The Commonwealth of Massachusetts

In the Year Two Thousand Twelve

An Act making appropriations for the fiscal year 2013 for the maintenance of the departments, boards, commissions, institutions and certain activities of the Commonwealth, for interest, sinking fund and serial bond requirements and for certain permanent improvements.

Whereas, The deferred operation of this act would tend to defeat its purpose, which is immediately to make appropriations for the fiscal year beginning July 1, 2012, and to make certain changes in law, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. To provide for the operations of the several departments, boards, commissions and institutions of the commonwealth and other services of the commonwealth, and for certain permanent improvements and to meet certain requirements of law, the sums set forth in sections 2, 2B, 2D, 2E and 3, for the several purposes and subject to the conditions specified in sections 2, 2B, 2D, 2E and 3, are hereby appropriated from the General Fund unless specifically designated otherwise, subject to the provisions of law regulating the disbursement of
public funds and the approval thereof for the fiscal year ending June 30, 2013. All sums appropriated under this act, including supplemental and deficiency budgets, shall be expended in a manner reflecting and encouraging a policy of nondiscrimination and equal opportunity for members of minority groups, women and handicapped persons. All officials and employees of an agency, board, department, commission or division receiving monies under this act shall take affirmative steps to ensure equality of opportunity in the internal affairs of state government, as well as in their relations with the public, including those persons and organizations doing business with the commonwealth. Each agency, board, department, commission or division of the commonwealth, in spending appropriated sums and discharging its statutory responsibilities, shall adopt measures to ensure equal opportunity in the areas of hiring, promotion, demotion or transfer, recruitment, layoff or termination, rates of compensation, in-service or apprenticeship training programs and all terms and conditions of employment.

SECTION 1A. In accordance with Articles LXIII and CVII of the Articles of Amendment to the Constitution of the Commonwealth and section 6D of chapter 29 of the General Laws, it is hereby declared that the amounts of revenue set forth in this section by source for the respective funds of the commonwealth for the fiscal year ending June 30, 2013 are necessary and sufficient to provide the means to defray the appropriations and expenditures from such funds for said fiscal year as set forth and authorized in sections 2, 2B and 2E. The comptroller shall keep a distinct account of actual receipts from each such source by each such fund to furnish the executive office for administration and finance and the house and senate committees on ways and means with quarterly statements comparing such receipts with the projected receipts set forth herein and to include a full statement comparing such actual and projected receipts in the annual report for said fiscal year pursuant to section 12 of chapter 7A of the General Laws. The quarterly and annual reports shall also include detailed statements of any other sources of revenue for the budgeted funds in addition to those specified in this section.
SECTION 1B. The comptroller shall keep a distinct account of actual receipts of non-tax revenues by each department, board, commission or institution to furnish the executive office for administration and finance and the house and senate committees on ways and means with
quarterly statements comparing such receipts with projected receipts set forth herein and to include a full statement comparing such receipts with projected receipts in the annual report for such fiscal year pursuant to section 13 of chapter 7A of the General Laws. The quarterly and annual reports shall also include detailed statements of any other sources of revenue for the budgeted funds in addition to those specified in this section.

SECTION 3. Notwithstanding any general or special law to the contrary, for the fiscal year ending June 30, 2013 the distribution to cities and towns of the balance of the State Lottery Fund, as paid from the General Fund in accordance with clause (c) of the second paragraph of section 35 of chapter 10 of the General Laws, and additional funds from the General Fund shall be $898,980,293 and shall be apportioned to the cities and towns in accordance with this section.

Notwithstanding section 2 of chapter 70 of the General Laws or any other general or special law to the contrary, except for section 12B of chapter 76 and section 89 of chapter 71 of the General Laws, for fiscal year 2013 the total amounts to be distributed and paid to each city and town from item 7061-0008 of section 2 shall be as set forth in the following lists. The specified amounts to be distributed from said item 7061-0008 of said section 2 shall be in full satisfaction of the amounts due under chapter 70 of the General Laws.

