent that funds appropriated by this Act for construction projects be expended only pursuant to state entity policies that provide the greatest competitive advantage to the state allowable under Chapter 2258, Government Code.

Sec. 6.13. **Expenditures for State-Federal Relations.**

- (a) Funds appropriated by this Act may not be spent by a state agency to carry on functions for which funds have been appropriated to the Office of State-Federal Relations to perform except when an interagency contract has been executed between the Office of State-Federal Relations and the state agency.
- (b) Prior to travel to the Washington, D.C. area, including any trip with a destination to the Reagan-National, Dulles, or Baltimore Washington International airports, state agency personnel shall inform the Office of State-Federal Relations regarding:
 - (1) the timing of the trip;
 - (2) the purpose of the trip; and
 - (3) the name of a contact person for additional information.
- (c) Under Subsection (b) the term "travel" is limited to only activities:
 - (1) involving obtaining or spending federal funds; or
 - (2) impacting federal policies.

Sec. 6.14. **Research Policy.**

- (a) An agency may not expend any funds appropriated by this Act for research projects of any type until the agency has adopted and filed with the Legislative Budget Board a policy that clearly establishes and protects the property rights of the state with regard to any patentable product, process, or idea that might result from such research.
- (b) In order to avoid duplication, a state agency, excluding an institution of higher education, may not expend funds appropriated by this Act to conduct or support policy research on a subject within the statutory jurisdiction of another agency without providing prior written notification, to the agency that has the statutory jurisdiction, concerning a work plan and the coordination of resources.

GENERAL LIMITATIONS ON EXPENDITURES

(Continued)

Sec. 6.15. Performance Rewards and Penalties.

- (a) It is the intent of the Legislature that appropriations made by this Act be utilized in the most efficient and effective manner possible to achieve the intended mission of each state agency and institution. In order to achieve the objectives and service standards established by this Act, agencies and institutions shall make every effort to attain the designated key performance target levels associated with each item of appropriation.
- (b) To support and encourage the achievement and maintenance of these appropriated annual performance levels, continued expenditure of any appropriations in this Act shall be contingent upon compliance with the following provisions:
 - (1) Agencies and institutions, in coordination with the Legislative Budget Board, shall establish performance milestones for achieving targets within each annual budget and performance period; time frames for these milestones and the related performance reporting schedule shall be under guidelines developed by the Legislative Budget Board.
 - (2) Agencies and institutions shall provide testimony as to the reasons for any performance variances to the Senate Finance Committee and the House Appropriations Committee, as determined to be necessary by those committees; assessments of agency and institution performance shall be provided to the committees under guidelines and procedures developed by the Legislative Budget Board.
- (c) Upon a finding that an agency or institution has successfully met or exceeded performance expectations, or has failed to achieve expected performance levels, the Legislative Budget Board, and the Governor, may adopt a budget execution order, which may include but is not limited to, one or more of the following:
 - (1) Positive Incentives/Rewards - Increased funding, exemption from reporting requirements, increased funding transferability, formalized recognition or accolade, awards or bonuses, expanded responsibility, or expanded contracting authority; or
 - (2) Negative Incentives/Redirection - Evaluation of outcome variances for remedial plan, reduction of funding, elimination of funding, restriction of funding, withholding of funding, reduction of funding transferability, transfer of functional responsibility to other entity, recommendation for placement in conservatorship, direction that a management audit be conducted or direction that other remedial or corrective actions be implemented.
 - (3) The Legislative Budget Board may develop rules and procedures for the implementation of the above provisions.
 - (4) The Legislative Budget Board may request comments from the State Auditor's Office regarding performance penalties and rewards.
- (d) To further foster, support, and reward outstanding performance, ongoing productivity improvements and innovative improvement programs, and to retain key high performing employees, qualified state agencies and institutions may expend amounts necessary from funds appropriated in this Act for the purposes of enhancing compensation for employees who directly contributed to such improvements. Only classified employees (including classified employees of institutions of higher education) are eligible for enhanced compensation, and this award shall not exceed 6.8 percent of an employee's annual base pay. To be eligible for this provision, an agency or institution must:
 - (1) Achieve or exceed targets for 80 percent of the established key performance measures:
 - (A) For fiscal year 2008, eligibility shall be determined by the Legislative Budget Board based on performance reported to the Automated Budgeting and Evaluation System of Texas (ABEST) for fiscal year 2007;
 - (B) For fiscal year 2009, eligibility shall be determined by the Legislative Budget Board based on performance reported to ABEST for fiscal year 2008; and

