The department shall select an agency in a county having a population of 500,000 or more and not more than 4 county departments to participate in the pilot program in accordance with the department's request−for−proposal procedures and according to criteria developed by the department. (3) is otherwise necessary to ensure the safety of the child and his or her family, the agency or county department shall immediately commence an investigation under sub. (3).

3. If the agency or county department determines that there is no reason to suspect that abuse or neglect has occurred or is likely to occur, the agency or county department shall refer the child's family to a service provider in the community for the provision of appropriate services on a voluntary basis. If the agency or county department employs the community services response under this subdivision, the agency or county department is not required to conduct an assessment under subd. 2., refer the report to the sheriff or police department under sub. (3) (a) 3., or determine by a preponderance of the evidence under sub. (3) (c) 4. that abuse or neglect has occurred or is likely to occur or that a specific person has abused or neglected the child.

Those specific measurements shall include all of the following:

7g. The rate at which children referred for each type of response specified in par. (c) 1. to 3. are subsequently the subjects of reports of suspected or threatened abuse or neglect.

62.62 Appropriation bonds for payment of employee retirement system liability in 1st class cities. (1) DEFINITIONS. In this section:

(a) "Appropriation bond" means a bond issued by a city to evidence its obligation to repay a certain amount of borrowed money that is payable from all of the following:

1. Moneys annually appropriated by law for debt service due with respect to such appropriation bond in that year.

2. Proceeds of the sale of such appropriation bonds.

3. Payments received for that purpose under agreements and ancillary arrangements described in s. 62.621.

4. Investment earnings on amounts in subds. 1. to 3.

(b) "Bond" means any bond, note, or other obligation of a city issued under this section.

(c) "City" means a 1st class city.

(d) "Common Council" means the common council of a city.

(e) "Refunding bond" means an appropriation bond issued to fund or refund all or any part of one or more outstanding pension−related bonds.

(1m) LEGISLATIVE FINDING AND DETERMINATION. Recognizing that a city, by prepaying part or all of the city's unfunded prior service liability with respect to an employee retirement system of the city, may reduce its costs and better ensure the timely and full payment of retirement benefits to participants and their beneficiaries under the employee retirement system, the legislature finds and determines that it

is in the public interest for the city to issue appropriation bonds to obtain proceeds to pay its unfunded prior service liability.

(2) AUTHORIZATION OF APPROPRIATION BONDS. (a) A common council shall have all powers necessary and convenient to carry out its duties, and to exercise its authority, under this section.

(b) Subject to pars. (c) and (d), a common council may issue appropriation bonds under this section to pay all or any part of the city's unfunded prior service liability with respect to an employee retirement system of the city, or to fund or refund outstanding appropriation bonds issued under this section. A city may use proceeds of appropriation bonds to pay issuance or administrative expenses, to make deposits to reserve funds, to pay accrued or funded interest, to pay the costs of credit enhancement, to make payments under other agreements entered into under s. 62.621, or to make deposits to stabilization funds established under s. 62.621.

(c) Other than refunding bonds issued under sub. (6), all bonds must be issued simultaneously.

(d) 1. Before a city may issue appropriation bonds under par. (b), its common council shall enact an ordinance that establishes a 5−year strategic and financial plan related to the payment of all or any part of the city's unfunded prior service liability with respect to an employee retirement system of the city. The strategic and financial plan shall provide that future annual pension liabilities are funded on a current basis. The strategic and financial plan shall contain quantifiable benchmarks to measure compliance with the plan. The common council shall make a determination that the ordinance meets the requirements of this subdivision and, absent manifest error, the common council's determination shall be conclusive. The common council shall submit to the governor and to the chief clerk of each house of

the legislature, for distribution to the legislature under s. 13.172 (2), a copy of the strategic and financial plan.

2. Annually, the city shall submit to the governor, the department of revenue, and the department of administration, and to the chief clerk of each house of the legislature, for distribution to the legislature under s. 13.172 (2), a report that includes all of the following:

a. The city's progress in meeting the benchmarks in the strategic and financial plan.

b. Any proposed modifications to the plan.

c. The status of any stabilization fund that is established under s. 62.622 (3).

d. The most current actuarial report related to the city's employee retirement system.

e. The amount, if any, by which the city's contributions to the employee retirement system for the prior year is less than the normal cost contribution for that year as specified in the initial actuarial report for the city's employee retirement system for that year.

f. The amount that the actuary determines is the city's required contribution to the employee retirement system for that year.

(2m) PENALTY FOR INADEQUATE CONTRIBUTION. If the city's contributions to the employee retirement system for the prior year is less than the lower of the required contribution for that year, as described in sub. (2) (d) 2. f., or the normal cost for that year, the department of revenue shall reduce and withhold the amount of the shared revenue payments to the city under subch. I of ch. 79, in the following year, by an amount equal to the difference between the required cost contribution for that prior year and the city's actual contribution in that prior year. The department of revenue

shall deposit the amount of the reduced and withheld shared revenue payment into the city's employee retirement system.

(3) TERMS. (a) A city may borrow moneys and issue appropriation bonds in evidence of the borrowing pursuant to one or more written authorizing resolutions under sub. (4). Unless otherwise provided in an authorizing resolution, the city may issue appropriation bonds at any time, in any specific amounts, at any rates of interest, for any term, payable at any intervals, at any place, in any manner, and having any other terms or conditions that the common council considers necessary or desirable. Appropriation bonds may bear interest at variable or fixed rates, bear no interest, or bear interest payable only at maturity or upon redemption prior to maturity.

