19 The appropriations in this section are subject to the following
20 conditions and limitations:

21 ~~(1) ((The department shall provide updated information on six~~
22 ~~project milestones for all active projects, funded in part or in whole~~
23 ~~with 2005 transportation partnership account funds or 2003 nickel~~

26 ~~information on six project milestones for projects funded with~~
27 ~~preexisting funds and that are agreed to by the legislature, office of~~
28 ~~financial management, and the department, on a quarterly basis.~~

29 ~~(2))~~ \$3,754,000 of the motor vehicle account--state appropriation
30 is provided solely for the department's compliance with its national
31 pollution discharge elimination system permit.

32 ~~((3))~~ (2) It is the intent of the legislature that the real
33 estate services division of the department will recover the cost of its
34 efforts from future sale proceeds.

35 ~~((4))~~ (3) The legislature recognizes that the Dryden pit site
36 (WSDOT Inventory Control (IC) No. 2-04-00103) is unused state-owned
37 real property under the jurisdiction of the department of

1 transportation, and that the public would benefit significantly from
2 the complete enjoyment of the natural scenic beauty and recreational
3 opportunities available at the site. Therefore, pursuant to RCW
4 47.12.080, the legislature declares that transferring the property to
5 the department of fish and wildlife for recreational use and fish and
6 wildlife restoration efforts is consistent with the public interest in
7 order to preserve the area for the use of the public and the betterment
8 of the natural environment. The department of transportation shall
9 work with the department of fish and wildlife, and shall transfer and
10 convey the Dryden pit site to the department of fish and wildlife as is
11 for an adjusted fair market value reflecting site conditions, the
12 proceeds of which must be deposited in the motor vehicle fund. The
13 department of transportation is not responsible for any costs
14 associated with the cleanup or transfer of this property. By July 1,
15 2011, and annually thereafter until the entire Dryden pit property has
16 been transferred, the department shall submit a status report regarding
17 the transaction to the chairs of the legislative transportation
18 committees.

19 (4) The legislature recognizes that the trail known as the Apple
20 Capital Loop, and its extensions, serve to separate motor vehicle
21 traffic from pedestrians and bicyclists, increasing motor vehicle
22 safety on existing state route number 28. Consistent with chapter
23 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that
24 transferring portions of WSDOT Inventory Control (IC) Nos. 2-09-04537
25 and 2-09-04569 to Douglas county and the city of East Wenatchee is
26 consistent with the public interest. The legislature directs the
27 department to transfer the property to Douglas county and the city of
28 East Wenatchee. The department must be paid fair market value for any
29 portions of the transferred real property that is later abandoned,
30 vacated, or ceases to be publicly maintained for trail purposes.
31 Douglas county and the city of East Wenatchee must agree to accept
32 responsibility for trail segments within their respective jurisdictions
33 and sign an agreement with the state that the transfer of these parcels
34 to their respective jurisdictions extinguishes any state obligations to
35 improve, maintain, or be in any way responsible for these assets. The
36 department shall report to the transportation committees of the
37 legislature by June 30, 2013, and annually thereafter, on the status of
38 the transfer until complete.

10 The appropriations in this section are subject to the following
11 conditions and limitations:

12 (1)(a) \$225,000 of the motor vehicle account--state appropriation
13 is provided solely to carry out work related to assessing the
14 operational feasibility of a road user assessment, including
15 technology, agency administration, multistate and federal standards,
16 and other necessary elements. This work must be carried out under the
17 guidance of the steering committee and in coordination with the
18 transportation commission's policy assessment and public outreach
19 planning authorized in section 205(4) of this act.

20 (b) If subsequent appropriations are provided, the department may
21 conduct a limited scope pilot project to test the feasibility of a road
22 user assessment system to be applied to electric vehicles. The pilot
23 project must be carried out under the guidance of the steering
24 committee described under section 205(4) of this act and in
25 coordination with the transportation commission.

