VOTE SMART
FACTS MATTER

You Inspire!

One morning I wasn't too sure I wanted to get out of bed and hear more bad news. So, I picked up my book, Genghis Khan, and read a few more chapters about how he went from town to town, basically asking each town to give him all their stuff. If they said no, he slaughtered every man, woman and child. In the end, he started running into towns that just gave him all their stuff. He conquered most of the world that way.

In any free society, the people must live amongst some unimaginable elected thugs.

They are liars and cheats who will take or trash everything earned and fought for by others – in our case, our parents and their parents before them.

But then there is you; smart enough, tough enough and courageous

enough to take on a thug or two.
And you are not alone – millions
are beginning to follow your lead
to the reality that facts expose
and a successful self-governing
people requires.

It is because of you that Vote
Smart students and staff do what
they do, why they exist at all. You
inspire us and give us purpose.

That is what you and we do.
That is what Americans do.

Facts Matter.

Data provided by

United States Senate

This section provides office information, contact information, key votes, interest group ratings, and campaign contributions for each of the 100 U.S. senators. Also included is a measure of each official's willingness to provide their issue positions through Vote Smart's Political Courage Test. The senators are listed in alphabetical order.

Office Information

Next to each senator's name is their party affiliation. Abbreviations for party affiliations are: Democratic (D); Independent (I); and Republican (R). Indicated underneath the name is whether the senator holds the Junior or Senior seat in that state.

Contact Information

The contact information listed includes: 1) Washington, DC, office phone number, 2) Washington, DC, office fax number, and 3) a webmail address. A webmail form allows you to contact a senator via their website. To access the webmail form, enter the provided address into a web browser.

You can also write to a senator at this general address:

Office of Senator [Full Name]
United States Senate

Additional contact information for senators can be obtained through our website at VoteSmart.org or by calling our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762).

Political Courage Test

The Political Courage Test asks candidates one central question: "Are you willing to honorably tell citizens where you stand on the issues you may face if elected by clearly answering questions of importance to voters?" Each election, Vote Smart organizes an effort to write, call, and repeatedly encourage each candidate to provide this essential information.

Senators with "Has Political Courage" listed after their seat were willing to provide citizens with their issue positions on the Political Courage Test at the time of their last election. Senators with "No Political Courage" listed after their seat refused to provide citizens with their issue positions on the Political Courage Test at the time of their last election. Senators with "Unknown Political Courage" are those officials who have not yet had the opportunity to fill out the Political Courage Test.

The Political Courage Test results from each senator's most recent test are included in this manual with the exception of some 2020 results, which are still being collected. If a candidate fails to demonstrate political courage on key issue questions, Vote Smart will determine the candidate's likely positions from their public statements, legislative record, and interest group ratings.

Comprehensive results for all candidates for congressional, gubernatorial, and state legislative offices can be obtained through our website at VoteSmart.org or by calling our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762).

Key Votes

Vote Smart provides easy access to the voting records of U.S. Senators and maintains a collection of key votes grouped by issue. Key votes typically include the initial passage of legislation, controversial amendments, and the final conference report votes. The following criteria are used to select key votes:

- The vote should be helpful in portraying how a senator stands on a particular issue
- The vote was passed or defeated by a very close margin
- The vote has received national media attention
- The vote should be clear for any person to understand
- A specific bill is consistently inquired about on the Voter's Research Hotline

Key vote summaries are written by Vote Smart staff and go through an approval process with political scientists of opposing viewpoints reviewing both the selection and the content. This is to ensure clarity, relevance, non-partisanship, and accuracy.

Below are the descriptions of the 17 U.S. Senate key votes included in this publication. The votes are numbered according to the tables and keys located on the senators' information pages. For each vote, the central issue of the bill is explained, but many bills encompass more than one issue. For additional details, visit our website at VoteSmart.org or call our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762). A reference key is provided on the top of each information page.

(1)Cloture Vote: The Senate may limit the debate of a bill to 30 hours if at least 3/5 majority of the Senate vote "Yea" on a motion to invoke cloture. It is not a vote on the passage of the piece of legislation, but a "Yea" vote for cloture generally indicates that the senator favors the passage of the bill. A failed cloture vote often prevents the legislation from ever coming to a vote.