(b) The common council may authorize appropriation bonds having any provisions for prepayment the common council considers necessary or desirable, including the payment of any premium.

(c) Interest shall cease to accrue on an appropriation bond on the date that the appropriation bond becomes due for payment if payment is made or duly provided for.

(d) All moneys borrowed by a city that is evidenced by appropriation bonds issued under this section shall be lawful money of the United States, and all appropriation bonds shall be payable in such money.

(e) All appropriation bonds owned or held by a fund of the city are outstanding in all respects, and the common council or other governing body controlling the fund shall have the same rights with respect to an appropriation bond as a private party, but if any sinking fund acquires appropriation bonds that gave rise to such fund, the

appropriation bonds are considered paid for all purposes and no longer outstanding and shall be canceled as provided in sub. (7) (d).

(f) A city shall not be generally liable on appropriation bonds, and appropriation bonds shall not be a debt of the city for any purpose whatsoever. Appropriation bonds, including the principal thereof and interest thereon, shall be payable only from amounts that the common council may, from year to year, appropriate for the payment thereof.

(4) PROCEDURES. (a) No appropriation bonds may be issued by a city unless the issuance is pursuant to a written authorizing resolution adopted by a majority of a quorum of the common council. The resolution may be in the form of a resolution or trust indenture, and shall set forth the aggregate principal amount of appropriation bonds authorized thereby, the manner of their sale, and the form and terms thereof. The resolution or trust indenture may establish such funds and accounts, including a reserve fund, as the common council determines.

(b) Appropriation bonds may be sold at either public or private sale and may be sold at any price or percentage of par value. All appropriation bonds sold at public sale shall be noticed as provided in the authorizing resolution. Any bid received at public sale may be rejected.

(5) FORM. (a) As determined by the common council, appropriation bonds may be issued in book−entry form or in certificated form. Notwithstanding s. 403.104 (1), every evidence of appropriation bond is a negotiable instrument.

(b) Every appropriation bond shall be executed in the name of and for the city by the president of the common council and city clerk, and shall be sealed with the seal of the city, if any. Facsimile signatures of either officer may be imprinted in lieu of manual signatures, but the signature of at least one such officer shall be manual.

An appropriation bond bearing the manual or facsimile signature of a person in office at the same time the signature was signed or imprinted shall be fully valid notwithstanding that before or after the delivery of such appropriation bond the person ceased to hold such office.

(c) Every appropriation bond shall be dated not later than the date it is issued, shall contain a reference by date to the appropriate authorizing resolution, shall state the limitation established in sub. (3) (f), and shall be in accordance with the appropriate authorizing resolution in all respects.

(d) An appropriation bond shall be substantially in such form and contain such statements or terms as determined by the common council, and may not conflict with law or with the appropriate authorizing resolution.

(6) REFUNDING BONDS. (a) 1. A common council may authorize the issuance of refunding appropriation bonds. Refunding appropriation bonds may be issued, subject to any contract rights vested in owners of the appropriation bonds being refunded, to refund all or any part of one or more issues of appropriation bonds notwithstanding that the appropriation bonds may have been issued at different times or issues of general obligation promissory notes under s. 67.12 (12) were issued to pay unfunded prior service liability with respect to an employee retirement system. The principal amount of the refunding appropriation bonds may not exceed the sum of: the principal amount of the appropriation bonds or general obligation promissory notes being refunded; applicable redemption premiums; unpaid interest on the refunded appropriation bonds or general obligation promissory notes to the date of delivery or exchange of the refunding appropriation bonds; in the event the proceeds are to be deposited in trust as provided in par. (c), interest to accrue on the appropriation bonds or general obligation promissory notes to be refunded from the

date of delivery to the date of maturity or to the redemption date selected by the common council, whichever is earlier; and the expenses incurred in the issuance of the refunding appropriation bonds and the payment of the refunded appropriation bonds or general obligation promissory notes.

2. A common council may authorize the issuance of general obligation promissory notes under s. 67.12 (12) (a) to refund appropriation bonds, notwithstanding s. 67.01 (9) (intro.).

(b) If a common council determines to exchange refunding appropriation bonds, they may be exchanged privately for, and in payment and discharge of, any of the outstanding appropriation bonds being refunded. Refunding appropriation bonds may be exchanged for such principal amount of the appropriation bonds being exchanged therefor as may be determined by the common council to be necessary or desirable. The owners of the appropriation bonds being refunded who elect to exchange need not pay accrued interest on the refunding appropriation bonds if and to the extent that interest is accrued and unpaid on the appropriation bonds being refunded and to be surrendered. If any of the appropriation bonds to be refunded are to be called for redemption, the common council shall determine which redemption dates are to be used, if more than one date is applicable and shall, prior to the issuance of the refunding appropriation bonds, provide for notice of redemption to be given in the manner and at the times required by the resolution authorizing the appropriation bonds to be refunded.

(c) 1. The principal proceeds from the sale of any refunding appropriation bonds shall be applied either to the immediate payment and retirement of the appropriation bonds or general obligation promissory notes being refunded or, if the bonds or general obligation promissory notes have not matured and are not presently

redeemable, to the creation of a trust for, and shall be pledged to the payment of, the appropriation bonds or general obligation promissory notes being refunded.