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

- (2) Have an unqualified certification for at least 70 percent of its performance measures as shown by its most recent certification review by the State Auditor's Office; and
- (3) File a report with the Comptroller, Legislative Budget Board, Governor, House Appropriations Committee, and Senate Finance Committee describing the success of the innovative program and criteria used to assess the improvements; and
- (4) Sixty days prior to implementation file a report with the Comptroller, Legislative Budget Board, Governor, House Appropriations Committee, and Senate Finance Committee describing in detail how the agency intends to use this flexibility to further the goals of this section.

Sec. 6.16. **Bookkeeping Entries.** Should clerical or bookkeeping errors result in any monies being expended, transferred, or deposited into incorrect funds in or with the state treasury or any monies being cleared from a trust and suspense fund to other than the proper fund, such erroneously expended, transferred, deposited, or cleared monies may be transferred to the correct funds or accounts or trust and suspense account within the state treasury on request of the administering department with the concurrence of the Comptroller, and so much as is necessary for said transfer is hereby appropriated.

Sec. 6.17. **Accounting for State Expenditures.**

- (a) Notwithstanding the various patterns of appropriation established in this Act, the Comptroller shall account for the expenditure of funds appropriated by this Act in a manner that allows for the reporting of expenditures attributable to each strategy in each agency's respective Strategic Planning and Budget Structure as approved by the Governor and the Legislative Budget Board. The information shall be recorded and maintained systematically in the state accounting system in a manner that provides for the integration of the state's budget data and the state's accounting data and to facilitate the state's budget development process.
- (b) This section does not require the deposit into and subsequent disbursement of funds from the state treasury that relate to Texas Public Education Grants, Skiles Act Debt Service, or "local funds" defined in § 51.009, Education Code, except for tuition and lab fees.

Sec. 6.18. **Fee Increase Notification.** None of the funds appropriated by this Act may be expended by an agency which increases the rate of a fee assessed by that agency unless the agency provides a notice to the payer of the fee that the fee rate was set by the agency or its governing board and not mandated by the Legislature.

Sec. 6.19. **Consolidated Funds.** Contingent on the enactment of legislation relating to the dedication of funds, the Comptroller, on approval of the Legislative Budget Board, may change an applicable agency's method of financing source name as provided in this Act to reflect changes made by the other legislation that affects the status of the funding source. No change in the amount of the appropriation would be affected by this change.

Sec. 6.20. **Demographic and Statistical Studies.** Before expending funds appropriated by the Act for the purpose of contracting for a consultant or other private assistance in performing a study required by the Legislature that includes statistical or demographic analysis of data, the agency conducting the study shall determine if the resources of the Texas Legislative Council or the Office of the State Demographer and the Texas State Data Center at The University of Texas at San Antonio are available to assist the agency in designing or conducting that component of the study.

Sec. 6.21. **Cost Allocations.** For the purpose of more effective and efficient identification and allocation of costs, and to effect timely payments to employees and vendors, agencies may temporarily charge salary and/or operating costs to appropriations most applicable for the expense being incurred. Upon receipt of more specific information such as personnel-time allocation information for payrolls, or allocation of office supplies or other goods and services, agencies may reimburse the original paying appropriations by transfer from the appropriation to which the expenditure should have been charged.  - (2) “Quality Assurance Team” and “QAT” means the quality assurance team established under § 2054.158, Government Code.
- (b) A state agency may not expend appropriated funds for a major information resources project unless the project has been reviewed and approved by the Legislative Budget Board in the agency’s biennial operating plan and the QAT. The QAT shall determine approval based on an analysis of the project’s risk. The QAT may request any information necessary to determine a project’s potential risk. The QAT may waive the project review requirements for a project.
- (c) The QAT may require independent project monitoring, project status reporting, project expenditure reporting, or any additional information necessary to assess a project’s on-going potential for success. After a project has been completed, the QAT may also require an agency to submit a project post-implementation evaluation report to determine if the project met its planned objectives. The QAT may take any additional actions or request information as specified in § 2054.1181, Government Code.
- (d) On request by the QAT, the State Auditor’s Office shall provide audit and review of the projects and the information provided by the agencies.
- (e) The QAT may request the assistance of the Comptroller in regard to the accuracy of project expenditures and compliance with this Act.

