SYNOPSIS

This bill is a result of recommendations made by the Joint Sunset Committee. This bill phases out the two tier licensure structure in . Currently, the Board of Massage and Bodywork issues licenses to massage and bodywork therapists and certificates to massage technicians. Licensed therapists are required to complete at least 500 hours of education and pass a certification examination. Massage
technicians are required to complete 300 hours of education and are not required to take an examination. The only state to have this two tier system. The intent of this bill is to ultimately eliminate the massage technician category and require all practitioners to become licensed therapists. The higher educational requirements and the examination requirement will serve to improve practitioner training and competence and thus will benefit the recipients of massage services. Upon enactment, the Board will no longer accept applications for or issue massage technician certificates. However, technicians who maintain current, active certificates will have a three year window of opportunity to upgrade to licensure as therapists. To achieve licensure, massage technicians will be required to successfully complete an examination. No further education will be required.

Pursuant to this bill, three years after enactment, the Board composition will be modified to reflect the elimination of the massage technician category. The Board will consist of four licensed massage and bodywork therapists and three public members.

This bill expands the powers of the Board to include adoption of rules pertaining to advertising and unprofessional conduct by licensees and the adoption of a Client Disclosure Form, to be used by certified massage technicians. The form will require technicians to disclose to the public that they are not licensed therapists.

This bill also amends the requirements for licensure to enable the Board to take into account the applicant's professional disciplinary and criminal history. Further, all applicants will be required to undergo a criminal background check.

This bill expands the grounds for discipline to include unprofessional conduct, which shall be specified further in the Board's rules and regulations. Further, where a licensee is found guilty of a violation of the Board's law or rules, this bill gives the Board the discretion to impose a monetary penalty not to exceed $500 for each violation.

Finally, this bill clarifies and corrects certain statutory language.