2. If a trust is created, a separate deposit shall be made for each issue of appropriation bonds or general obligation promissory notes being refunded. Each deposit shall be with a bank or trust company authorized by the laws of the United States or of a state in which it is located to conduct banking or trust company business. If the total amount of any deposit, including moneys other than sale proceeds but legally available for such purpose, is less than the principal amount of the appropriation bonds or general obligation promissory notes being refunded and for the payment of which the deposit has been created and pledged, together with applicable redemption premiums and interest accrued and to accrue to maturity or to the date of redemption, then the application of the sale proceeds shall be legally sufficient only if the moneys deposited are invested in securities issued by the United States or one of its agencies, or securities fully guaranteed by the United States, and only if the principal amount of the securities at maturity and the income therefrom to maturity will be sufficient and available, without the need for any further investment or reinvestment, to pay at maturity or upon redemption the principal amount of the appropriation bonds or general obligation promissory notes being refunded together with applicable redemption premiums and interest accrued and to accrue to maturity or to the date of redemption. The income from the principal proceeds of the securities shall be applied solely to the payment of the principal of and interest and redemption premiums on the appropriation bonds or general obligation promissory notes being refunded, but provision may be made for the pledging and disposition of any surplus.

3. Nothing in this paragraph may be construed as a limitation on the duration of any deposit in trust for the retirement of appropriation bonds or general obligation promissory notes being refunded that have not matured and that are not presently redeemable. Nothing in this paragraph may be constructed to prohibit reinvestment of the income of a trust if the reinvestments will mature at such times that sufficient moneys will be available to pay interest, applicable premiums, and principal on the appropriation bonds or general obligation promissory notes being refunded.

(7) FISCAL REGULATIONS. (a) All appropriation bonds shall be registered by the city clerk or city treasurer of the city issuing the appropriation bonds, or such other officers or agents, including fiscal agents, as the common council may determine. After registration, no transfer of an appropriation bond is valid unless made by the registered owner's duly authorized attorney, on the records of the city and similarly noted on the appropriation bond. The city may treat the registered owner as the owner of the appropriation bond for all purposes. Payments of principal and interest shall be by electronic funds transfer, check, share draft, or other draft to the registered owner at the owner's address as it appears on the register, unless the common council has otherwise provided. Information in the register is not available for inspection and copying under s. 19.35 (1). The common council may make any other provision respecting registration as it considers necessary or desirable.

(b) The common council may appoint one or more trustees or fiscal agents for each issue of appropriation bonds. The city treasurer may be designated as the trustee and the sole fiscal agent or as cofiscal agent for any issue of appropriation bonds. (4)~~ that the request is frivolous, the department shall charge the person making the request $250 or the actual cost of the inspection, whichever is greater. In order to find that a request is frivolous, the department must find that the person making the request made the request in bad faith, solely for the purpose of harassing or maliciously injuring the contractor, subcontractor, or agent subject to the inspection, or that the person making the request knew, or should have known, that there was no reasonable basis for believing that a violation of this section had been committed.

(3) COVERED EMPLOYEES. (a) Subject to par. (b), all of the following employees shall be paid the prevailing wage rate determined under sub. (4) and may not be permitted to work a greater number of hours per day or per week than the prevailing hours of labor, unless they are paid for all hours worked in excess of the prevailing hours of labor at a rate of at least 1.5 times their hourly basic rate of pay:

(b) Notwithstanding par. (a) 1., a laborer, worker, mechanic, or truck driver who is regularly employed to process, manufacture, pick up, or deliver materials or products from a commercial establishment that has a fixed place of business from which the establishment regularly supplies processed or manufactured materials or products is not entitled to receive the prevailing wage rate determined under sub. (c) A truck driver who is an owner−operator of a truck shall be paid separately for his or her work and for the use of his or her truck.

(4) INVESTIGATION; DETERMINATION. (a) Before the owner or developer of any publicly funded private construction project enters into a contract or solicits bids on a contract for the performance of any work to which this section applies, the owner or developer shall apply to the department to determine the prevailing wage rate for each trade or occupation required in the work under contemplation in the area in which the project is located. The department shall conduct investigations and hold public hearings as necessary to define the trades or occupations that are commonly employed on publicly funded private construction projects that are subject to this section and to inform itself as to the prevailing wage rates in all areas of the state for those trades or occupations in order to determine the prevailing wage rate for each trade or occupation. The department shall issue its determination within 30

days after receiving the request and shall file the determination with the owner or developer applying for the determination and with the local governmental unit providing financial assistance for the project. For the information of the employes working on the project, the prevailing wage rates determined by the department, the prevailing hours of labor, and the provisions of subs. (2) and (9) shall be kept posted by the owner or developer in at least one conspicuous and easily accessible place on the site of the project.

(b) The department shall, by January 1 of each year, compile the prevailing wage rates for each trade or occupation in each area. The compilation shall, in addition to the current prevailing wage rates, include future prevailing wage rates when those prevailing wage rates can be determined for any trade or occupation in any area and shall specify the effective date of those future prevailing wage rates. If a publicly funded private construction project that is subject to this section extends into more than one area there shall be but one standard of prevailing wage rates for the entire private construction project.

(c) In determining prevailing wage rates under par. (a) or (b), the department may not use data from projects that are subject to this section, s. 66.0903, 103.49, or 103.50 or 40 USC 3142 unless the department determines that there is insufficient wage data in the area to determine those prevailing wage rates, in which case the department may use data from projects that are subject to this section, s. 66.0903, 103.49, or 103.50 or 40 USC 3142.

(d) Any person may request a recalculation of any portion of an initial determination within 30 days after the initial determination date if the person submits evidence with the request showing that the prevailing wage rate for any given trade or occupation included in the initial determination does not represent the

prevailing wage rate for that trade or occupation in the area. The evidence shall include wage rate information reflecting work performed by persons working in the contested trade or occupation in the area during the current survey period. The department shall affirm or modify the initial determination within 15 days after the date on which the department receives the request for recalculation.