For fiscal year 2013, the foundation budget categories for each district shall be calculated in the same manner as in fiscal year 2012. The target local share shall be calculated using the same methodology used in fiscal year 2012. Preliminary local contribution shall be the municipality's fiscal year 2012 minimum required local contribution, increased or decreased by the municipal revenue growth factor; provided, that if a municipality's preliminary contribution as a percentage of its foundation budget is more than 5 percentage points lower than the target local share, the preliminary contribution shall be recalculated using the municipality's revenue growth factor plus 1 percentage point; and if a municipality's preliminary contribution as a percentage of its foundation budget is more than 10 percentage points lower than the target local share, the preliminary contribution shall be recalculated using the municipality's revenue growth factor plus 2 percentage points. Minimum required local contribution for fiscal year 2013 shall be, for any municipality with a fiscal year 2013 preliminary contribution greater than its fiscal year 2013 target contribution, the preliminary local contribution reduced by 15 per cent of the gap between the preliminary local contribution and the target local contribution. Required local contribution shall be allocated among the districts to which a municipality belongs in direct proportion to the foundation budgets for the municipality's pupils at each of those districts. For fiscal year 2013, "prior year aid" shall be fiscal year 2012 state-appropriated chapter 70 aid. For fiscal year 2013, the "foundation aid increment" shall be the difference between: (1) the positive difference between a district's foundation budget and its required district contribution; and (2) prior year aid. For fiscal year 2013, chapter 70 aid shall be: (a) for any district that: (i) has a target aid percentage greater than the sum of a district’s prior year aid and foundation aid increment as a percentage of foundation budget; and (ii) has a combined effort yield as a percentage of foundation budget of not more than 107.5 per cent; the sum of prior year aid and 25 per cent of the difference between the district’s target aid amount and the sum of prior year aid and the district’s foundation aid increment; (b) for any district with a positive foundation aid increment not included in (a), the sum of the district’s prior year aid plus the district’s foundation aid increment; and (c) for all other districts: the sum of foundation enrollment multiplied by 40 plus prior year aid. Combined effort yield as a percentage of foundation for districts shall be...
determined by dividing the district’s combined effort yield by the district’s total foundation budget. Combined effort yield as a percentage of foundation for regional school districts shall be determined by allocating a member municipality’s combined effort yield among the districts to which said municipality belongs in direct proportion to the foundation budgets for the municipality’s pupils at each of those districts. No non-operating district shall receive chapter 70 aid in an amount greater than the district's foundation budget. If there is a conflict between the language of this section and the distribution listed below, the distribution below shall control.

The department of elementary and secondary education shall not consider health care costs for retired teachers to be part of net school spending for any district in which such costs were not considered part of net school spending in fiscal year 1994. No payments to cities, towns or counties maintaining an agricultural school pursuant to this section shall be made after November 30 of the fiscal year until the commissioner of revenue certifies acceptance of the prior fiscal year's annual financial reports submitted pursuant to section 43 of chapter 44 of the General Laws. Advance payments shall be made for some or all of periodic local reimbursement or assistance programs to any city, town, regional school district or independent agricultural and technical school that demonstrates an emergency cash shortfall, as certified by the commissioner of revenue and approved by the secretary of the executive office for administration and finance, pursuant to guidelines established by the secretary.

Section 10. (a) The commissioner of revenue shall annually on or before November 15 disburse
monies from the fund established in section 9 to a city or town that has accepted sections 3 to 7,
inclusive, and notified the commissioner of its acceptance. The community shall notify the
commissioner of the date and terms on which the voters accepted said sections 3 to 7, inclusive.
The municipal tax collecting authority shall certify to the commissioner the amount the city or
town has raised through June 30 by imposing a surcharge on its real property levy and shall
certify the percentage of the surcharge applied. In the event a city or town accepts said sections 3
to 7, inclusive, pursuant to subsection (b½) of section 3 the municipal tax collecting authority
shall certify to the commissioner by October 30, the maximum additional funds the city or town
intends to transfer to the Community Preservation Fund from allowable municipal sources for
the following fiscal year. Once certified, the city or town may choose to transfer less than the
certified amount during the following fiscal year.