 - (2) send the evaluation to the Legislative Audit Committee.
- (h) The Legislative Budget Board may issue guidelines for software development, quality assurance, and the review of major information resources projects.

Sec. 9.03. **Biennial Operating Plan and Information Resources Strategic Plan Approval.** It is the intent of the Legislature that agencies and institutions of higher education receiving appropriated funds for the acquisition of information technology must have a current Information Resources Strategic Plan and a Biennial Operating Plan including any amendments as approved by the Legislative Budget Board prior to expending any funds for information technology. Information Technology items identified in the Capital Budget Rider must be included and approved in the Biennial Operating Plan or a subsequently approved amendment of the Biennial Operating Plan. The Legislative Budget Board may direct the Comptroller to deny the agency or institution of higher education access to information technology appropriations for non-compliance.

Sec. 9.04. **Information Technology Replacement.** It is the intent of the Legislature that agencies and institutions of higher education receiving appropriated funds for the acquisition of information technology perform a cost-benefit analysis of leasing versus purchasing information technology and develop a personal computer replacement schedule. Agencies and institutions of higher education should use the Department of Information Resources' (DIR) Guidelines for Lease versus Purchase of Information Technologies to evaluate costs and DIR's PC Life Cycles: Guidelines for Establishing Life Cycles for Personal Computers to prepare a replacement schedule.

Sec. 9.05. **TexasOnline Project: Occupational Licenses.** Each licensing entity not otherwise authorized to increase occupational license fees elsewhere in this Act is authorized to increase the occupational license or permit fees imposed on the licensing entity's licensees by an amount sufficient to cover the cost of the subscription fee charged by the TexasOnline Project to the licensing entity pursuant to Chapter 2054, Government Code. Each licensing entity provided by Chapter 2054, Government Code and not otherwise authorized to increase occupational license fees elsewhere in this Act is hereby appropriated the additional occupational license or permit fees in excess of the Comptroller's biennial revenue estimate 2008–09 for the sole purpose of payment to the TexasOnline contractor subscription fees for implementing and maintaining electronic services for the licensing entities. Each agency, upon completion of necessary actions to access or increase fees, shall furnish copies of board meeting minutes, an annual schedule of the number of license issuances or renewals and associated annual fee total, and any other supporting documentation to the Comptroller. If the Comptroller finds the information sufficient to support the projection of increased revenues, a notification letter will be issued and the contingent appropriation made available for the intended purposes.

Sec. 9.06. **Texas Online Project: Cost Recovery Fees.** Any cost recovery fees, excluding subscription fees as defined in Subchapter I, Chapter 2054, Government Code, approved by the Department of Information Resources in relation to the TexasOnline Project as authorized under Chapter 2054, Government Code, are hereby appropriated to that agency from the fund to which the fee was deposited for the purpose of paying the costs associated with implementing and maintaining electronic services.

At the beginning of the following fiscal year, the agency shall transfer into the Savings Measurement Account the remaining share of the projected net savings or revenues for each approved suggestion.
 - (2) At the conclusion of the implementation period for an approved and implemented suggestion, the amount of net savings or revenues certified by the agency and the State Council on Competitive Government shall be compared with the balance in the Savings Measurement Account for that employee suggestion.  - (2) On March 1 of each fiscal year, SORM shall determine, based on actual costs since the beginning of the fiscal year and other estimated costs, the remaining assessment due from each agency. SORM shall prepare a statement reflecting the remaining assessments due from each agency and present the statement to the Comptroller. Each agency shall transfer to SORM the remaining assessed allocation amounts for workers’ compensation coverage for their employees from funding in the same proportion as their expected payroll funding, including General Revenue Funds, dedicated General Revenue Fund accounts, Other Funds or local bank accounts.