(e) In addition to the recalculation under par. (d), the owner or developer that requested the determination under this subsection may request a review of any portion of the determination within 30 days after the date of issuance of the determination if the owner or developer submits evidence with the request showing that the prevailing wage rate for any given trade or occupation included in the determination does not represent the prevailing wage rate for that trade or occupation in the city, village, or town in which the proposed publicly funded private construction project is located. That evidence shall include wage rate information for the contested trade or occupation on at least 3 similar projects located in the city, village, or town where the proposed publicly funded private construction project is located on which some work has been performed during the current survey period and which were considered by the department in issuing its most recent compilation under par. (b). The department shall affirm or modify the determination within 15 days after the date on which the department receives the request for review.

(5) NONAPPLICABILITY. This section does not apply to any of the following:

(a) A publicly funded private construction project that receives less than $1,000,000 in direct financial assistance from a local governmental unit.

(b) A publicly funded private construction project in which the labor for the project is provided by unpaid volunteers.

(c) Minor service, maintenance, or warranty work.

(6) EXEMPTIONS. The department, upon petition of any owner or developer contracting for a publicly funded private construction project that is subject to this section, shall issue an order exempting the owner or developer from applying to the department for a determination under sub. (4) when it is shown that the project is also subject to an ordinance or other enactment of a local governmental unit that sets forth standards, policy, procedure, and practice resulting in standards as high or higher than those under this section.

(7) COMPLIANCE. (a) When the department finds that an owner or developer has not requested a determination under sub. (4) (a) or that an owner, developer, contractor, or subcontractor has not physically incorporated a determination into a contract or subcontract as required under sub. (2) (b) or has not notified a minor subcontractor of a determination in the manner prescribed by the department by rule promulgated under sub. (2) (b), the department shall notify the owner, developer, contractor, or subcontractor of the noncompliance and shall file the determination with the owner, developer, contractor, or subcontractor within 30 days after the notice.

(b) Upon completion of a publicly funded private construction project that is subject to this section and before receiving final payment for his or her work on the private construction project, each agent or subcontractor shall furnish the contractor with an affidavit stating that the agent or subcontractor has complied fully with the requirements of this section. A contractor may not authorize final payment until the affidavit is filed in proper form and order.

(c) Upon completion of a publicly funded private construction project that is subject to this section and before receiving final payment for his or her work on the project, each contractor shall file with the owner or developer contracting for the

work an affidavit stating that the contractor has complied fully with the requirements of this section and that the contractor has received an affidavit under par. (b) from each of the contractor's agents and subcontractors. An owner or developer may not authorize a final payment until the affidavit is filed in proper form and order. If an owner or developer authorizes a final payment before the affidavit is filed in proper form and order or if the department determines, based on the greater weight of the credible evidence, that any person performing the work specified in sub. (3) has been or may have been paid less than the prevailing wage rate or less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor and requests that the owner or developer withhold all or part of the final payment, but the owner or developer fails to do so, the owner or developer is liable for all back wages payable up to the amount of the final payment.

(8) RECORDS; INSPECTION; ENFORCEMENT. (a) Each contractor, subcontractor, or agent performing work on a publicly funded private construction project that is subject to this section shall keep full and accurate records clearly indicating the name and trade or occupation of every person performing the work described in sub. (3) and an accurate record of the number of hours worked by each of those persons and the actual wages paid for the hours worked.

(am) 1. Except as provided in this subdivision, by no later than the end of the first week of a month following a month in which a contractor, subcontractor, or contractor's or subcontractor's agent performs work on a publicly funded private construction project that is subject to this section, the contractor, subcontractor, or agent shall submit to the department in an electronic format a certified record of the information specified in par. (a) for that preceding month. This requirement does not

apply with respect to a person performing the work described in sub. (3) who is covered under a collective bargaining agreement. In that case, the contractor, subcontractor, or agent shall submit to the department in an electronic format a copy of the collective bargaining agreement by no later than the end of the first week of the first month in which the contractor, subcontractor, or agent performs work on the project of public works.

2. The department shall post on its Internet site all certified records and collective bargaining agreements submitted to the department under subd. 1., except that the department may not post on that site the name of or any other personally identifiable information relating to any employee of a contractor, subcontractor, or agent that submits information to the department under subd. 1. In this subdivision, "personally identifiable information" does not include an employee's trade or occupation, his or her hours of work, or the wages paid for those hours worked.

(b) The department or the local governmental unit providing financial assistance for a publicly funded private construction project may demand and examine, and every contractor, subcontractor, and contractor's or subcontractor's agent shall keep, and furnish upon request by the department or local governmental unit, copies of payrolls and other records and information relating to the wages paid to persons performing the work described in sub. (3) for work to which this section applies. The department may inspect records in the manner provided in ch. 103. Every contractor, subcontractor, or agent performing work on a publicly funded private construction project that is subject to this section is subject to the requirements of ch. 103 relating to the examination of records. Section 111.322 (2m)

applies to discharge and other discriminatory acts arising in connection with any proceeding under this section.

