279:21 Minimum Hourly Rate. Unless otherwise provided by statute, no person, firm, or corporation shall employ any employee at an hourly rate lower than that set forth in the federal minimum wage law, as amended or the following, whichever is higher:

METHODOLOGY:
This bill sets the minimum hourly rate paid to employees. The bill also amends the minimum hourly rate for tipped employees.
The Department of Administrative Services indicates the lowest labor grade for state employees is labor grade 1 which is paid
$10.90 per hour. New hires in these job classifications typically start at labor grade 2 or 3. A labor grade 2 position currently starts at $11.19 or $1.19 higher than the minimum wage proposed by the bill beginning on January 1, 2021, but less than the proposed $12 per hour minimum rate effective January 1, 2023. The Department assumes, because the typical starting wage rate is already close to $12 per hour, without considering step increases or cost of living adjustments, any impact on state expenditures if any
would be minimal. Any future increase the federal wage rate beyond $12.00 per hour may impact State expenditures, but any potential impact is indeterminable at this time.

The New Hampshire Municipal Association assumes this bill would increase municipal payroll expenditures by an indeterminable amount. The Association does not have information to determine the number of employees that would be affected by the bill. There will be no impact on municipal revenues.

The New Hampshire Association of Counties does not anticipate an impact on county expenditures or revenues.