- (h) Amounts not to exceed 2 percent in total of workers’ compensation annual expenditures may be awarded to agencies by SORM for the purposes of risk management and loss prevention. In the event that Strategy A.1.1, Workers’ Compensation Payments, funded by the annual assessments to agencies, exceeds 110 percent of the expected annual payments, the portion of the excess over 110 percent funded from all funding sources shall be returned to agencies. The excess returned to the agencies by SORM is appropriated to the agencies for expenditures consistent with the original funding source. An all funds excess of 10 percent or less will be used to lower the cumulative assessments to agencies the following year.
- (i) In the event the total assessments in any year prove insufficient to fund expenditures, SORM may, with the approval of the Legislative Budget Board, temporarily utilize additional general revenue in an amount not to exceed 20 percent of the cumulative assessments for that fiscal year. Any additional general revenue funds will be utilized only for the purpose of temporary cash flow and must be repaid upon receipt of the following year’s assessments in accordance with procedures established by the Comptroller. All transfers from and repayments to the General Revenue Fund shall be reported by SORM to the Legislative Budget Board.

(3) The amounts appropriated above include \$443,095 in fiscal year 2008 and \$1,329,285 in fiscal year 2009 in General Revenue Funds to the Texas Alcoholic Beverage Commission for Schedule C pay raises. These appropriations are contingent upon the Texas Alcoholic Beverage Commission increasing fees and surcharges, pursuant to § 5.50, Alcoholic Beverage Code, by \$1,772,380 and providing such information deemed necessary by the Comptroller of Public Accounts to issue a finding of fact that the increased revenues are estimated to be available in excess of the Comptroller’s Biennial Revenue Estimate, including supplemental estimates used in certifying this Act, to fund the increased appropriations and benefits.

Contingency Appropriation. It is the intent of the Legislature that by the end of business on September 1, 2007, the Department of State Health Services shall attempt to identify and obtain qualified federal funds which are authorized for the procurement of \$20 million of pharmaceutical countermeasures approved by the U.S. Food and Drug Administration to treat individuals contaminated with radioactive cesium. It is the intent of the Legislature that by the end of business on September 1, 2007, the Department of State Health Services shall report to the Office of the Governor and the Legislative Budget Board the result of the Department’s efforts to obtain those qualified federal funds for the procurement of the pharmaceuticals. If the Department of State Health Services obtains at least \$20 million in qualified federal funding then the Department of State Health Services is hereby appropriated those qualified federal funds for the purchase of the pharmaceuticals and shall purchase the pharmaceuticals and then transfer the pharmaceuticals to the Department of Public Safety Emergency Management Division. The Department of Public Safety Emergency Management Division shall stockpile such pharmaceuticals for the purpose of treating state and local emergency first responders, other emergency personnel, and the general public in the State of Texas who might be contaminated with radioactive cesium. If the Department of State Health Services fails to secure at least \$20 million in qualified federal funds by the end of business on September 1, 2007, the Department of Public Safety Emergency Management Division is hereby appropriated \$20 million from the General Revenue Fund (or if the Department secures part of the \$20 million qualified funding, then the amount from the General Revenue Fund necessary to total \$20 million) to purchase and stockpile such pharmaceutical countermeasures for the purpose of treating state and local emergency first responders, other emergency personnel, and the general public in the State of Texas who might be contaminated with radioactive cesium. It is the intent of the Legislature that the Department of State Health Services assist the Department of Public Safety Emergency Management Division in preparing a plan to be submitted to the Office of the Governor and the Legislative Budget Board by the end of business September 1, 2007 for the implementation and management of a program to stockpile the pharmaceutical assets.