26 (2) The department shall conduct a study on the potential to
27 generate revenue from off-premise outdoor advertising signs that are
28 erected or maintained adjacent and visible to the interstate system
29 highways, primary system highways, or scenic system highways. The
30 study must provide an evaluation of the market for outdoor advertising
31 signs, including an evaluation of the number of potential advertisers
32 and the amount charged by other jurisdictions for sign permits, and
33 must provide a recommendation for a revised fee structure that
34 recognizes the market value for off-premise signs and considers
35 charging differential fees based on the size, type, and location of the
36 sign.

37 (3) The public-private partnerships office must explore retail
38 partnerships at state-owned park-and-ride facilities, as authorized in

1 RCW 47.04.295, and if feasible, solicit proposals to implement a retail
2 partnership pilot project at one park-and-ride facility by June 30,
3 2013.

12 The appropriations in this section are subject to the following
13 conditions and limitations:

14 (1) The department shall request an unanticipated receipt for any
15 federal moneys received for emergency snow and ice removal and shall
16 place an equal amount of the motor vehicle account--state appropriation
17 into unallotted status. This exchange shall not affect the amount of
18 funding available for snow and ice removal.

19 (2) \$7,000,000 of the motor vehicle account--state appropriation is
20 provided solely for third-party damages to the highway system where the
21 responsible party is known and reimbursement is anticipated. The
22 department shall request additional appropriation authority for any
23 funds received for reimbursements of third-party damages that are in
24 excess of this appropriation.

25 (3) \$7,000,000 of the motor vehicle account--federal appropriation
26 is for unanticipated federal funds that may be received during the
27 2011-2013 fiscal biennium. Upon receipt of the funds, the department
28 shall provide a report on the use of the funds to the transportation
29 committees of the legislature and the office of financial management.

30 (4) The department may work with the department of corrections to
31 utilize corrections crews for the purposes of litter pickup on state
32 highways.

33 (5) \$4,530,000 of the motor vehicle account--state appropriation is
34 provided solely for the department's compliance with its national
35 pollution discharge elimination system permit.

36 (6) The department shall continue to report maintenance

1 accountability process (MAP) targets and achievements on an annual
2 basis. The department shall use available funding to target and
3 deliver a minimum MAP grade of C for the activity of roadway striping.

4 (7) \$6,884,000 of the motor vehicle account--state appropriation is
5 provided solely for the high priority maintenance backlog. Addressing
6 the maintenance backlog must result in increased levels of service. If
7 chapter . . . (Engrossed Substitute Senate Bill No. 5251), Laws of 2011
8 (electric vehicle fee) is not enacted by June 30, 2011, \$500,000 of the
9 appropriation provided in this subsection lapses.

10 (8) (~~(\$317,000 of the motor vehicle account--state appropriation is~~
11 ~~provided solely for maintaining a new active traffic management system~~
12 ~~on Interstate 5, Interstate 90, and state route number 520.)) The~~
13 department shall track the costs associated with ((these)) active
14 traffic management systems on a corridor basis and report to the
15 transportation committees of the legislature on the costs and benefits
16 of the systems by December 1, ((2011)) 2012.

17 **Sec. 216.** 2011 c 367 s 216 (uncodified) is amended to read as
18 follows:

19 **FOR THE DEPARTMENT OF TRANSPORTATION--TRAFFIC OPERATIONS--PROGRAM Q--**
20 **OPERATING**

21	Motor Vehicle Account--State Appropriation	(((\$50,166,000))
22		<u>\$48,818,000</u>
23	Motor Vehicle Account--Federal Appropriation	\$2,050,000
24	Motor Vehicle Account--Private/Local Appropriation	(((\$127,000))
25		<u>\$250,000</u>
26	TOTAL APPROPRIATION	(((\$52,343,000))
27		<u>\$51,118,000</u>

28 The appropriations in this section are subject to the following
29 conditions and limitations:

30 (1) \$6,000,000 of the motor vehicle account--state appropriation is
31 provided solely for low-cost enhancements. Of this amount, \$10,000 of
32 the motor vehicle account--state appropriation is provided solely for
33 the department to install additional farm machinery signs to promote
34 safety in agricultural areas along state highways. The department
35 shall give priority to low-cost enhancement projects that improve
36 safety or provide congestion relief. The department shall prioritize
37 low-cost enhancement projects on a statewide rather than regional

1 basis. By September 1st of each even-numbered year, the department
2 shall provide a report to the legislature listing all low-cost
3 enhancement projects prioritized on a statewide rather than regional
4 basis completed in the prior year.

