***Analysis by the Legislative Reference Bureau***

This bill makes the following changes to the election laws:

**ELECTRONIC VOTER REGISTRATION**

This bill permits a qualified elector to register to vote electronically, eliminates the position and responsibilities of special registration deputies, and requires the Government Accountability Board (GAB) to enter into agreements with other state election administrators to share information related to the registration and voting of qualified electors.

Currently, a qualified elector may register to vote at any election by mail, in person at the office of the municipal or county clerk or board of election commissioners for the municipality or county where the elector resides, or by completing a registration form with a special registration deputy no later than the 20th day before the election. A qualified elector may also register to vote at an election in person at the office of the municipal clerk or board of election commissioners for the municipality where the elector resides no later than 5 p.m. on the Friday before the election. In order to register, an elector must provide his or her name and address and certain other information required to ascertain his or her eligibility and must sign the form. With certain exceptions, an elector who registers after the 20th day before an election or an elector who registers by mail and who has not voted before in an election in this state must provide proof of residence prior to voting. Currently, the clerk or board of election commissioners must verify each registration received by mail or submitted by a special registration deputy by sending a first-class letter or postcard to the registrant at the registrant's address.

This bill permits a qualified elector who has a current and valid driver's license or identification card issued by the Department of Transportation (DOT) to register to vote at an election electronically on a secure Internet site maintained by GAB. The bill requires an electronic registration to be completed no later than the 20th day before an election in order to be valid for that election. Under the bill, a qualified elector enters the same information that appears on the current registration form and authorizes DOT to forward a copy of his or her electronic signature to GAB. The authorization affirms that all information provided by the elector is correct and has the same effect as if the elector signed the form personally. The bill also permits an elector who is currently registered to vote and who has a current and valid driver's

**SENATE BILL 295**

license or identification card to electronically enter a change of name or address using a similar procedure.

In accordance with the existing procedure for verifying registrations that are not received at the office of the municipal clerk or board of election commissioners, the bill provides that when an electronic registration is received, GAB or the clerk or board of election commissioners of the elector's municipality of residence must verify each electronic registration by sending a first-class letter or postcard to the registrant at the registrant's address. Except as otherwise permitted under the bill, if the registrant is voting for the first time in an election in this state, the registrant must provide proof of residence before voting in the election. The bill creates one exception which provides that, if an elector who registers electronically provides his or her Wisconsin driver's license number, together with his or her name and date of birth, and GAB is able to verify the information electronically at the time of registration by electronically accessing DOT's records, the elector need not provide proof of residence prior to voting. The bill directs GAB and DOT to enter into an agreement that permits GAB to verify the necessary information instantly by accessing DOT's electronic files.

Currently, each municipal clerk and board of election commissioners must maintain a file of voter registration forms for the electors of the municipality. This bill provides that the clerk or board must maintain registrations that are entered electronically in the manner prescribed by GAB, by rule.

The changes to elector registration first apply with respect to registration for voting at the first spring or partisan primary election that follows the day on which the bill becomes law by at least six months.

Current law permits municipal clerks to appoint qualified electors to serve as special registration deputies in a municipality for the purpose of registering electors of that municipality prior to the close of registration. The municipal clerk may authorize a special registration deputy to register electors at a polling place if the registration process would be facilitated by that authorization. Individuals must generally complete training provided by GAB prior to serving as a special registration deputy. This bill eliminates the authority to appoint and use special registration deputies.

This bill requires the chief election officer to enter into an agreement with the Electronic Registration Information Center for the purpose of maintaining this state's statewide voter registration list.

**ELECTION REGISTRATION OFFICIALS**

This bill allows the municipal clerk or board of election commissioners to appoint election registration officials to register voters at the polling place on election day. The bill also requires election registration officials to receive the same training as inspectors. Under the bill, the term "election registration official" refers to an individual who is appointed to register electors at the polling place.

**TESTING**

Under current law, GAB must, by rule, prescribe requirements for certifying individuals to serve as chief inspectors for an election. The board must include training as part of those requirements, but the board may not require an individual

**SENATE BILL 295**

who receives the training to take an examination. This bill allows the board to require such an examination.

**ELECTRONIC POLL LISTS**

This bill requires GAB to facilitate the creation and maintenance of electronic poll lists.

**ELECTRONIC VOTING SYSTEMS**

This bill allows GAB to certify any voting device, automatic tabulating equipment, or related equipment and materials for use in an electronic voting system, regardless of whether any such items are approved by the federal Election Assistance Commission.

Under current law, for the purpose of counting the votes cast using an electronic voting system, when an elector votes for more candidates for an office than are allowed to hold that office, an election official must create a duplicate ballot to record all the other votes that the elector cast and to eliminate the overvote. The official then marks the original and the duplicate and secures them both in the ballot container with the other ballots.

Under the bill, an election official may, instead, use the override function of the electronic voting system in order to record all votes of the elector on the original ballot other than the votes for the overvoted office. The official then marks the original ballot as an overvoted ballot and secures that ballot with the other ballots in the ballot container.

**PROOF OF RESIDENCY; RESIDENTIAL CARE FACILITY**

Under current law, an individual who wants to register to vote must present proof of residency. An individual may present any of number of different documents to prove where the individual lives, including a valid and current driver's license or identification card, a property tax bill, an utility bill, a bank statement, or a check or other document issued by a governmental unit. Under current law, the proof of residency must specify the individual's name and his or her complete and current residential address, including the numbered street address and the municipality.

Under this bill, for purposes of registering to vote with election registration officials, an occupant of a residential care facility may use a contract or intake document prepared by the residential care facility that specifies that the occupant currently resides in the facility. The bill does not apply to occupants of a retirement home.

**RECEIVING ABSENTEE BALLOTS BY MAIL**

This bill changes the date by which an elector must return and a municipal clerk must receive an absentee ballot by mail. Under current law, an elector may vote by absentee ballot either in person or by returning a completed ballot by U.S. mail. Current law requires a municipal clerk to accept and count the votes on absentee ballots received by mail as long as the ballot is postmarked no later than election day and received in the office of the municipal clerk by 4 p.m. on the Friday following election day.

**SENATE BILL 295**

This bill retains the right of an elector to vote by absentee ballot by mail, but requires the elector to return the ballot so that it is received no later than 8 p.m. on election day. Under current law, the polls close at 8 p.m. on election day.

**ABSENTEE BALLOTS; WITNESS CERTIFICATE**

Under current law, in order to vote using an absentee ballot, an individual must complete a certificate, which certifies that the individual is a qualified elector. The individual must sign the certificate in the presence of a witness who must also sign the certificate and provide his or her name and address. Under this bill, an absentee ballot may not be counted if the certificate is missing the address of a witness.

For further information see the ***state and local*** fiscal estimate, which will be printed as an appendix to this bill.