Interest Group Ratings

Vote Smart collects performance evaluations from special interest groups regardless of the issue or bias of the organization. Most ratings reflect how often members of Congress have voted with the organization's preferred position on legislation that the group considers key in their area. Some organizations may also consider other actions such as committee votes, bill sponsorship, or answers to a questionnaire in their ratings. Additionally, some groups may select votes that tend to favor members of one political party over another, rather than choosing votes based solely on issue-related concerns.

Special interest group ratings can be used to find out how your elected officials were ranked by those groups you either agree or disagree with. If your concerns do not align with those of any particular special interest group, ratings can still be useful by helping indicate where an incumbent has stood on a particular set of issues in the past few years.

For consistency, Vote Smart has converted all ratings to percentages for this publication. If a rating was not available for a senator, "NA" is listed in place of a rating.

Listed below is a sampling of interest group ratings selected from the more than 1,800 groups in Vote Smart's database. The years listed in parentheses after the name of the group indicate what year or years of actions the organization considered when producing the rating. Lifetime ratings indicate an official's rating over the span of a career. The ratings are numbered according to the tables and keys located on the senator's information pages.

Also included is a measure of each official's willingness to provide their issue positions through Vote Smart's Political Courage Test. The representatives are listed in alphabetical order.

Political Courage Test

The Political Courage Test asks candidates one central question: "Are you willing to honorably tell citizens where you stand on the issues you may face if elected by clearly answering questions of importance to voters?" Each election, Vote Smart organizes an effort to write, call, and repeatedly encourage each candidate to provide this essential information.

Representatives with "Has Political Courage" listed after their seat were willing to provide citizens with their issue positions on the Political Courage Test at the time of their last election. Representatives with "No Political Courage" listed after their seat refused to provide citizens with their issue positions on the Political Courage Test at the time of their last election. Representatives with "Unknown Political Courage" are those officials who have not yet had the opportunity to fill out the Political Courage Test.

The Political Courage Test results from each representative's most recent test are included in this manual with the exception of some 2020 results, which are still being collected. If a candidate fails to demonstrate Political Courage on key issue questions, Vote Smart will determine the candidate's likely positions from their public statements, legislative record, and interest group ratings.

Comprehensive results for all candidates for congressional, gubernatorial, and state legislative offices can be obtained through our website at VoteSmart.org or by calling our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762).

Key Votes

Vote Smart provides easy access to the voting records of U.S. Representatives and maintains a collection of key votes grouped by issue. Key votes typically include the initial passage of legislation, controversial amendments, and the final conference report votes. Vote Smart uses the following criteria to select key votes:

- The vote should be helpful in portraying how a representative stands on a particular issue
- The vote was passed or defeated by a very close margin
- The vote has received national media attention
- The vote should be clear for any person to understand
- A specific bill is consistently inquired about on the Voter's Research Hotline

Key votes summaries are written by Vote Smart staff and go through an approval process with political scientists of opposing viewpoints reviewing both the selection and the content. This is to ensure clarity, relevance, non-partisanship, and accuracy.

Below are the descriptions of the 17 U.S. House of Representatives key votes that are included in this publication. The votes are numbered according to the tables and keys located on the representative's information pages. For each vote, the central issue of the bill is explained, but many bills encompass more than one issue. For additional details, visit our website at [VoteSmart.org](https://www.VoteSmart.org) or call our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762). Interest Group Ratings

Vote Smart collects performance evaluations from special interest groups regardless of the issue or bias of the organization. Most ratings reflect how often members of Congress have voted with the organization's preferred position on legislation that the group considers key in their area. Some organizations may also consider other actions such as committee votes, bill sponsorship, or answers to a questionnaire in their ratings. Additionally, some groups may select votes that tend to favor members of one political party over another, rather than choosing votes based solely on issue-related concerns.

Special interest group ratings can be used to find out how your elected officials were ranked by those groups you either agree or disagree with. If your concerns do not align with those of any particular special interest group, ratings can still be useful by helping indicate where an incumbent has stood on a particular set of issues in the past few years.

For consistency, Vote Smart has converted all ratings to percentages for this publication. If a rating was not available for a representative, "NA" is listed in place of a rating.

Listed below is a sampling of interest group ratings selected from the more than 1,800 groups in Vote Smart's database. The years listed in parentheses after the name of the group indicate what year or years of actions the organization considered when producing the rating. Lifetime ratings indicate an official's rating over the span of a career. The ratings are numbered according to the tables and keys located on the representative's information pages.