5 (2) \$145,000 of the motor vehicle account--state appropriation is
6 provided solely for the department to continue a pilot tow truck
7 incentive program and to expand the program to other areas of the
8 state. The department may provide incentive payments to towing
9 companies that meet clearance goals on accidents that involve heavy
10 trucks.

11 (3) During the 2011-2013 fiscal biennium, the department shall
12 implement a pilot program that expands private transportation
13 providers' access to high occupancy vehicle lanes. Under the pilot
14 program, when the department reserves a portion of a highway based on
15 the number of passengers in a vehicle, the following vehicles must be
16 authorized to use the reserved portion of the highway if the vehicle
17 has the capacity to carry eight or more passengers, regardless of the
18 number of passengers in the vehicle: (a) Auto transportation company
19 vehicles regulated under chapter 81.68 RCW; (b) passenger charter
20 carrier vehicles regulated under chapter 81.70 RCW, except marked or
21 unmarked stretch limousines and stretch sport utility vehicles as
22 defined under department of licensing rules; (c) private nonprofit
23 transportation provider vehicles regulated under chapter 81.66 RCW; and
24 (d) private employer transportation service vehicles. For purposes of
25 this subsection, "private employer transportation service" means
26 regularly scheduled, fixed-route transportation service that is offered
27 by an employer for the benefit of its employees. By June 30, 2013, the
28 department shall report to the transportation committees of the
29 legislature on whether private transportation provider use of high
30 occupancy vehicle lanes under the pilot program reduces the speeds of
31 high occupancy vehicle lanes. Nothing in this subsection is intended
32 to authorize the conversion of public infrastructure to private, for-
33 profit purposes or to otherwise create an entitlement or other claim by
34 private users to public infrastructure. If chapter ... (Substitute
35 Senate Bill No. 5836), Laws of 2011 is enacted by June 30, 2011, this
36 subsection is null and void.

37 (4) \$9,000,000 of the motor vehicle account--state appropriation is
38 provided solely for the department's incident response program.

1 (5) The department, in consultation with the Washington state
2 patrol, must continue a pilot program for the patrol to issue
3 infractions based on information from automated traffic safety cameras
4 in roadway construction zones on state highways. The department must
5 report to the joint transportation committee by January 1, 2012, and
6 January 1, 2013, on the status of this pilot program. For the purpose
7 of this pilot program, during the 2011-2013 fiscal biennium, a roadway
8 construction zone includes areas where public employees or private
9 contractors may be present or where a driving condition exists that
10 would make it unsafe to drive at higher speeds, such as, when the
11 department is redirecting or realigning lanes on any public roadway
12 pursuant to ongoing construction. The department shall use the
13 following guidelines to administer the program:

14 (a) Automated traffic safety cameras may only take pictures of the
15 vehicle and vehicle license plate and only while an infraction is
16 occurring. The picture must not reveal the face of the driver or of
17 passengers in the vehicle;

18 (b) The department shall plainly mark the locations where the
19 automated traffic safety cameras are used by placing signs on locations
20 that clearly indicate to a driver that he or she is entering a roadway
21 construction zone where traffic laws are enforced by an automated
22 traffic safety camera;

23 (c) Notices of infractions must be mailed to the registered owner
24 of a vehicle within fourteen days of the infraction occurring;

25 (d) The owner of the vehicle is not responsible for the violation
26 if the owner of the vehicle, within fourteen days of receiving
27 notification of the violation, mails to the patrol, a declaration under
28 penalty of perjury, stating that the vehicle involved was, at the time,
29 stolen or in the care, custody, or control of some person other than
30 the registered owner, or any other extenuating circumstances;

31 (e) For purposes of the 2011-2013 fiscal biennium pilot program,
32 infractions detected through the use of automated traffic safety
33 cameras are not part of the registered owner's driving record under RCW
34 46.52.101 and 46.52.120. Additionally, infractions generated by the
35 use of automated traffic safety cameras must be processed in the same
36 manner as parking infractions for the purposes of RCW 3.50.100,
37 35.20.220, 46.16A.120, and 46.20.270(3). However, the amount of the
38 fine issued under this subsection (5) for an infraction generated