(b) The commissioner shall multiply the amount remaining in the fund after any disbursements
for operating and administrative expenses pursuant to subsection (c) of section 9 by 80 per cent.
This amount distributed in the first round distribution shall be known as the match distribution.
The first round total shall be distributed to each city or town accepting said sections 3 to 7, inclusive, in an amount not less than 5 per cent but not greater than 100 per cent of the total amount raised by the additional surcharge on real property by each city or town and, if applicable, the additional funds committed from allowable municipal sources pursuant to subsection (b½) of section 3. The percentage shall be the same for each city and town and shall be determined by the commissioner annually in a manner that distributes the maximum amount available to each participating city or town.

(c) The commissioner shall further divide the remaining 20 per cent of the fund in a second round distribution, known as the equity distribution. The commissioner shall determine the equity distribution in several steps. The first step shall be to divide the remaining 20 per cent of the fund by the number of cities and towns that have accepted said sections 3 to 7, inclusive. This dividend shall be known as the base figure for equity distribution. This base figure shall be determined solely for purposes of performing the calculation for equity distribution and shall not be added to the amount received by a participant.

(d) Each city and town in the commonwealth shall be assigned a community preservation rank for purposes of the equity distribution. The commissioner shall determine each community’s rank by first determining the city or town’s equalized property valuation per capita ranking, ranking cities and towns from highest to lowest valuation. The commissioner shall also determine the population of each city or town and rank each from largest to smallest in population. The commissioner shall add each equalized property valuation rank and population rank, and divide the sum by 2. The dividend shall be the community preservation raw score for that city or town.

(e) The commissioner shall then order each city or town by community preservation raw score, from the lowest raw score to the highest raw score. This order shall be the community preservation rank for each city or town. If more than 1 city or town has the same community preservation raw score, the city or town with the higher equalized valuation rank shall receive the higher community preservation rank.

(f) After determining the community preservation rank for each city and town, the commissioner shall divide all cities or towns into deciles according to their community preservation ranking, with approximately the same number of cities and towns in each decile, and the cities or towns with the highest community preservation rank shall be placed in the lowest decile category, starting with decile 10. Percentages shall be assigned to each decile as follows:

- decile 1: 140 per cent of the base figure
- decile 2: 130 per cent of the base figure
- decile 3: 120 per cent of the base figure
decile 4  110 per cent of the base figure
decile 5  100 per cent of the base figure
decile 6  90 per cent of the base figure
decile 7  80 per cent of the base figure
decile 8  70 per cent of the base figure
decile 9  60 per cent of the base figure
decile 10  50 per cent of the base figure

After assigning each city and town to a decile according to their community preservation rank, the commissioner shall multiply the percentage assigned to that decile by the base figure to determine the second round equity distribution for each participant.

(g) Notwithstanding any other provision of this section, the total state contribution for each city and town shall not exceed the actual amount raised by the city or town’s surcharge on its real property levy and, if applicable, additional funds committed from allowable municipal sources pursuant to subsection (b1/2) of section 3.

(h) When there are monies remaining in the Massachusetts Community Preservation Trust Fund after the first and second round distributions and any necessary administrative expenses have been paid in accordance with section 9, the commissioner may conduct a third round surplus distribution. Any remaining surplus in the fund may be distributed by dividing the amount of the surplus by the number of cities and towns that have accepted sections 3 to 7, inclusive. The resulting dividend shall be the surplus base figure. The commissioner shall then use the decile categories and percentages as defined in this section to determine a surplus equity distribution for each participant.

(i) The commissioner shall determine each participant's total state grant by adding the amount received in the first round distribution with the amounts received in any later round of distributions, with the exception of a city or town that has already received a grant equal to 100 per cent of the amount the community raised by its surcharge on its real property levy.

(1) Only those cities and towns that adopt the maximum surcharge pursuant to subsection (b) of section 3 and those cities and towns that adopt the maximum surcharge and additional funds committed from allowable municipal sources such that the total funds are the equivalent of 3 per cent of the real estate tax levy against real property pursuant to subsection (b1/2) of said
section 3 shall be eligible to receive additional state monies through the equity and surplus
distributions.