(c) If requested by any person, the department shall inspect the payroll records of any contractor, subcontractor, or contractor's or subcontractor's agent performing work on a publicly funded private construction project that is subject to this section to ensure compliance with this section. In the case of a request made by a person performing the work specified in sub. (3), if the department finds that the contractor, subcontractor, or agent subject to the inspection is in compliance and that the request if frivolous, the department shall charge the person making the request the actual cost of the inspection. In the case of a request made by a person not performing the work specified in sub. (3), if the department finds that the contractor, subcontractor, or agent subject to the inspection is in compliance and that the request is frivolous, the department shall charge the person making the request $250 or the actual cost of the inspection, whichever is greater. In order to find that a request is frivolous, the department must find that the person making the request made the request in bad faith, solely for the purpose of harassing or maliciously injuring the contractor, subcontractor, or agent subject to the inspection, or that the person making the request knew, or should have known, that there was no reasonable basis for believing that a violation of this section had been committed.

(d) Section 103.005 (5) (f), (11), (12), and (13) applies to this section, except that s. 103.005 (12) (a) does not apply to any person who fails to provide any information to the department to assist the department in determining prevailing wage rates under sub. (4) (a) or (b). Section 111.322 (2m) applies to discharge and other discriminatory acts arising in connection with any proceeding under this section, including proceedings under sub. (9) (a).

(9) LIABILITY AND PENALTIES. (a) Any contractor, subcontractor, or contractor's or subcontractor's agent who fails to pay the prevailing wage rate determined by the department under sub. (4) or who pays less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor is liable to any affected employee in the amount of his or her unpaid wages or his or her unpaid overtime compensation and in an additional equal amount as liquidated damages. An action to recover the liability may be maintained in any court of competent jurisdiction by any employee for and in behalf of that employee and other employees similarly situated. No employee may be a party plaintiff to the action unless the employee consents in writing to become a party and the consent is filed in the court in which the action is brought. Notwithstanding s. 814.04 (1), the court shall, in addition to any judgment awarded to the plaintiff, allow reasonable attorney fees and costs to be paid by the defendant.

(b) 1. Except as provided in subds. 2., 4., and 6., any contractor, subcontractor, or contractor's or subcontractor's agent who violates this section may be fined not more than $200 or imprisoned for not more than 6 months or both. Each day that any violation continues is considered a separate offense.

2. Whoever induces any person who seeks to be or is employed on any publicly funded private construction project that is subject to this section to give up, waive, or return any part of the wages to which the person is entitled under the contract governing the project, or who reduces the hourly basic rate of pay normally paid to a person for work on a project that is not subject to this section during a week in which the person works both on a project that is subject to this section and on a project that is not subject to this section, by threat not to employ, by threat of dismissal from employment, or by any other means is guilty of an offense under s. 946.15 (1).

3. Any person employed on a publicly funded private construction project that is subject to this section who knowingly permits a contractor, subcontractor, or contractor's or subcontractor's agent to pay him or her less than the prevailing wage rate set forth in the contract governing the project, who gives up, waives, or returns any part of the compensation to which he or she is entitled under the contract, or who gives up, waives, or returns any part of the compensation to which he or she is normally entitled for work on a project that is not subject to this section during a week in which the person works both on a project that is subject to this section and on a project that is not subject to this section, is guilty of an offense under s. 946.15 (2).

4. Whoever induces any person who seeks to be or is employed on any publicly funded private construction project that is subject to this section to permit any part of the wages to which the person is entitled under the contract governing the project to be deducted from the person's pay is guilty of an offense under s. 946.15 (3), unless the deduction would be permitted under 29 CFR 3.5 or 3.6 from a person who is working on a project that is subject to 40 USC 3142.

5. Any person employed on a publicly funded private construction project that is subject to this section who knowingly permits any part of the wages to which he or she is entitled under the contract governing the project to be deducted from his or her pay is guilty of an offense under s. 946.15 (4), unless the deduction would be permitted under 29 CFR 3.5 or 3.6 from a person who is working on a project that is subject to 40 USC 3142.

6. Subdivision 1. does not apply to any person who fails to provide any information to the department to assist the department in determining prevailing wage rates under sub. (4) (a) or (b).

(10) DEBARMENT. (a) Except as provided under pars. (b) and (c), the department shall notify any owner or developer applying for a determination under sub. (4) and any owner or developer that is exempt under sub. (6) of the names of all persons whom the department has found to have failed to pay the prevailing wage rate determined under sub. The department shall include with each name the address of the person and shall specify when the person failed to pay the prevailing wage rate and when the person paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor. An owner or developer may not award any contract to the person unless otherwise recommended by the department or unless 3 years have elapsed from the date on which the department issued its findings or date of final determination by a court of competent jurisdiction, whichever is later.

(b) The department may not include in a notification under par. (a) the name of any person on the basis of having let work to a person whom the department has found to have failed to pay the prevailing wage rate determined under sub. (4) or has found to have paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor.

(c) This subsection does not apply to any contractor, subcontractor, or contractor's or subcontractor's or agent that in good faith commits a minor violation of this section, as determined on a case−by−case basis through administrative hearings with all rights to due process afforded to all parties or that has not exhausted or waived all appeals.

(d) Any person submitting a bid or negotiating a contract on a publicly funded private construction project that is subject to this section shall, on the date on which the person submits the bid, identify any construction business in which the person, or a shareholder, officer, or partner of the person, if the person is a business, owns, or has owned at least a 25 percent interest on the date the person submits the bid or at any other time within 3 years preceding the date on which the person submits the bid or negotiates the contract, if the business has been found to have failed to pay the prevailing wage rate determined under sub. (4) or to have paid less than 1.5 times the hourly basic rate of pay for all hours worked in excess of the prevailing hours of labor.