1 through the use of an automated traffic safety camera is one hundred
2 thirty-seven dollars. The court shall remit thirty-two dollars of the
3 fine to the state treasurer for deposit into the state patrol highway
4 account; and

5 (f) If a notice of infraction is sent to the registered owner and
6 the registered owner is a rental car business, the infraction must be
7 dismissed against the business if it mails to the patrol, within
8 fourteen days of receiving the notice, a declaration under penalty of
9 perjury of the name and known mailing address of the individual driving
10 or renting the vehicle when the infraction occurred. If the business
11 is unable to determine who was driving or renting the vehicle at the
12 time the infraction occurred, the business must sign a declaration
13 under penalty of perjury to this effect. The declaration must be
14 mailed to the patrol within fourteen days of receiving the notice of
15 traffic infraction. Timely mailing of this declaration to the issuing
16 agency relieves a rental car business of any liability under this
17 section for the notice of infraction. A declaration form suitable for
18 this purpose must be included with each automated traffic infraction
19 notice issued, along with instructions for its completion and use.

20 (6) The department shall track the costs associated with active
21 traffic management systems on a corridor basis and report to the
22 transportation committees of the legislature on the cost and benefits
23 of the systems by December 1, 2011.

24 (7) State university research and extension centers serve as
25 important research hubs for university graduate students and, as such,
26 there is a safety concern with any centers being located on a state
27 highway. Therefore, consistent with RCW 46.61.415, and upon request of
28 a county with a state university research and extension center located
29 on a state highway within its respective jurisdiction, the secretary of
30 transportation shall approve a reduction of the maximum speed limit on
31 the state highway in the vicinity of the center. The speed on the
32 state highway may be less than the maximum speed permitted under RCW
33 46.61.400(2).

29 The appropriations in this section are subject to the following
30 conditions and limitations:

31 (1) \$70,000 of the motor vehicle account--state appropriation is a
32 reappropriation provided solely for a corridor study of state route
33 number 516 from the eastern border of Maple Valley to state route
34 number 167 to determine whether improvements are needed and the costs
35 of any needed improvements.

36 (2) \$200,000 of the motor vehicle account--state appropriation is
37 provided solely for extending the freight database pilot project that

1 began in 2009. Global positioning system (GPS) data is intended to
2 help guide freight investment decisions and track highway project
3 effectiveness as it relates to freight traffic.

4 (3) Within available resources, the department must collaborate
5 with the affected metropolitan planning organizations, regional
6 transportation planning organizations, transit agencies, and private
7 transportation providers to develop a plan to reduce vehicle demand,
8 increase public transportation options, and reduce vehicle miles
9 traveled on corridors affected by growth at Joint Base Lewis-McChord.

10 (4) As part of their ongoing regional transportation planning, the
11 regional transportation planning organizations across the state shall
12 work together to provide a comprehensive framework for sources and uses
13 of next-stage investments in transportation needed to improve
14 structural conditions and ongoing operations and lay the groundwork for
15 the transportation systems to support the long-term economic vitality
16 of the state. This planning must include all forms of transportation
17 to reflect the state's interests, including: Highways, streets, and
18 roads; ferries; public transportation; systems for freight; and walking
19 and biking systems. The department shall support this planning by
20 providing information on potential state transportation uses and an
21 analysis of potential sources of revenue to implement investments. In
22 carrying out this planning, regional transportation planning
23 organizations must be broadly inclusive of business, civic, labor,
24 governmental, and environmental interests in regional communities
25 across the state.

26 (5) \$190,000 of the motor vehicle account--state appropriation is
27 provided solely for the regional transportation planning organizations
28 across the state to implement the comprehensive transportation planning
29 and data framework. The framework must provide regional transportation
30 planning organizations with the ability to identify the spatial and
31 temporal status of current and future high priority projects, and the
32 next stage investment necessary to implement those projects. The
33 framework must be accessible to the public and provide transparency and
34 accountability to the regional transportation planning process.