(2) If less than 10 per cent of the cities and towns have accepted sections 3 to 7, inclusive,
and imposed and collected a surcharge on their real property levy, the commissioner may
calculate the state grant with only 1 round of distributions or in any other equitable manner.

(j) After distributing the Massachusetts Community Preservation Trust Fund in accordance with
this section, the commissioner shall keep any remaining funds in the trust for distribution in the
following year.

SECTION 82. Section 12 of said chapter 44B, as so appearing, is hereby amended by striking

purpose for which it was acquired. The permanent restriction shall run with the land and shall be
enforceable by the city or town or the commonwealth. The permanent restriction may also run to
the benefit of a nonprofit organization, charitable corporation or foundation selected by the city

department of revenue not later than October 1, 2012, for an adjustment of its minimum required local contribution and net school spending.

(c) If an appeal is determined to be valid, the department of revenue may reduce proportionately the minimum required local contribution amount based on the amount of shortfall in revenue or based on the amount of increase in extraordinary expenditures in the current fiscal year, but no adjustment to the minimum required local contribution on account of an extraordinary expense in the budget for the fiscal year ending June 30, 2013, shall affect the calculation of the minimum required local contribution in subsequent fiscal years. Qualifying revenue amounts shall include, but not be limited to, extraordinary amounts of free cash, overlay surplus and other available funds.

(d) If upon submission of adequate documentation, the department of revenue determines that a municipality's appeal regarding an excessive municipal revenue growth factor is valid, the department shall recalculate the municipal revenue growth factor and the department of elementary and secondary education shall use the revised growth factor to calculate the preliminary local contribution, the minimum required local contribution and any other factor that directly or indirectly uses the municipal revenue growth factor. Any relief granted as a result of an excessive municipal revenue growth factor shall constitute a permanent reduction in the minimum required local contribution.

(e) The board of selectmen in a town, the city council in a city with a plan E form of government, the mayor in any other city or a majority of the member municipalities of a regional school district which used qualifying revenue amounts in a fiscal year that are not available for use in the next fiscal year may appeal to the department of revenue not later than October 1, 2012, for an adjustment to its net school spending requirement. If an appeal is determined to be valid, the department of revenue shall reduce the net school spending requirement based on the amount of the shortfall in revenue and reduce the minimum required local contribution of member municipalities accordingly. Qualifying revenue amounts shall include, but not be limited to, extraordinary amounts of excess and deficiency, surplus and uncommitted reserves.

(f) If the regional school budget has already been adopted by two-thirds of the member municipalities then, upon a majority vote of the member municipalities, the regional school committee shall adjust the assessments of the member municipalities in accordance with the reduction in minimum required local contributions approved by the department of revenue or the department of elementary and secondary education in accordance with this section.

(g) Notwithstanding clause (14) of section 3 of chapter 214 of the General Laws or any other general or special law to the contrary, the amounts determined pursuant to this section shall be the minimum required local contribution described in chapter 70 of the General Laws. The department of revenue and the department of elementary and secondary education shall notify
the house and senate committees on ways and means and the joint committee on education of the amount of any reduction in the minimum required local contribution amount.

(h) If a city or town has an approved budget that exceeds the recalculated minimum required local contribution and net school spending amounts for its local school system or its recalculated minimum required local contribution to its regional school districts as provided in this section, the local appropriating authority shall determine the extent to which the community shall avail itself of any relief authorized by this section.

(i) The amount of financial assistance due from the commonwealth in fiscal year 2013 pursuant to chapter 70 of the General Laws or any other law shall not be changed on account of any redetermination of the minimum required local contribution pursuant to this section.

(j) The department of revenue and the department of elementary and secondary education shall issue guidelines to implement their respective duties pursuant to this section.

