Section 45.5 of this bill makes an appropriation for the design and implementation of the state business portal.

WHEREAS, Historically, various state and local governmental agencies have often required businesses to submit various applications for necessary licenses, permits and approvals, through the use of numerous forms and formats and multiple web sites, as determined by those separate agencies; and

WHEREAS, Advances in information technology enable governmental agencies to make the exchange of information from business to government, from government to business, and across

governmental agencies more efficient and effective for all parties; and

WHEREAS, States that make required transactions among businesses and governmental agencies faster, easier and cheaper than other states provide a competitive advantage for businesses under their jurisdiction and thereby encourage economic development within their jurisdiction; and

WHEREAS, The State of Nevada should strive to become the national leader for online interaction between business and government; and

WHEREAS, The establishment of a state business portal by the Secretary of State would provide a single, secure portal for the transaction of business and would improve efficiency, eliminate redundancy, streamline the establishment of businesses, improve accountability and enhance economic development in this State; now, therefore,