35 (6) Within existing resources, the department shall work with the
36 department of archaeology and historic preservation to develop a
37 statewide policy regarding the curation of artifacts and the use of
38 museums and information centers as potential mitigation under the

1 national environmental policy act. This policy must address the
2 following issues: How to minimize costs associated with information
3 centers and museums; when to use existing facilities to preserve and
4 display artifacts; how to minimize the time that stand-alone facilities
5 are needed; and how to transfer artifacts and other items to facilities
6 that are not owned or rented by the department. A report regarding
7 this policy must be submitted to the joint transportation committee by
8 September 1, 2012.

22 and revenue analysis and complete a financial plan to provide
23 additional information on the revenues, expenditures, and financing
24 options available for active traffic management and congestion relief

10 construction of new buildings on a project list. Each building
11 construction project must be listed in the project list along with all

14 new facility construction must be transparent and not appropriated
15 within larger highway construction projects.

14 **Sec. 602.** 2011 c 367 s 608 (uncodified) is amended to read as
15 follows:

16 **STAFFING LEVELS**

17 (1) As the department of transportation completes delivery of the
18 projects funded by the 2003 and 2005 transportation revenue packages,
19 it is clear that the current staffing levels necessary to deliver these
20 projects are not sustainable into the future. Therefore, the
21 department is directed to quickly move forward to develop and implement
22 new business practices so that a smaller, more nimble state workforce
23 can effectively and efficiently deliver transportation improvement
24 programs as they are approved in the future, in strong partnership with
25 the private sector, while protecting the public's interests and assets.

26 (2) To this end, the department of transportation is directed to
27 reduce the size of its engineering and technical workforce to a level
28 sustained by current law revenue levels currently estimated at two
29 thousand FTEs by the end of the 2013-2015 fiscal biennium. The
30 department's current two thousand eight hundred FTE engineering and
31 technical workforce levels for highway construction will be reduced in
32 the 2011-2013 fiscal biennium, with a target of two thousand four
33 hundred FTEs by June 30, 2013, and to a level of two thousand FTEs by
34 June 30, 2015.

1 (3) In order to successfully deliver the highway construction
2 program as funded, the department of transportation may continue to
3 contract out engineering and technical services. In addition, the
4 department may continue the incentive program for retirements and
5 employee separations. (~~The department shall report quarterly to the~~
6 ~~office of financial management and the transportation committees of the~~
7 ~~legislature on its progress and plans to reduce highway construction~~
8 ~~workforce levels to two thousand FTEs by June 2015. This report must~~
9 ~~also be posted on the department's web site.))~~

10 (4) The department of transportation is directed to reduce the size
11 of its administrative operating programs for the 2013-2015 biennium.
12 As part of the department's biennial budget submittal, the department
13 shall reduce its workforce in Programs C, H, T, and S by three percent.
14 The ratio of executive management service or Washington management
15 services employee staff must be at least six staff for every manager by
16 the end of the 2013-2015 biennium.

17 **Sec. 603.** 2011 c 367 s 603 (uncodified) is amended to read as
18 follows:

19 **FUND TRANSFERS**

20 (1) The transportation 2003 projects or improvements and the 2005
21 transportation partnership projects or improvements are listed in LEAP
22 Transportation Document (~~(2011-1)~~) 2012-2 as developed (~~(April 19,~~
23 ~~2011)~~) March 8, 2012, which consists of a list of specific projects by
24 fund source and amount over a sixteen-year period. Current fiscal
25 biennium funding for each project is a line-item appropriation, while
26 the outer year funding allocations represent a sixteen-year plan. The
27 department is expected to use the flexibility provided in this section
28 to assist in the delivery and completion of all transportation
29 partnership account and transportation 2003 account (nickel account)
30 projects on the LEAP transportation documents referenced in this act.
31 For the 2009-2011 and 2011-2013 project appropriations, unless
32 otherwise provided in this act, the director of financial management
33 may authorize a transfer of appropriation authority between projects
34 funded with transportation 2003 account (nickel account)
35 appropriations, or transportation partnership account appropriations,
36 in order to manage project spending and efficiently deliver all