SECTION 169. Notwithstanding section 22N of chapter 7 of the General Laws or any other general or special law to the contrary, the bureau of purchased services within the operational services division shall set prices in fiscal year 2013 for programs under chapter 71B of the General Laws at the same level calculated for fiscal year 2012, except the prices for those programs for extraordinary relief, as defined by the division’s regulations; provided, however, that upon the request of a program, the bureau shall determine the minimum price for out-of-state purchasers by identifying the most recent price calculated for the program and applying the estimated rate of inflation, established by October 1 of each year under said section 22N of said chapter 7, in a compounded manner for each fiscal year following the most recent calculated price. The bureau shall accept and process applications for program reconstruction for fiscal year 2013 to be considered for rate adjustment in fiscal year 2014. Programs for which prices in fiscal year 2012 were lower than the full amount permitted by the operational services division may, in fiscal year 2013, change the full prices calculated for fiscal year 2012.

The criteria for the award of grants to community colleges shall focus on workforce development programs and partnerships and shall include, but not be limited to: collaboration, coordination and partnerships with commonwealth businesses and other educational and training institutions, including vocational-technical schools, state universities and career centers; a focus on existing and emerging business and industry sectors in the commonwealth, as identified by the committee; alignment of degree and certificate programs with regional workforce development demands; an ability or likelihood to foster high rates of completion of certificate and degree programs by students served by the program; and a record of, or explicit commitment to, successful job placement for program graduates. Partnerships with vocational schools shall include, but not be limited to, agreements to utilize facilities at vocational high schools and offer degrees and certificates that build upon current vocational offerings.

The committee shall make recommendations to the board of higher education and the board shall promulgate regulations to develop a formula for required matching grants to be made by business and industry partners of applicants. Required matching grants shall range from 30 cents for each state dollar invested to $3 for each state dollar invested. The lowest match amounts shall be reserved for those programs with the highest concentration of credits and credentials that articulate with other educational degrees or certifications at other educational and training institutions. The committee shall establish a formula for the geographic distribution of grant awards among the community colleges.

The committee shall solicit grant applications from community colleges and review such applications according to the criteria so established. The committee shall establish timely deadlines for the submission of applications and recommendations of grant awards including provision for an expedited process of consideration and recommendation in instances when the secretary of housing and economic development and secretary of labor and workforce development jointly certify the need for timely evaluation and disposition of the application. including the amount of each grant. The report shall include a current assessment of the progress
of each program funded through the grant program and the progress of the committee’s activity,
including any recommendations for legislation. The report shall be made available on a public

and regulations for the implementation and administration of this section.

SECTION 171. The commissioner of higher education, in consultation with the presidents of the

Notwithstanding any general or special law to the contrary, the department of transitional assistance shall provide benefits in the form of vendor payments with respect to rent and utilities whenever a determination is made that the grant has not been used in the best interests of the child or the assistance unit or other chronic misuse of benefits is occurring; provided, however, that vendor payments shall not be instituted when doing so may increase the risk of homelessness, decrease the ability to escape domestic abuse or impair the assistance unit’s ability to withhold payment as a reasonable exercise of consumer or tenant rights when there is a legitimate dispute as to whether the payment is owed. The department of transitional assistance may presume mismanagement of benefits whenever shelter costs, including, but not limited to, rent, heat, fuel and utilities, have regularly not been met without reasonable cause. At eligibility determinations and redeterminations, the department shall screen households to determine if they have chronically failed to pay rent and utilities to determine if it is appropriate to institute or terminate vendor payments and shall refer those households to the housing
consumer education centers and community-based resources for assistance in meeting their expenses.

SECTION 174. Notwithstanding any general or special law to the contrary, there shall be an independent commission to study and report on the development of a cashless payment system in using electronic benefit transfer, or EBT, cards. The commission shall research, assess and develop recommendations to implement a cashless payment system and investigate and report on the feasibility of expanding the direct vendor payment system: (i) under [direct vendor payments section]; and (ii) for rent and utility payments for all eligible recipients. The commission shall hire an independent consultant to conduct the research and assist with the preparation of any recommendations. The report shall include, but not be limited to, the following: (1) the costs associated with and any technological improvements necessary to implement and the time frame required for the expansion; (2) the implementation of a vendor payment system for the non-cash payment of rent and utility bills for all eligible recipients of direct cash assistance; and (3) the feasibility of placing fluctuating limitations on the percentage allocated to direct cash assistance and point of sale use. The commission shall submit a final report of its findings and recommendations, together with drafts of legislation necessary to implement those recommendations, by filing the same with the clerks of the senate and house on or before December 31, 2012.