(b) 1. to 3. to a certified farmland preservation zoning ordinance. The political subdivision shall include a copy of the amendment in the notice. This paragraph does not apply to an amendment that rezones land out of a farmland preservation zoning district.

91.38 Requirements for certification of ordinance. (1) A farmland preservation zoning ordinance does not qualify for certification under s. 91.36 unless all of the following apply:

(a) The farmland preservation zoning ordinance includes jurisdictional, organizational, and enforcement provisions that are necessary for proper administration.

(c) The farmland preservation zoning ordinance clearly designates farmland preservation zoning districts in which land uses are limited in compliance with s. 91.42.

(d) The farmland preservation zoning ordinance includes maps that clearly delineate each farmland preservation zoning district, so that a reader can easily determine whether a parcel is within a farmland preservation zoning district; that are correlated to the text under par. (e); and that comply with technical specifications that the department establishes by rule.

(e) The text of the farmland preservation zoning ordinance clearly describes the types of land uses authorized in each farmland preservation zoning district.

(f) The farmland preservation zoning ordinance is substantially consistent with a certified farmland preservation plan.

(g) Except as provided by the department by rule, land is not included in a farmland preservation zoning district unless the land is included in a farmland preservation area identified in the county certified farmland preservation plan.

(h) If an overlay district, such as an environmental corridor, is superimposed on a farmland preservation zoning district, all of the following apply:

1. The farmland preservation zoning ordinance clearly identifies the overlay district as such.

2. The overlay district is shown on the maps under par. (d) in a way that allows a reader to easily identify the underlying farmland preservation zoning district and its boundaries.

3. The overlay district does not remove land use restrictions from the underlying farmland preservation zoning district.

(i) The farmland preservation zoning ordinance complies with any other requirements that the department specifies by rule.

(2) An amendment to a farmland preservation zoning ordinance qualifies for certification under s. 91.36 if it complies with all of the requirements in sub. (1) that

are relevant to the amendment and it does not cause the farmland preservation zoning ordinance to violate any of the requirements in sub. (1).

(3) The limits on land uses in farmland preservation districts under s. 91.42 are minimum standards for certification of a farmland preservation zoning ordinance under s. 91.36.

91.40 Applying for certification of ordinance. A political subdivision seeking certification of a farmland preservation zoning ordinance or amendment to a farmland preservation zoning ordinance shall submit all of the following to the department in writing, along with any other relevant information that the political subdivision chooses to provide:

(2) All of the following background information:

(a) A concise summary of the farmland preservation zoning ordinance or amendment, including key changes from any previously certified farmland preservation zoning ordinance.

(c) A description of the relationship of the farmland preservation zoning ordinance or amendment to the county certified farmland preservation plan, including any material inconsistencies between the farmland preservation zoning ordinance or amendment and the county certified farmland preservation plan.

(3) A statement, signed by the county planning director or the chief elected official, certifying that the farmland preservation zoning ordinance or amendment complies with s. 91.38 (1) (g) and (h).

(4) A statement, signed by the applicant's attorney or chief elected official, certifying that the farmland preservation zoning ordinance or amendment complies with all applicable requirements in s. 91.38.

(5) Other relevant information that the department requires by rule.

91.42 Land use in farmland preservation zoning districts; general. A farmland preservation zoning ordinance does not qualify for certification under s. 91.36, if the farmland preservation zoning ordinance allows a land use in a farmland preservation zoning district other than the following land uses:

(1) Uses identified as permitted uses in s. 91.44.

(2) Uses identified as conditional uses in s. 91.46.

(3) Prior nonconforming uses, subject to s. 59.69 (10), 60.61 (5), or 62.23 (7) (h).

(4) Other uses allowed by the department by rule.

91.44 Permitted uses. (1) A farmland preservation zoning ordinance does not comply with s. 91.42 if the farmland preservation zoning ordinance allows as a permitted use in a farmland preservation zoning district a land use other than the following land uses:

(a) Agricultural uses.

(b) Accessory uses.

(c) Agriculture−related uses.

(d) Nonfarm residences constructed in a rural residential cluster in accordance with an approval of the cluster as a conditional use under s. 91.46 (1) (e).

(e) Undeveloped natural resource and open space areas.

(f) A transportation, utility, communication, or other use that is required under state or federal law to be located in a specific place or that is authorized to be located in a specific place under a state or federal law that preempts the requirement of a conditional use permit for that use.

(g) Other uses identified by the department by rule.

(2) The department may promulgate rules imposing additional limits on the permitted uses that may be allowed in a farmland preservation zoning district in order for a farmland preservation zoning ordinance to comply with s. 91.42.

91.46 Conditional uses. (1) GENERAL. A farmland preservation zoning ordinance does not comply with s. 91.42 if the farmland preservation zoning ordinance allows as a conditional use in a farmland preservation zoning district a land use other than the following land uses:

(a) Agricultural uses.

(b) Accessory uses.

(c) Agriculture−related uses.

(d) Nonfarm residences that qualify under sub. (2) or that meet more restrictive standards in the farmland preservation zoning ordinance.

(e) Nonfarm residential clusters that qualify under sub. (3) or that meet more restrictive standards in the farmland preservation zoning ordinance.

(f) Transportation, communications, pipeline, electric transmission, utility, or drainage uses that qualify under sub. (4).

(2) NONFARM RESIDENCES. A proposed new nonfarm residence or a proposal to convert a farm residence to a nonfarm residence through a change in occupancy qualifies for the purposes of sub. (1) (d) if the political subdivision determines that all of the following apply:

(a) The ratio of nonfarm residential acreage to farm acreage on the base farm tract on which the residence is or will be located will not be greater than 1 to 20 after the residence is constructed or converted to a nonfarm residence.