1 projects in the respective program under the following conditions and
2 limitations:

3 (a) Transfers may only be made within each specific fund source
4 referenced on the respective project list;

5 (b) Transfers from a project may not be made as a result of the
6 reduction of the scope of a project or be made to support increases in
7 the scope of a project;

8 (c) Each transfer between projects may only occur if the director
9 of financial management finds that any resulting change will not hinder
10 the completion of the projects as approved by the legislature. Until
11 the legislature reconvenes to consider the 2012 supplemental
12 transportation budget, any unexpended 2009-2011 appropriation balance
13 as approved by the office of financial management, in consultation with
14 the legislative staff of the house of representatives and senate
15 transportation committees, may be considered when transferring funds
16 between projects;

17 (d) Transfers from a project may be made if the funds appropriated
18 to the project are in excess of the amount needed to complete the
19 project;

20 (e) Transfers may not occur for projects not identified on the
21 applicable project list;

22 (f) Transfers may not be made while the legislature is in session;
23 and

24 (g) Transfers between projects may be made by the department of
25 transportation until the transfer amount by project exceeds two hundred
26 fifty thousand dollars, or ten percent of the total project, whichever
27 is less. These transfers must be reported quarterly to the director of
28 financial management and the chairs of the house of representatives and
29 senate transportation committees.

30 (2) At the time the department submits a request to transfer funds
31 under this section, a copy of the request must be submitted to the
32 transportation committees of the legislature.

33 (3) The office of financial management shall work with legislative
34 staff of the house of representatives and senate transportation
35 committees to review the requested transfers in a timely manner.

36 (4) The office of financial management shall document approved
37 transfers and schedule changes in the transportation executive
38 information system, compare changes to the legislative baseline funding

1 and schedules identified by project identification number identified in
2 the LEAP transportation documents referenced in this act, and transmit
3 revised project lists to chairs of the transportation committees of the
4 legislature on a quarterly basis.

5 NEW SECTION. **Sec. 604.** A new section is added to 2011 c 367
6 (uncodified) to read as follows:

7 A narrowbanding financing contract adopted by the Washington state
8 patrol is contingent upon the completion of an independent financial,
9 technical, and compliance review that must include the review of the
10 utilization of the United States department of justice's integrated
11 wireless network, which includes a risk mitigation strategy and plans,
12 age and platform of the communication equipment's technology, and
13 contractual services and obligations, to be completed and approved by
14 the office of financial management by July 31, 2012, before any
15 financial contracts using certificates of participation can be
16 executed. The office of financial management must request from the
17 federal communications commission an extension of ninety days for
18 meeting the January 1, 2013, narrowbanding mandate to allow the time
19 required to perform the review.

26 the 2013-2015 fiscal biennium. To that end, it is the intent of the
27 legislature that the spending plan for the 2013-2015 fiscal biennium

27 jurisdictions or agencies of the districts, for the purpose of
28 identifying, managing, and maintaining short heavy haul industrial
29 corridors within port district property for the movement of overweight
30 sealed containers used in international trade.

31 (b) The department of transportation shall designate that portion
32 of state route number 97 from the Canadian border to milepost 331.12 as
33 a heavy haul industrial corridor for the movement of overweight
34 vehicles to and from the Oroville railhead. The department may issue
35 special permits to vehicles operating in the heavy haul industrial

1 (2) Except as provided in subsection (1)(b) of this section, the
2 department may issue special permits to vehicles operating in a heavy
3 haul industrial corridor to carry weight in excess of weight limits
4 established in RCW 46.44.041. However, the excess weight on a single

20 (4) For purposes of this section, an overweight sealed container
21 used in international trade, including its contents, is considered
22 nondivisible when transported within a heavy haul industrial corridor
23 defined by the department.

24 (5) Any agreement entered into by the department as authorized
25 under this section with a port district adjacent to Puget Sound and
26 located within a county that has a population of more than seven
27 hundred thousand, but less than one million, must limit the
28 applicability of any established heavy haul corridor to that portion of
29 state route no. 509 beginning at milepost 0.25 in the vicinity of East

31 For the 2011-2013 fiscal biennium, the limit for any established heavy