SECTION 175. Notwithstanding any general or special law to the contrary, the inspector general shall conduct a data match survey involving the case records for households receiving cash assistance benefits under chapter 18 of the General Laws for the purposes of uncovering information that is inconsistent with or contradictory to information provided by the cash assistance benefit recipients. The inspector general shall submit a report that shall include the results of a further investigation on a statistically valid sample of the cases for which inconsistent or contradictory information has been found to determine if the household is receiving benefits for which it is not eligible, and if so, whether the error is due to administrative error, unintentional program violation or intentional program violation with the house and senate committees on ways and means on or before December 31, 2012; provided, however, that 60 days before filing the report the inspector general shall provide a draft of the report to the department of transitional assistance for review and comment and the inspector general shall include the department’s comments with the report when it is made public and filed.

The activities may include: (1) providing administrative services including, but not limited to, providing the medical expertise to support or administer utilization management activities, determining eligibility based on disability, supporting case management activities and similar initiatives; (2) providing consulting services related to quality assurance, program evaluation and development, integrity and soundness and project management; and (3) providing activities and services for the purpose of pursuing federal reimbursement or avoiding costs, third-party liability and recouping payments to third parties. Federal reimbursement for any expenditures made by the University of Massachusetts medical school relative to federally-reimbursable services the university provides under these interdepartmental service agreements or other contracts with the executive office shall be distributed to the university and recorded distinctly in the state accounting system. The secretary may negotiate contingency fees for activities and services related to pursuing federal reimbursement or avoiding costs and the comptroller shall certify these fees and pay them upon the receipt of this revenue, reimbursement or demonstration of costs avoided. Contracts for contingency fees shall not exceed 3 years and shall not be renewed without prior review and approval by the executive office for administration and finance. The secretary shall not pay contingency fees in excess of $40,000,000 for state fiscal year 2013; provided, however, that contingency fees paid to the University of Massachusetts medical school under an interagency service agreement for recoveries related to the special disability workload projects shall be excluded from that $40,000,000 limit for fiscal year 2013. The secretary of health and human services shall submit to the secretary of administration and finance and the senate and house committees on ways and means a quarterly report detailing the amounts of the agreements, the ongoing and new projects undertaken by the university, the amounts expended on personnel and the amount of federal reimbursement and recoupment payments that the university collected.

SECTION 178. expenditures to hospitals and community health centers required pursuant to this act, for the
purposes of making initial gross payments to qualifying acute care hospitals for the hospital
fiscal year beginning October 1, 2012. These payments shall be made to hospitals before, and in
anticipation of, the payment by hospitals of their gross liability to the fund. The comptroller shall
transfer from the fund to the General Fund on or before June 30, 2013, the amount of the transfer
authorized by this section and any allocation of that amount as certified by the director of the

associated with maintaining a pool audit unit within the office. The unit shall continue to oversee
and examine the practices in all hospitals including, but not limited to, the care of the uninsured
and the resulting free charges. The inspector general shall submit a report to the house and senate
committees on ways and means on the results of the audits and any other completed analyses on

defined pursuant to said chapter 118G and any regulations adopted under that chapter.

SECTION 182. The inspector general shall expend funds from the Health Safety Net Trust
Fund, established in section 36 of chapter 118G of the General Laws, to conduct a study and
review of the Massachusetts Medicaid program. The study shall include, but not be limited to, a
review of the program’s eligibility requirements, utilization, claims administration and
compliance with federal mandates. The inspector general shall report any preliminary findings to
the secretary of health and human services and the house and senate committees on ways and
means on or before October 30, 2012, and issue a final report on or before March 1, 2013.