(b) There will not be more than 4 dwelling units in nonfarm residences, nor, for a new nonfarm residence, more than 5 dwelling units in residences of any kind, on the base farm tract after the residence is constructed or converted to a nonfarm residence.

(c) The location and size of the proposed nonfarm residential parcel, and, for a new nonfarm residence, the location of the nonfarm residence on that nonfarm residential parcel, will not do any of the following:

1. Convert prime farmland from agricultural use or convert land previously used as cropland, other than a woodlot, from agricultural use if on the farm there is a reasonable alternative location or size for a nonfarm residential parcel or nonfarm residence.

2. Significantly impair or limit the current or future agricultural use of other protected farmland.

(3) NONFARM RESIDENTIAL CLUSTER. A political subdivision may issue one conditional use permit that covers more than one nonfarm residence in a qualifying nonfarm residential cluster. A nonfarm residential cluster qualifies for the purposes of sub. (1) (e) if all of the following apply:

(b) The political subdivision imposes legal restrictions on the construction of the nonfarm residences so that if all of the nonfarm residences were constructed, each would satisfy the requirements under sub. (2).

(4) TRANSPORTATION, COMMUNICATIONS, PIPELINE, ELECTRIC TRANSMISSION, UTILITY, OR DRAINAGE USE. A transportation, communications, pipeline, electric transmission, utility, or drainage use qualifies for the purposes of sub. (1) (f) if the political subdivision determines that all of the following apply:

(a) The use and its location in the farmland preservation zoning district are consistent with the purposes of the farmland preservation zoning district.

(b) The use and its location in the farmland preservation zoning district are reasonable and appropriate, considering alternative locations, or are specifically approved under state or federal law.

(c) The use is reasonably designed to minimize conversion of land, at and around the site of the use, from agricultural use or open space use.

(d) The use does not substantially impair or limit the current or future agricultural use of surrounding parcels of land that are zoned for or legally restricted to agricultural use.

(e) Construction damage to land remaining in agricultural use is minimized and repaired, to the extent feasible.

(5) GOVERNMENTAL, INSTITUTIONAL, RELIGIOUS, OR NONPROFIT COMMUNITY USE. A governmental, institutional, religious, or nonprofit community use qualifies for the purposes of sub. (1) (g) if the political subdivision determines that all of the following apply:

(d) The use does not substantially impair or limit the current or future agricultural use of surrounding parcels of land that are zoned for or legally restricted to agricultural use.

(e) Construction damage to land remaining in agricultural use is minimized and repaired, to the extent feasible.

(6) NONMETALLIC MINERAL EXTRACTION. Nonmetallic mineral extraction qualifies for the purposes of sub. (1) (h) if the political subdivision determines that all of the following apply:

(a) The operation complies with subch. I of ch. 295 and rules promulgated under that subchapter, with applicable provisions of the local ordinance under s. 295.13 or 295.14, and with any applicable requirements of the department of transportation concerning the restoration of nonmetallic mining sites.

(b) The operation and its location in the farmland preservation zoning district are consistent with the purposes of the farmland preservation zoning district.

(c) The operation and its location in the farmland preservation zoning district are reasonable and appropriate, considering alternative locations outside the farmland preservation zoning district, or are specifically approved under state or federal law.

(d) The operation is reasonably designed to minimize the conversion of land around the extraction site from agricultural use or open space use.

(e) The operation does not substantially impair or limit the current or future agricultural use of surrounding parcels of land that are zoned for or legally restricted to agricultural use.

(f) The farmland preservation zoning ordinance requires the owner to restore the land to agricultural use, consistent with any required locally approved reclamation plan, when extraction is completed.

91.48 Rezoning of land out of a farmland preservation zoning district. **(1)** A political subdivision with a certified farmland preservation zoning ordinance may rezone land out of a farmland preservation zoning district without having the rezoning certified under s. 91.36, if all of the following apply:

(a) The political subdivision finds all of the following, after public hearing:

1. The land is better suited for a use not allowed in the farmland preservation zoning district.

2. The rezoning is consistent with any applicable comprehensive plan.

3. The rezoning is substantially consistent with the county certified farmland preservation plan.

4. The rezoning will not substantially impair or limit current or future agricultural use of surrounding parcels of land that are zoned for or legally restricted to agricultural use.

(b) Beginning on January 1, 2010, the person who requests the rezoning pays to the political subdivision, for each rezoned acre or portion thereof, a conversion fee equal to the greater of the following:

1. Three times the per acre value, for the year in which the land is rezoned, of the highest value category of tillable cropland in the city, village, or town in which the rezoned land is located, as specified by the department of revenue under s. 73.03 (2a).

2. An amount specified in the certified farmland preservation zoning ordinance.

(2) A political subdivision shall by March of 1 each year provide all of the following to the department:

(b) A report of the total amount of conversion fees that the political subdivision received as conversion fees under sub. (1) (b) for the rezoned acres under par. (a).

(c) A conversion fee equal to the amount under sub. (1) (b) 1. for each rezoned acre reported under par. (a).

(3) A political subdivision that is not a county shall by March 1 of each year submit a copy of the information that it reports to the department under sub. (2) (a) and (b) to the county in which the political subdivision is located.

(4) If a political subdivision fails to comply with sub. (2), the department may withdraw the certification granted under s. 91.06, 2007 stats, or under s. 91.36 for the political subdivision's farmland preservation zoning ordinance.

91.49 Use of conversion fee revenues. (1) All conversion fees received under s. 91.48 (2) (c) shall be deposited in the working lands fund.

(2) If a political subdivision specifies a conversion fee under s. 91.48 (1) (b) 2. that is higher than the amount that is specified in s. 91.48 (1) (b) 1. and required to be paid to the department under s. 91.48 (2) (c), the political subdivision shall use the difference for its costs related to farmland preservation planning, zoning, or compliance monitoring.

91.50 Exemption from special assessments. (1) Except as provided in sub. (3), no political subdivision, special purpose district, or other local governmental entity may levy a special assessment for sanitary sewers or water against land in agricultural use, if the land is located in a farmland preservation zoning district.

(2) A political subdivision, special purpose district, or other local governmental entity may deny the use of improvements for which the special assessment is levied to land that is exempt from the assessment under sub. (1).

(3) The exemption under sub. (1) does not apply to an assessment that an owner voluntarily pays, after the assessing authority provides notice of the exemption under sub. (1).

SUBCHAPTER VI

AGRICULTURAL ENTERPRISE AREAS

91.84 Agricultural enterprise areas; general. (1) DESIGNATION. (a) 1. The department may by rule designate agricultural enterprise areas targeted for agricultural preservation and development.

2. The department may by rule modify or terminate the designation of an agricultural enterprise area.

(b) Subject to par. (c), the department may designate agricultural enterprise areas with a combined area of not more than 1,000,000 acres of land.

(c) Before January 1, 2012, the department may designate not more than 15 agricultural enterprise areas with a combined area of not more than 200,000 acres of land.

(e) The department may not designate an area as an agricultural enterprise area unless all of the following apply:

1. The department receives a petition requesting the designation and the petition complies with s. 91.86.

3. The parcels in the area are contiguous. Parcels that are only separated by a lake, stream, or transportation or utility right−of−way are contiguous for the purposes of this subdivision.

4. The area is located entirely in a farmland preservation area identified in a certified farmland preservation plan.

5. The land in the area is primarily in agricultural use.

(f) In designating agricultural areas under this subsection, the department shall give preference to areas that include at least 1,000 acres of land.

(2) EMERGENCY RULES. The department may use the procedure under s. 227.24 to promulgate a rule designating an agricultural preservation area or modifying or terminating the designation of an agricultural preservation area. Notwithstanding s. 227.24 (1) (a) and (3), the department is not required to determine that promulgating a rule under this subsection as an emergency rule is necessary for the preservation of the public peace, health, safety, or welfare and is not required to provide a finding of emergency for a rule promulgated under this subsection.

(3) EFFECT OF DESIGNATION. The designation of an area under sub. (1) allows owners of eligible land within the area to enter into farmland preservation agreements with the department. If the department modifies or terminates the designation of an area under sub. (1) and that modification or termination results in land covered by a farmland preservation agreement no longer being located in a designated area, the farmland preservation agreement remains in effect for the

remainder of its term, but the department may not extend or renew the farmland preservation agreement.

(4) MAP. In a rule designating an agricultural enterprise area, the department shall include a map that clearly shows the boundaries of the proposed agricultural enterprise area so that a reader can easily determine whether a parcel of land is located within the agricultural enterprise area.

(5) EFFECTIVE DATE OF DESIGNATION. The designation of an agricultural enterprise area takes effect on January 1 of the calendar year following the year in which the rule designating the area is published, unless the rule specifies a later effective date.

91.86 Agricultural enterprise area; petition. (1) DEFINITION. In this section, "eligible farm" means a farm that produced at least $6,000 in gross farm revenues during the taxable year preceding the year in which a petition is filed requesting the department to designate an area in which the farm is located as an agricultural enterprise area or a total of at least $18,000 in gross farm revenues during the 3 taxable years preceding the year in which a petition is filed.

(2) PETITIONERS. (a) The department may consider a petition requesting that it designate an area as an agricultural enterprise area if all of the following jointly file the petition:

1. Each political subdivision in which any part of the proposed agricultural enterprise area is located.

2. Owners of at least 5 eligible farms located in the area.

(b) Each petitioner under par. (a) who is an individual shall sign the petition. For a petitioner that is not an individual, an authorized officer or representative shall sign the petition.

(3) CONTENTS OF PETITION. (a) The department may not approve a petition requesting that it designate an area as an agricultural enterprising area unless the petition contains all of the following:

1. The correct legal name and principal address of each petitioner.

2. A summary of the petition that includes the purpose and rationale for the petition.

3. A map that clearly shows the boundaries of the proposed agricultural enterprise area so that a reader can easily determine whether a parcel of land is located within the proposed area.

4. Information showing that the proposed agricultural enterprise area meets the requirements under s. 91.84 (1) (e).

5. A clear description of current land uses in the proposed agricultural enterprise area, including current agricultural uses, agriculture−related uses, transportation, utility, energy, and communication uses, and undeveloped natural resource and open space uses.

6. A clear description of the agricultural land use and development goals for the proposed agricultural enterprise area, including proposed agricultural uses, agriculture−related uses, and relevant transportation, utility, energy, and communication uses.

7. A plan for achieving the goals under subd. 6., including any planned investments, grants, development incentives, cooperative agreements, land or easement purchases, land donations, and promotion and public outreach activities.

8. A description of any current or proposed land use controls in the proposed agricultural enterprise area, including farmland preservation agreements.

(b) Petitioners under sub. (2) may include in the petition the names and addresses of other persons who propose to cooperate in achieving the goals under par. (a) 6.
